VERY INTERESTING MEETING MONDAY

COUNCIL OF DEFENSE DO MUCH BUSINESS IN SHORT TIME YESTERDAY AND THEN ADJOURN.

TRUE AMERICANISM IN ACTION

They Passed Some Much Needed Regulations, and Show Firmness.

Yesterday morning at Louisville was held the meeting of the county council of defense, and which was attended by most every member of the council in the county, there being but three not in attendance. The matters to come before them were of much importance. In conjunction with the county agent, arrangements were made for the registration of all males from 16 years of age and upwards, that all may be listed and show why they are not at work, if they are not and what they are doing if they are employed.

Cards will be given which will be numbered, and will be a credential of the person who carries it. Without the card, one will be required to register and to pay a penalty for his neglect. The polling places through out the county will be the places for the registration, while in the city places will be provided. The registration day has been set for Saturday, June 25th from eight a. m. to 10:00 p. m. The registration places will be announced later.

Sugar Regulations.

The food commissioner Mr. W. B. Banning was in attendance and stated the regulations on the matter of sugar, which is to be placed at 2 pounds per month for each member of the family for ordinary use. 25 pounds will be allowed on the signed application of the head of each house home for canning purposes, and after the first twenty-five pounds shall have been given, then the order or request has to be submitted to the chairman of the food commission of the city, or county if in the county, where not city chairman lives.

Harvesting and Threshing.

The matter of harvesting which is just now on, and the threshing which is soon to follow, occupied the time of the council and the food administrator, as well as the county agent and it was advised that where it was practicable that all the grain be stacked and threshed from the stack, and it was considered more of the grain would be saved thereby.

The matter of farm employment was considered, and it was the consensus of opinion that no one had a right to be idle which the crisis of the war is here and eats bread, let him work at some productive occupation that he may be producing what he eats.

German Language Strictly Forbidden

Two ministers of the German Lutheran church appeared before the council of defense asking that they might preach or hold services in the German language. The council of defense shut down on the proposition strictly forbidding that any services be held of any kind whatever. If the speaking of German is a detriment to this country, banish it and do it in the right kind of spirit, do not try to execute the matter in a half hearted manner, do it effectively and do it once.

LITTLE BOY BREAKS ARM

From Wednesday's Daily. Robert Schroeder of Cedar Creek, the little son of Henry J. Schroeder and wife, is nursing a broken arm just now because of a fall which he had from a tree, in their yard a few days since. The injury was not known to have been a fracture in the beginning and was not reduced for a few days, but is making satisfactory progress since receiving attention.

LETTERS FROM FRANCE

LOOK GOOD

From Wednesday's Daily. Edward Ripple has just received a letter from his son Eddie in fact two, one written the eighteenth of May and the other one on the twen-

ty-eighth, but both posted on June 2nd, which said that all the boys were feeling fine there. There are eight of the boys from this city together and seem anxious to hear from Plattsmouth. Some friend sent the Journal to the bunch for a while. The letter from Eddie said the boys were all well with the exception of Earl Murray, who was sick for some time, but is about well again. Miss Mae Cotner also received a letter from Mr. Ripple in which he says they have a fine country there and that all the boys are together still and all well, and enjoying themselves.

THAT RECLASSIFICATION WORK

From Wednesday's Daily. At the time the classification was made, many people were placed in deferred classes, and when the year had rolled away, it was found that the occupation in which many were engaged at the beginning of the year was not followed by them and they had turned their efforts to some other avocation, the following of which would have placed them in another classification and in some instance they are without employment, some on their own account and others perhaps from other reasons and which they were not responsible for in any way. Now that a year had passed there are a large number of people who are not engaged in an essential of production occupation. It is evident that a reclassification should be made in this instance. The reclassification which will clear up the atmosphere will materially simplify matters and will again straighten out the matter of the availability of the registration lists and classes. When one has gotten behind some occupation or be placed where the occupation which he is following will place him, or be inducted, it is work or fight now, and we all should do one or the other.

JUST TWO MONTHS APART.

From Wednesday's Daily. Just two months since John Miller departed for Camp Funston, and has been in France as we mentioned a few days since, and today Frank Miller another son goes. Frank though has had much training, having been with the army for nearly six months, and knows the tactics, and is entering the service this time pretty well equipped for the training and service which is to come. John is making the trip going through the cantonments has made exceptionally good time.

UNDERWENT AN OPERATION

From Wednesday's Daily. Yesterday John Meisinger jr., with his family and Mr. Harvey who also stays with Mr. Meisinger, went to Omaha in the family car, and while there Miss Mildred had an operation for the removal of her tonsils, and adenoids, both of which have been giving her trouble for some time. The operation was attended with profuse bleeding, and the family remained until today, returning on the noon train. Miss Mildred will remain at the home of her grandparents—Jacob Meisinger and wife for the present in order that she may be convenient for the attentions of the family physician.

They enjoyed them as best pleased them, the Parmele theater being open to any who might wish to go and also the dance at Turner hall.

At the Banquet. The members of the Commercial club furnished a supper for the sixty-five boys who were to go away, and on the occasion C. C. Wescott acted as the master of ceremonies, while C. A. Rawls made the address of the occasion, and this was no exception to the many good addresses he has delivered, and the subject being one close to his heart, he did the best as was attested by the applause which he received.

Others to speak on the occasion were Mayor H. A. Schneider of this city; Earl Hunter of Weeping Water, the editor of the Weeping Water Republican who is accredited with making an excellent address which was well received, as also was the talk of O. D. Clement. The

dance at the Turner home was well patronized by both the public and the boys who were departing.

