PLATTSMOUTH BOY ON SHIP PRES. LINCOLN

THEODORE ROOSEVELT NYDEN, BORN IN THIS CITY, NOW MEMBER OF NAVY, FLOATED 18 HOURS BEFORE RESCUED.

NOW VISITING AT HAVELOCK

Had Exciting Time and Hard Experience While On Life Raft In the Atlantic Ocean.

From Thursday's Daily. Yesterday morning as Edward G. Dovey, who has been at Chicago, was returning home he fell in with Teddy Nyden, who was born in this city until some four years ago, when he with the folks went to live in Havelock. Mrs. Nyden his mother is a daughter of our former townsman Peter Carlson. After leaving here young Teddy went to work as an apprentice in the Burlington shops at Havelock, at the age of sixteen, and after having worked for a year joined the navy. He had been on the transports carrying troops to France, and was returning home, when about five hundred miles out from shore of that country, the ship was torpedoed. On the life raft which provided, he with others were afloat on the ocean for eighteen hours before he and the others were picked up, and taken to Brest, France. He says the excitement was intense at the time of the torpedoing of the President Lincoln, and her sinking, and that much suffering was experienced, before they arrived at the port. Mr. Nyden was in the machine room, in the hull of the vessel, where his work was located, and was known as an oiler, but in this particular time was near deck, and thus was able to get away and was not injured by the shot of the torpedo. He says that when he shall return he will not work in the bottom of the ship again. He has been promised his choice as on deck, or below, and he is taking the deck work. Teddy will be in Plattsmouth in a few days and will visit with his many friends here.

PURCHASES A NEW TRUCK.

From Saturday's Daily. C. E. Hartford, the coal man is preparing to care for the business as he feels he should, and has just purchased a large truck, for the purpose of delivering coal. The one secured is what is known as I. H. C. Truck, getting the same from the agency of John F. Gorder. Like the pleasure car, and the car for commercial use, which is for passenger traffic, the trucks are coming and with the time will more and more displace the use of horses, not that the horse will go, but that he will be saved in the harder places, and will find other uses. The truck, may be abused, but it will not be a case for the humane society. The truck can and will relieve the horse of many very severe burdens.

THEY ARE GETTING MARRIED.

From Saturday's Daily. During the past few days the marriage license bureau of the office of the county judge has been rather active. George H. Rhoades of Howe, came to our county and carried off one of our fairest daughters, Miss Vivian A. Everett. Selmer Olson aged 22, and Miss Eva Wiese aged three years older, married in the city and after having secured a license, had the good nature to marry them. They departed on the next train for their home in Omaha.

A Very Pretty Wedding.

The wedding of Miss Elsie Rothman, occurred a few days since to Roy L. Stewart, of Lincoln, who was formerly a member of the army but on account of an injury has been discharged, and at the present time is resting in an effort to recuperate his health. Miss Elsie Rothman, the bride is one of the fair daughters of

this city having been born and growing to womanhood in this city, has a host of friends who are pleased to wish her much joy and happiness in the life which is before her.

The Journal joins with her many friends in wishing this young couple joy and happiness.

WILL HARVEST WHEAT IN WEST.

From Saturday's Daily. Henry C. Long and Elmer Fields were in the city yesterday afternoon loading their harvesting paraphernalia, for the west where they will go to Hendley, Neb., near which place Mr. Long has 285 acres of wheat which the men are going to harvest and thrash. The crop which is not a very heavy one, on account of that region being very dry during the early portion of the summer. It promises though to make about twelve bushels to the acre which should produce some 3500 bushels of wheat at the prevailing price would bring over \$8,000.

SENATE VOTES NOT TO RAISE DRAFT AGES

FALL AMENDMENT TO ARMY APPROPRIATION BILL BEATEN, 49 TO 25.

WILL REMAIN AS YET PRESENT

Action Follows Long Debate on Proposal to Extend Limits.

Washington, D. C., June 28.—The senate late today rejected by a vote of 49 to 25 the Fall amendment to the \$12,000,000,000 army appropriation bill, extending the draft ages to 20 to 40 years, respectively. Action followed long debate on the proposal.

Other Proposals Beaten

Liminary to disposition of the Fall amendment, the senate voted down, 41 to 33, an amendment by Senator Hardwick of Georgia to make the minimum age limit 21 years, as at present, instead of 20, as proposed by Senator Fall. A proposal by Senator Weeks of Massachusetts to make the maximum age 35 years instead of 40 proposed in the Fall amendment, was rejected on a viva voce vote.

Of amendments to the bill adopted, one authorizes organization of the \$100,000,000 aircraft production corporation proposed by the aircraft production board as a vehicle for coordinating aircraft production as ship building is co-ordinated by the shipping board through the emergency fleet corporation.

Plan for Basing Quotas. Another authorized the plan of basing draft quotas on the number of men in Class 1, instead of upon state populations and affecting rights of neutrals, under the draft law. The senate previously had adopted the draft quota legislation, but it has been held up in the house.

