STATE FAIR WILL CELEBRATE ITS SEMI-CENTENNIAL

Will there be a State Fair this year? Has the State Fair been discontinued because of the war and war conditions? These are questions that have been frequently asked of late. In a special bulletin from the Nebraska State Board of Agriculture one of whose functions is the management of the State Fair we have the definite assurance that there will not only be a Fair but that barring inclement weather the Fair should go over with a new attendance record.

Every reason, it was stated, justifies such a conclusion. In the first place the Fair will be made more attractive than ever before by securing bigger, better and more costly amusements. Further, the exhibits, judging from early season inquiries and bookings, will be more varied and in greater numbers. In the third place, the State Fair, has inaugurated a great national service campaign by which Nebraskans will be encouraged toward an even bigger production of food stuffs and conservation of every available resource. Thus, whether pleasure loving or serious minded, the State Fair patrons will find in the Semi-Centennial of the Nebraska State Fair the finest to be had of their respective interests.

The success of any enterprise largely consists in giving the people what they want. In the infinite variety of interests centered in the State Fair and with an enormous expenditure to secure the best, Nebraska people, regardless of tastes, have a treat in store for them in the Semi-Centennial of the State Fair.
