STATE FAIR WILL AGAIN PRESENT FEATURE CIRCUS

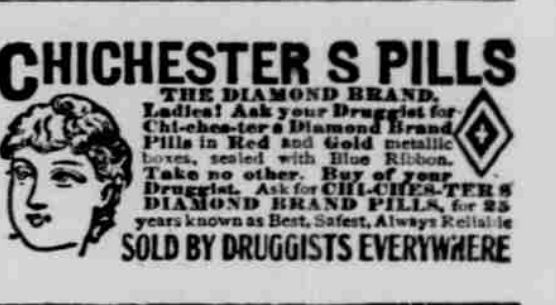

In a bulletin recently put out by the Nebraska State Board of Agriculture it is definitely stated that the Hagenbeck-Wallace Circus which last year showed before the grand stand at the State Fair has again been secured and will present an entirely new program the four last days of the fair, September 3 to 6.
It will be remembered that early in the summer the Hagenbeck-Wallace Circus suffered a disastrous wreck with the loss of a great many lives. At first it was feared that the loss of life was among members whose services could not be replaced. Definite assurance has been sent the State Board of Agriculture, however, that the circus will fulfill its engagements, the loss of life being largely among the laborers, rather than among the skilled acts. Thus the circus will come to the State Fair with a good share of its equipment new and with an entire change from the program of the preceding year.
Besides the circus, it is stated, there will be enough other attractions to require several days to take them all in. Among these may be mentioned the Rice-Wortham Carnival, the largest carnival in the business, the Hagenbeck-Wallace Side Shows with their world-famous menagerie, the Mid-Way Shows, Auto Races on Labor Day and Horse Races all other days. This is the most costly and pretentious amusement program ever presented at the Fair and should draw forth a record breaking attendance.

BULLETIN

TO ALL CONCERNED:
The following address was made by the Director General of Railroads to Shop Workers at Hillyard, Wash., on July 22nd:
'Ladies and Gentlemen—Fellow workmen, I wish I could make a speech to you but I over-strained my voice in three Liberty Loan Campaigns and the Doctor has forbidden me to make any speeches for a short time, but I do want to tell you that I am glad to see you and to be associated with you in a very great work for our Country.
To us railroad men has been assigned one of the biggest parts in this war, it depends upon us as to whether or not the Kaiser will be licked ten times as quickly as otherwise he would be. I know we are going to lick him ten times as quickly because the railroad men of the United States are going to do their duty to Uncle Sam. You are all Uncle Sam's servants now, no private interests controls the railroads any more. Uncle Sam is in command and he has his hands on the throttle. He is running these railroads and you are going to help him make a success of it. I want to give you all just as fair treatment as I know, but we are all servants of the American people—you and I alike and it depends upon the way in which we discharge our responsibilities whether or not the American people are going to treat us right. The strength of our positions must always rest upon public opinion. What I do for you from time to time must be done with reference to what is just, not alone to you but to the public, which has to pay the bills. I want to give you a square deal, the public wants to give you a square deal, but the public wants you to give it a square deal as well. When your wages are raised, how do we get the money to pay it? We have to put up the rates on all the American people and if we do not treat them fairly they will refuse to sustain me in trying to help you. I