They Go This Morning. Just about 8 o'clock the boys assembled on the court house lawn for their roll call and to depart. Friends of the young men were present and the good-byes were said with meaning and the God bless you's with fervor. The band produced some inspiring numbers, which was enjoyed by all, and at the time for starting preceded the young men as they with measured quick step faced towards the Missouri Pacific station, beyond which was the cantonment, and the service which the country which they and we are proud to call ours, has called them. They were away with the people lining the walks, giving them encouragement in their departure, and wishing them a victorious return. Their return will be victorious and the finger of prophecy is now writing on the speedy fulfillment of the edict of an outraged world, against the attempted usurpation of the right of the people.

At the Railway Station. There was a large concourse of people gathered at the station to see them depart, and as the train pulled out, shouted their words of commendation and encouragement. Thus has gone out of this city and county over three score of the flower of the youth of the land, and will strike for the preservation of the right of humanity, and the maintenance of civilization, the blows while yet it is available to strike them. We know these boys will show themselves the true Americans which they are.

WE LIKE YOUR SPIRIT WEEPING WATER

THE JUVENILE BAND OF WEEPING WATER AND MANY CITIZENS BRING THEIR BOYS.

From Wednesday's Daily. It looked nice to use last evening to see leading the procession a band of young men and boys, and following autos from Weeping Water, which brought the boys who went away this morning, and furnishing music for them and those with them as well as the people of this city. The hearts of the Weeping Water people are in the right place when they left their homes, their business, and whatever they had to do, and came to make the boys glad who are going away. This shows the patriotic spirit, and is appreciated by the boys who are departing. The morale of the soldier is what wins the battle as often as it is overwhelming numbers. How are we going to keep up the morale of the troops but to inspire them with the patriotism which we should all have, let them know that we believe in them, and show we appreciate the sacrifice which they are making for the country and that we are doing the right things here, and we will sustain their morale and they will do the work. We like the way Weeping Water people are doing in throwing away their occupations and getting after the thing of doing nice the services which they can now for the boys.

ATTENTION OWNERS OF MOTOR CARS

Do you know that the famous Watters New Gas Saver and Carbon Remover is a great success, and will actually keep the water in your car cool, and eliminate the accumulation of carbon in the cylinders and spark plugs. This device will force steam in your car and thereby soften the carbon. You will save from 25 to 40 per cent more on your gas, gives your engine more "pep" and more pull, to say nothing of the more mileage you will get from a gallon of gas. Thousands of satisfied users.

One of Ours. I have one of the Watters Gas and Carbon Removers on my car, and it sure does all you claim for it. I get twenty-eight miles out of one gallon of gas, and besides it keeps the motor cool.

PROPERTY WILL GO TO CONFERENCE

From Wednesday's Daily. In the District Court today is being heard the matter of the M. E. Church at Mynard. The church was for a time in a flourishing condition but with time, the interest seemed to lag, and for some time there has been no meetings, and they have had no minister. The head authorities of the Nebraska Conference have thought it better to take the property over and convert it into money, which according to the regulations of this church is to be kept for five years. Should the church at this

place revive during that time they are to have the property if not disposed of and if it has been, then the proceeds to build another church. C. W. DeLemetre of Omaha was in the city today to look after the matter of making the transfer in the district court.

From Monday's Daily.

Large numbers of people who are friends and neighbors, attended the funeral yesterday afternoon of the late Adam Meisinger, who but a short time since died at the Emanuel Hospital at Omaha, and which was held at the St. Paul's Evangelical church. Being of a sociable disposition, and his position placing him in contact with many people, he has made a host of personal friends who were glad to show honor to his name.

The funeral services were conducted by the Rev. J. H. Steger, and the interment made in Oak Hill cemetery. The patrons on the mail route which he has served for some time past, will miss the service which he has rendered a pleasant good natured friend, and wife a beloved companion, the parents an excellent son, and all who knew him, a friend.

PLATTSMOUTH TO CELEBRATE FOURTH OF JULY

From Wednesday's Daily. Plattsmouth will celebrate the 4th of July this year by observing a program which has been prepared by the State Council of Defense and recommended by the Governor of the State to be used in every county in the State of Nebraska.

This program has just been prepared, and came into the hands of the local committee on Monday of this week. The details will be carried out as completely as possible and conform with the wishes of those who have prepared it. It is called a Community Celebration and every man, woman and child who can possibly attend is expected to do so, not merely from a desire to observe the 4th of July but as evidence of interest and cooperation in this expression of patriotism which is especially appropriate at this time.

The program will be printed in detail in a later issue of this paper. The chautauqua committee had already planned to observe the 4th of July in an appropriate way, at the tent which will remain here by courtesy of the chautauqua management, until after the 4th of July.

There will be a band concert at the Court House at ten o'clock in the morning, the program referred to above will be given at 2 o'clock at the chautauqua tent. Addresses will be given by Mr. C. A. Rawls and Hon. E. M. Pollard. All citizens are called to take especial notice of this afternoon program of which more will be announced as soon as the details can be worked out.

OLIVER HARVEY IN FRANCE.

From Monday's Daily.

Oliver Harvey is now in France, where he is a member of the aviation corps, a card was received a few days since telling of his arrival there. Some six or seven months since, Mr. Harvey went to Kelly Field, near San Antonio, Texas, and trained there, from there he went east, during all this time up until his departure for France had he met one person in all his travels which he knew. With the amount of people who has left Plattsmouth it would seem that they must be everywhere, but with millions of men a few hundred or thousand could be lost as not to be found.
