Hoover Says:--- "Eat What You Need, But Don't Waste!" This should be applied to numerous things:— Darn your socks, patch your clothing, save all the fuel you can and help the other man save it. WE will need it this winter. No need of burning all the lights in the house, nor leaving the window lights on after a reasonable hour. To demand new styles in war times is as unpatriotic as making bread without substitute. THRIFT and PATRIOTISM should knock "L." out of style. Every merchant bought heavy the past three years, now wholesalers are practically cleaned up on good merchandise, but they continue to come with inferior goods at fabulous prices, and we are forced to buy to supply demands for new and up-to-date "stuff." This store and every other country store has clothing enough right now to supply the demand for two years to come, if you wish all wool, perfect tailored-non-freak-clothing. But its all up to you; if you want up-to-the-minute style, then you rob Uncle Sam of that material going into the making of your style suit. When you save for Uncle Sam you're doing a patriotic duty and when you buy good honest staple clothing you are certainly saving for yourself. Take a look at our offering of \$25 guaranteed suits!
