

RED CROSS WAREHOUSE FINISHED

WAREHOUSE OPENED YESTERDAY WITH POOR SHOWING IN ATTENDANCE.—WAKE UP!

From Friday's Daily.
Yesterday afternoon, between the hours of 2 and 4, the Warehouse of the Plattsmouth Red Cross Chapter was open to the public. During the appointed hour, there was a number from this city, as well as from the various chapters throughout the county were visitors at the Warehouse, but not as many as there should have been, to view the splendid arrangement and the enormous amount of work that is being done by the chapters throughout the county, including Plattsmouth. The county chapters purchase their materials from the Plattsmouth chapter and when the work is completed it is sent to the chapter in this city to be shipped to Omaha.

For the occasion Mrs. Wm. Baird had very kindly brought some fern plants from her home, which had been placed in very decorative positions and which added cheer to this busy work room.

This room, which is the first door south of the Pease Millinery shop, has been renovated, repapered and most thoroughly cleaned and made very sanitary for packing the various Surgical Dressings, Knitted articles, hospital and refugee garments for shipment. As you step in and turn to the south, you will find a show case, containing beautiful pieces of fancy work and other articles, which were left from the Elks Fair, which was held during the early part of the summer. This fancy work and articles will be sold at any time for a nominal price and the money realized from these sales is placed in the Red Cross Fund. Next to the show case, you will find the desks of the Chairman of the Plattsmouth Chapter, Mrs. F. H. Dunbar and her assistant, Mrs. C. A. Rosencrans. On the walls have been placed appropriate pictures and posters bearing various national mottoes, which are an encouragement to the Ladies as they work. On the south and north side of the room shelving has been arranged in compartments, in which the month's quota is placed and kept until shipped. Each chapter in the county has its own compartment, their work is placed in their compartment and the name of their chapter has been placed at the top of the compartment. In order that the Surgical Dressings and Knitted articles may be protected from the dust, white curtains have been placed at the top of each compartment and when the ladies have completed their work, the curtains are drawn and in this way the work is kept clean. The materials are placed above and beneath the shelving. For the Yarn they have arranged an independent wooden frame, which is a more convenient way of caring for the yarn. On large tables placed in the center of the room was found a most excellent display of Hospital and Refugee garments. Mrs. F. R. Gobelman is Chairman of the Hospital and Refugee Garments Department and Mrs. J. W. Bookmeyer, her assistant and they are to be commended on their splendid work and untiring efforts as their display of the July quota was a most excellent one.

There are 19 Red Cross Chapters in this county, namely, Nehawka, Alvo, Greenwood, Union, Cedar Creek, Mynard, Avoca, Murdock, Louisville, Eagle, Elmwood, Fairview, Manley, Murray, Weeping Water, Wabash, South Bend, Mt.

Pleasant and Plattsmouth. They are doing splendid work and are working with a vim all the time.
Chapter F. P. E. O. society of this city offered to take the July Quota of Comfort kits. They have not only made 33, but have filled them with the necessary articles and they are complete and ready for shipment. The work was in charge of Mrs. J. E. Wiles as chairman and Mrs. Fannie Dickson as her assistant. The Red Cross Workers are very much pleased with the quota of Comfort Kits and the work accomplished by the P. E. O. Ladies is very much appreciated by the Red Cross.

The Red Cross Workers in charge of the Warehouse yesterday afternoon were Mesdames C. A. Rosencrans, J. S. Livingston, T. E. Barnicle, Wm. Baird, E. R. Gobelman, F. H. Dunbar and Miss Minnie Guthman. They were very willing to show the July quota and answer any questions in regard to this quota or the work that one might ask.

WILL PUT IN 160 IN WHEAT.

From Friday's Daily.
J. F. Clugey who has been in the western portion of the state for some time, looking after some lands which he has in that place, arrived home last night from Imperial. Mr. Clugey is greatly pleased with the country out there, this being his first trip to Imperial. He has just had a quarter of a section of new lands broken which he will put in to wheat this fall.