The amendment affecting neutrals provides citizens of neutral countries now subject to draft who have declared their intention of becoming American citizens shall not be eligible for citizenship if they claim exemption from the draft.

This provision, offered by Senator Hitchcock, was adopted as a substitute for an amendment approved by the state department, providing for exemption from the draft of all citizens of neutral countries.

AN EXAMPLE OF REAL COOPERATION

From Saturday's Daily. A splendid piece of cooperation is evidenced in the fact that Messrs. Clويد & Moore, Mgs. of the Parmele Theater, have closed the picture show during chautauqua weeks.

It will be remembered that these gentlemen were very active in the success of the chautauqua last year and their interest in the greatest good to the greatest number overcomes the tendency to private gain and displays a very generous and patriotic spirit towards the chautauqua management. The Committee certainly appreciates this move and doubtless the entire community will commend these genial fellows for their cooperation.

From Saturday's Daily. Yesterday Walter Cromwell, who lives some few miles south of Elmwood, while picking cherries in a tree at his home, in some way slipped and falling to the ground sustained some severe injuries, among which was the fracturing of two ribs on his left side. ED MCBRIDE DOING NICELY.

From Saturday's Daily. Edward McBride who so severely burned a few days since by the explosion of powder, is making very satisfactory progress, and it is now thought that the sight of both his eyes will be saved. The burned portions still contain much inflammation, but this is rapidly subsiding and will be well in time. ATTENTION OWNERS OF MOTOR CARS

One of Ours.

I have one of the Waters Gas and Carbon Removers on my car, and it sure does all you claim for it. I get twenty-eight miles out of one gallon of gas, and besides it keeps the motor cool.

LENINE AND TROTSKY FLEE BEFORE ARMY OF GEN. KORNILOFF

BOLSHEVIK GOVERNMENT OVERTHROWN AT CITY OF MOSCOW.

London, June 28.—According to confirmed reports today the Bolshevik government at Moscow has been overthrown, says a dispatch to the Exchange Telegraph from Copenhagen. Moscow, the report said, has been captured by General Korniloff, supported by German troops. General Kaledines is said to have co-operated with General Korniloff in the capture of Moscow.

Advices from the same sources assert that Grand Duke Nicholas has been proclaimed emperor. Nicholas Lenine, the premier, and Leon Trotsky, the minister of war, are said to have fled to the Murman coast.

The Copenhagen newspapers, the agency dispatches say, give prominence to the to the Borin dispatch quoting the Tages Zeitung of that city, as follows:

"It is believed in Petrograd that the bolshevik government will be overthrown."

London, June 28.—That the bolshevik in Siberia are weak and could be overthrown easily but for the prisoners released by them to take an active part in activities, is the contention of the Harbin correspondent on the Daily Mail.

In a dispatch dated the 23d he said that of the 20,000 persons fighting on the side of the bolsheviks in Trans-Baikalia, 4,000 are Magyars who are the chief source of the bolshevik strength.

Two or three allied divisions, said the correspondent, could put down the rebellion in Siberia.

She was made as comfortable as possible and yesterday morning was taken in an automobile to the Ford hospital in Omaha. The physician at the hospital stated that a plate would have to be fastened to the bone until it had grown together and that she would probably lose the use of her arm. The friends of the little girl and her parents will be sorry to learn of the accident, but trust that she may have the good luck to recover the use of her arm. Mr. and Mrs. Clarence Forbes, Mrs. C. CHAUTAUQUA IS IN FULL BLAST ON THE HILL

AFTERNOON AND EVENING PROGRAMS OF YESTERDAY, BOTH WELL ATTENDED AND APPRECIATED.

PROMISES TO BE BIG SUCCESS

With Exceptionally Good Talent And a Determination to Please.

From Saturday's Daily.

Yesterday afternoon the opening of the program was more than the expectations of those who are behind the project. With this kind of a reception, it is evident that the course will be up to and above the expectations. Even larger crowds were in attendance last evening, who enjoyed the musical portion of the program, which is rare in its excellence. The lecture by Booth Lowery, who is known as the "Blue Mountain Philosopher" on "Simon Says Wig-Wag" was one far above the average, and kept the crowd in good humor, and added to his fun, a strain of good hard common sense, which was well worth the price of admission not counting in the many laughs which were given for good measure.

This afternoon and evening the Reed Concert Company will entertain with music which will be well worth while. This is a company of young ladies, all of whom not only are musicians of the first class, but are stars all, as actors. This you will enjoy. Last evening the big tent was filled almost to overflowing, with a crowd which were well pleased, and which promises to be larger as the course advances.

When they arrived at home, Mrs. Voodrie, a sister who is making her home at the Troop residence, has gone to see the Home Guards drill. A number of the neighbors gathered to greet Mrs. Troop, and when Mrs. Voodrie returned she found a house or rather a porch full of people, which gave her a surprise.
