### A LETTER FROM CAMP DODGE.

Co. H, 350 Inf., July 4, 1918.

Mr. J. I. Fitch,  
My Dear Uncle—

I will write you a few lines today, as it is my birthday. We celebrated at the River View Park. It being the first time I had missed being at home for 26 years. I remember fifteen years ago today. We motored out to a celebration held in a grove of F. M. Young's near Murray. I said motored out. Well our car consisted of a lumber wagon with the side boards off, and two spring seats and a chair or two in the back. Now I am taking it by land and foot. (Some change.) I wish you could have been here yesterday. We had a big regimental parade, a contest between the twelve companies. And the Col. picked on our company as being the best marching company in the regiment. Therefore the Col. presented us with the Regimental flag, and made the rest of the companies come to present arms while we marched up and got the big flag. I'll tell you she was a beauty. Maybe you think our old Captain didn't rear his shoulders back and feel proud. And about us boys, well, I can't express our feelings, only I know we whooped and yelled every step of the way home. You can imagine how we felt.

I got to be company barber all right. This morning I was cutting our Lieut.'s hair. (He was a cow puncher before he got this office.) I asked what was on top for tomorrow. He said we were going down to the Depot brigade to a little neck-tie party, that is what he called it, but I have a different name for it from that. They are going to hang three negroes. I don't know just whether I want to indulge in it or not, but if they say so, I am there on the dot.

Well I will give you a little rifle range news too. I think the rifle practice is the most interesting thing in the army life. If you could only have been here, am sure you would have enjoyed it as well as I did, the first time out. You can imagine about how one would feel the first time up. I never had shot a large rifle like that before, and among about eight thousand soldiers, where they were firing thousands of shots every minute. I'll tell you it would make the best of us shake a little if not a whole lot.

The first ten shots fired I got ten bull's eyes and when the day wound up I was first over all, and that was the time I felt proud. The next day was rapid firing, and we were only supposed to shoot twenty times in two minutes at the best—that is, you only shot five shots and reloaded five more till you had shot the twenty. I made the record in one minute and twenty seconds, scoring fifteen bull's eyes, which was the best again. So they took me off the range and gave me the job of coaching the rest of the boys, and telling them how to shoot. It is a snap only the noise is so bad; you have to keep cotton in both ears because you sit between two fellows shooting. We start at 6:30 in the morning and shoot till 8:00 at night. Then there are our sixty pound packs we have to march home under—four miles—think of that. We will have a ninety pounder to lug when we get over there. May the Lord help me when I have to carry that. We are supposed to go from here to Italy in the near future. We sure get well fed here. Some of our meals taste like \$5.00 ones, especially when we return from a twenty mile hike.

Well, I could set here and write all night and tell things that happen, but expect you all get tired reading this, so I will save the rest till I get back—I mean till the war is over, for they won't give any passes to anyone. Give my regards to all, and tell them I am feeling fine. With love and good luck to you, I remain as ever, your nephew.

### EUGENE APPEGATF IS WOUNDED IN FRANCE

From Monday's Daily.

Word reached us Tuesday morning that Eugene Applegate, one of the first boys to enlist from this place had been wounded on the western front in France. This is the first casualty from this place and came as a great shock to all.

Eugene enlisted in the Marines about a year ago and has been in France several months. The meager news received of his being wounded states that he was wounded in the right hip and arm, but how serious is not revealed, other than that he was in a Paris hospital and that he was getting along fine. We hope it is true and that his injuries are not serious.

This newspaper received a letter from him just a few minutes before the news came of his being wounded. In the letter he stated he was well and getting along fine. As near as could be determined from his letter he was in the trenches at the time which was May 27th. According to the last information he was wounded June 5th.—Union Ledger.

### CUTTING WHEAT WITH TRACTOR

From Monday's Daily.

Robert L. Propst was cutting wheat with a tractor last week, and even if the weather was warm he was able to push the machine right into the grain, not hurting the horses, and the machine was willing to work 24 hours in the day without any kicking. He says no one could get him to go back to the proposition of cutting with horses.

### HOW THEY ENJOY IT.

To Plattsmouth Journal greetings.

In Philadelphia, where I now am is St. Stephens church, one of the oldest churches in the city, has become St. Stephens club for service men. There are rest rooms, entertainment every evening and always refreshments for both soul and body. The little verses tells how we enjoy it: Gratefully I sing to you

Old St. Stephen's club,  
How we service men do love,  
Your shows, and your grub.

Oh, Philadelphia people,  
So gentle and so kind,  
I'm sure for all you do for us,  
A place in Heaven you'll find.

So I sing St. Stephen's club,  
The service men all love,  
And we'll not forget your kindness,  
When we're called up above.

—Fred G. Dawson.

### FRANK REBAL IN FRANCE.

From Monday's Daily.

The friends and relatives of Frank Rebal have received word of his safe arrival in France, which is making a quick trip for him as he has only been gone from here for about sixty days. Frank joined the navy and has made rapid progress in becoming fitted for the position, which he went to serve in.

A. Liebershal, wife and daughter Miss Hortense, of Marquette, Michigan, are visiting in the city, for a week or so with their relatives and friends being guests at the home of Mr. Liebershal's brother and parents, Frank J., Joseph and John Liebershal.

### CELEBRATE THEIR FIFTH ANNIVERSARY

From Monday's Daily.

Mr. and Mrs. Phillip Leiper and two children were spending the Sunday yesterday at Omaha and Council Bluffs. Yesterday was the fifth anniversary of their marriage, and they took the occasion for a holiday and picnic. Coming to the

city they were going to Omaha on the early train, but missing it they went via Pacific Junction, and celebrated the recurrence of the marriage, by having a merry time any way.

Now is the time to join the War Stamp Limit Club. See Chas. C. Parmele for particulars.

## Our Service

And What It Means to You

We Have a Joint Interest in This Community

And We Wish to Join With You in Every Way to Promote the Community's Interests.

In a sense, this community is like a farm—it pays according to the way in which it is treated.

The successful farmer co-operates with his farm.

Knowing that certain soil elements are necessary to healthy crop growth, he sees to it that these elements are maintained.

The same principle holds good in community development.

Our community is composed of two closely related elements—town and country.

They are both essential to healthy community growth. Neglect or mistreatment of either of them by the other affects both—it injures the whole community. Both elements must be maintained.

Accomplishing this is simply a matter of sincere co-operation among all of us in this community.

Our idea of our own part to play for community good in a business way is—

To sell only such implements as have the quality to give high-grade results in the field.

To consider good performance by our implements as a part of our obligation.

To sell every implement at a fair price.

To practice the square deal towards each and every customer.

On this basis we invite the co-operation of every farmer in this community.