HOW ABOUT SOME FLAGS?

One of the citizens called attention to the matter of the display of flags in this city on the business houses and homes. The lack of such a display is evident to one who would pass around through the town, many places the colors are out, and as so cared for that they are preserved in their beauty, other places they are put out and allowed to take the weather, the rain, the sun and soon present not the proper appearance and at other places there are none at all.

If like in the day of the going out from Egypt, every one who is an American had to have a flag out there might be many who would not be passed over.

REPLACING LOST MAN POWER TO BE TAUGHT AT STATE FAIR.

How Nebraska farmers can compensate for the farm labor lost in the war will be shown at the State Fair which opens September 1st in the wonderful exhibits of implements and farm machinery which will be found on Machinery Grounds in the east part of the Fair Grounds. The 1918 machinery exhibit will be the biggest and most complete ever shown at the Fair if early indications are to be accepted. Over 100 per cent more of such exhibits have been hooked than at this time last year.

With the shortened man power some substitute must be found for the needed laborers if production is to be maintained at its former levels. With the urgent necessity for increased production it becomes doubly imperative that facilities be obtained for doing the work. New and improved machinery is the only solution of the problems. The wide awake farmers of the state will be found at the Fair this fall studying the exhibits on Machinery Ground and profiting as well as enjoying the good things the Fair has to offer.

PETE SMITH HERE.

P. B. Smith, who for the past number of years has been making his home up near Wausa, was in Plattsmouth last Friday evening, visiting a brother, and went from here to Murray, where he will spend a few days visiting with his mother and brothers. Pete has been very prosperous since moving to the northern part of the state, and has done quite well. He has grown good crops every year, and this dry one will be no exception, so he says. His corn crop never looked better, and the day he came away they were enjoying a good rain. He says Mrs. Smith's health has not been very good for the past few years, but is improving at this time.

ON TO THE RHINE THE ALLIED CRY

TIDE OF WAR BELIEVED TO BE NEAR TURNING POINT.

Flower of His Fighting Flock to Number of Half Million Being Formed to Resist Invasion of German Soil.

With the American Armies, Aug. 8.—From sections of the German army there are being drawn a certain proportion of officers and sturdiest soldiers for the formation of a force of half a million which is to have special training and have special organization. There are to be no Poles or Alsations in this army, but only fighters that the Kaiser believes can be trusted to the last. This German force is not to be used as a hammer in any new drive for Paris, not to be used in any blow against the British, not to be used "to punish" Americans, but according to information reaching the allied commanders it is being formed for no other purpose than to stand back of the Rhine against an invasion of German soil. It so happens that any allied approach upon the Rhine would be through Alsace-Lorraine, on a large part of which American forces stand. It is this force the Americans will face when the French get ready to "take the war to Germany." Come what may between now and that time, the Kaiser wants to be sure to have the force with which to make a stand for the fatherland himself.

Germans Realize Danger.

That the formation of such an army, for such a purpose, and at such a time when the Kaiser needs all the available forces on the western front what could better show than that the German high command realizes that the tide of war is about to turn, if indeed it has not already done so. One may not say that the war is almost won, but one may say that the sun now shines on our side of the fence. Up to three weeks ago for months the allies waited to see what the Germans were doing; wondered where they would strike next. Now it is the German who wonders where the allies will strike next. The war continues to be thus. Far more in value than the terrain won back from the Hun in the last three weeks is that General Foch is taking the initiative which, with the help of American, French and British troops he will maintain.

Certainly the sun shines on our side of the fence. For the first time since Russia broke down the allies no have a numerical superiority of the effectives. While for some little time the number of Americans in France have given our side the superiority as to actual numbers, the recent fighting has brought into line and support positions Americans in sufficient numbers the presence of whom, coupled with the German losses of the past month, have placed us in a position of superiority in men ready to fight. It cannot be said that the American army just now is as good a fighting machine as the Germans, but we have the makings all ready and seasoned. To carry this to a revelation of numbers would not do at this time.

Scarcity of Fighting Material.

The German army morale is unquestionably weakening so far as certain elements which make up a large part of the army is concerned. But disregarding that and putting all the boches on an equal plane, when the Germans started their drive of July 15, Hindenburg had some seventy divisions in reserve with which to batter his way to Paris. In the fighting to date since then the seventy-three German divisions have been identified, of which forty-eight were brought up from the German reserve. Of these eighty sixteen were so decimated that they cannot be used as shock troops for at least four months. Four of these were put out by the Americans. The Fifth guard division, Fourth Prussian guard, Twenty-third and Two Hundred and Sixteenth. The Germans now face the problem of building up these divisions with a great scarcity of first class fighting material.

Hindenburg had to draw heavily on his reserves, it is thus seen. On the other hand, Foch hardly touched his. Germany now has twenty frans divisions. She can use these for her promised drive against Britain. But will she? I think she will not. Hindenburg dare not take the chance with these twenty new divisions. It would leave him stripped of shock troops to meet another allied attack.

In boastful terms Germany had

announced that by a series of drives she was going to get to Paris and win the war this year America was a telling factor. The general view in the allied camps last March was that if the allies could hold Germany this year all would be well. Germany has been more than held.

The Kaiser knows this and he is forming a force of half a million men to be his "old guard" which will make for him the last stand of Prussian militarism behind the Rhine.

OLD SETTLERS PICNIC.

The Old Settlers Picnic will be held at Union, on August 23 and 24, and the usual big time is in store for every member of the family. Parties desiring concessions for these days, will please address L. R. Upton, D. A. Eaton or F. W. Young, of Union, who will give them all the desired information.

F. W. Young, from near Union, was in Plattsmouth last Wednesday, and was a pleasant caller at the Journal office, and while here ordered the bills for the Old Settlers Picnic, that will be held at Union, on August 23 and 24. Fred says they are going to exert every effort to have a bigger time than ever before. They want everybody, both young and old, far and near, to be with them on these days.

Mrs. Burns' Letter.

Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances:

Savannah, Mo., Oct. 12, 1916.
"I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint some three or four years ago and a few doses of this remedy cured me. I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used it."

Mrs. A. M. Arries was a passenger to Omaha this afternoon where she is spending a few hours.

HAIG'S FLANK MOVE CLOSES ON HUNS

London, Aug. 9.—The Canadians have taken the town of Beaufort, two and a half miles southwest of Rosieres.

The Australians are fighting further north, along the Somme. Small parties of Germans are reported to be still in Rosieres, three and one-half miles west of Chaubains but the British are all around them and their life as fighting men probably will be short.

The figure of 17,000 prisoners taken embraces the number that had been counted. Of these the French reported that they had taken more than 4,000 while the British total at noon was more than 13,000. The French have been doing good work today on the south of the new drive and probably have taken many additional prisoners there.

Close Up Salient.

The present advance has already had an important effect upon the strategic situation. German forces at Montdidier are now in a very uncomfortable salient with only one line of railway to supply them and that line under crossfire from allied guns.

It seems likely that a withdrawal from Montdidier may be necessary if the Germans cannot force the French and British back from the ground taken by them during the past two days.

Active In Italy.

London, Aug. 9.—British divisions on the Italian front carried out eight raids against Austrian positions between Asiago and Canove on Thursday night capturing 315 prisoners, according to an official statement on British operations in Italy issued by the war office today.

day of July, 1918, Harry G. Todd plaintiff, herein, filed his petition in the District court of Cass county, Nebraska, against said defendants and others, the object and prayer of which are to quiet the title in the plaintiff to the Southwest Quarter, (SW 1-4) of Section Thirty (30), Township Ten (10), Range Fourteen (14), in Cass County Nebraska, on the grounds that said tract of land was erroneously omitted from a deed thereon by Levi G. Todd, sr., to his wife, Lydia Todd, of date of July 26th, 1905, and recorded in book 45, page 127, and also for the reason that plaintiff and his predecessors in title have had actual, open, exclusive and adverse possession of said real estate for more than ten years last past.
