

A VERY NARROW ESCAPE FROM SERIOUS INJURY

AUGUST BACH RAN DOWN IN SUB-WAY LAST NIGHT AND BADLY BRUISED BY CAR.

WAS BLINDED BY THE LIGHTS

Unable to Avoid the Car He Clings to the Radiator to Keep From Being Run Over.

From Saturday's Daily.
Last evening just after nine o'clock while August G. Bach and little nephew, George Welsch, were coming from the milking and gathering of tomatoes at the farm on the bottom, and were passing through the sub-way, a car driven by J. M. Price, and in which was Ed Scheen, the owner, and Geo. Penscoffer, ran down Mr. Bach, dragging him and bruising him badly while the little boy who was at his side climbed the concrete wall and escaped injury. The car had been at the Burlington station, just after the departure of the evening train had pulled out, and whipped around the railing which guards the subway, started down the incline, where it met Mr. Bach.

J. M. Price was the driver, and when he applied the brakes they did not respond, and when the car came directly towards Mr. Bach, he endeavored to elude it on the right side, and as the car turned that way he dodged back to the left or south side, the car also dodging that way, catching him on the radiator, on which he endeavored to hold, but just at that time the end of the axle scraped the side of the wall of the subway dislodging Mr. Bach, who still tried to hold on, to keep the car from passing over him, until the car which was dragging him, ran hard against the side of the subway and stopped. The crowd who were there ran immediately, taking him out, and carried him home. As he was pulled out, he kept saying, where is George, that is the little boy, when told that he was all right he was satisfied. He was carried to his home above the store where Dr. T. P. Livingston soon arrived and dressed the wounds which consisted of an abrasion of the skin and flesh on the right arm near the elbow, one on the right shoulder, on the back and right knee. While the left leg was injured above the knee, the right hip badly bruised, the small of his back hurt, and the ribs in his right side wrenched. This morning he is feeling very sore, but it is hoped that nothing of a serious nature will result. Too much care cannot be exercised in this matter of driving cars, for some one is liable to be killed if they are not caroused.

THE COUNTRY WAR SAVINGS SOCIETIES ARE DOING THEIR SHARE

From Saturday's Daily.
Among the genuine War Savings Societies of Cass county, the one organized west of Plattsmouth about eleven miles, in what is known as the Tritsch School District, is sure among the live ones, as their meeting held on Thursday evening of this week will sure demonstrate. This was one of the most enthusiastic and interesting meetings ever held by this society. Father Shine and J. P. Falter, of Plattsmouth, were present and delivered very able addresses along the most needed for the further development of this line of work. Their addresses were very patriotic, as well as very interesting, and were received with hearty endorsement of the large attendance, members of this society as well as many visitors. The meeting was to be held in the school house, but the attendance was so large that the building was not near large enough to accommodate them all, and in this emergency the pleasant weather permitted the holding of the meeting out of doors, so a platform was erected for the speakers outside.
This has been one of the live wire societies of Cass County, and the members are not slow in speaking a good word for their president, Mr. Frank Wood, for the success of the same. He has always taken a great deal of interest in the war work all kinds, and has rendered untiring assistance at all times, and when and wherever needed for the further development all its branches and especially to the War Savings Society of his home district.
Misses May and Glenna Barker were present at this meeting and

gave some very patriotic vocal and reading selections, that added greatly to the interest as well as the patriotic spirit of the meeting.
There were large delegations from Louisville, Manley and Weeping Water in attendance, all of whom were greatly pleased with the excellent program.
May the good work go on. These societies are rendering a great work for the best interests of winning the war, and the Tritsch School District will not be found wanting in any part of the work for the best interests of the government at all times.
Mr. Falter told his large audience that while he was born in Germany, it was not all impossible for a man to be born in Germany and be a genuine, true and loyal American at all times and under all circumstances. This is the spirit that we all want to grow as it has been growing for the past few months in Cass County, and all over this grand and glorious country of ours.

THE NEW FLAG AT THE CITY PARK

From Saturday's Daily.
Have you noticed that fine new 8x12 American Flag that has been floating so proudly from the large pole at the city park during the past few days. We know of two men in that immediate vicinity that feel very proud over this display of Old Glory, and that is Henry Steinhauer and Robt. Hayes, of the Burlington shops. These two men took particular notice of the old and worn out flag that dangled in shreds from the pole for the past few weeks, and in the course of their conversation Mr. Steinhauer volunteered to prepare a paper and take up a donation from the business men of the city for the purchase of a new one. This movement more than met the approval of Mr. Hayes and the good work was started on last Saturday evening, and before many moments had elapsed, Mr. Steinhauer had more than enough funds to purchase a new flag of the desired dimensions, but he kept right on at work, and even carried the paper until some time this week, and when the amount was totaled up he found that he could close the campaign with about \$27, enough to provide the proud Old Glory pole with its present new dress and one for the future. This gives the city park two fine new flags.
Mr. Steinhauer has volunteered his services to look after the flags in the future, and they will be raised at sunrise and lowered at sunset every day, or as near that time as will be possible for Mr. Steinhauer to do so.
We have been informed that there has been several other flags donated to the city park during the past summer, besides the ones that the city has purchased. Among them were one by L. C. Sharp and one by the Kroehler Bros.

THE CLERKS ENJOY PLEASANT OUTING

From Saturday's Daily.
On Thursday evening a happy crowd of clerks took on their arms a number of baskets laden with goodies of many varieties and made their way to the big railroad bridge east of the city, where they stopped to spend the evening and eat lunch. When each party had his or her part to do Percy Warthen was called upon to hold the coffee, which he done without much difficulty, assisted by Marvin Allen, who gathered the sticks to make the fire. Jess Brady was called upon to wash the dishes, which he done nobly, while Hermie Spies was the cook of the evening, made many salads which were greatly appreciated by all. Each party, consisting of Hermie Spies, Jess Brady, Percy Warthen, Mrs. Jesse Brady, Marvin Allen, Jr., Bessie Ptk and Josephine Sedlock had their portion of the program to look after. Growing tired and the hour getting late all started for their homes feeling very delighted over the evening affair.

Many young ladies, graduates of the well known Grand Island Business College of Grand Island, Nebraska, are now holding positions with Banks, Lumber Companies and other business firms in Nebraska, Kansas, South Dakota, Colorado, Wyoming and Montana, drawing salaries of \$100 per month—\$1,200 per year. Do you know why they are able to draw such salaries? It is because they had a desire to be of service in the world and possessed the courage and energy to equip themselves with a business training above the average. If you are ambitious and would like to qualify for Civil Service, Banking, or other business positions, write today for free catalogue. The school has been a leader in business education for more than thirty years and cannot supply the demand for its graduates.

FOUR MINUTE MEN HONORED FOR SERVICE

From Saturday's Daily.
D. C. Morgan, chairman of the Four-Minute men, has just received a set of Four Minute Men buttons and identification cards, to be presented to the local Four Minute Men speakers who have done effective service through at least three campaigns, the Government has made the award of these buttons, and they will be prized very highly.
All of the speakers, twenty-one in number, in Plattsmouth have earned the button, for all have performed marked service in the work.
Only three evenings since the organization have been missed in covering the theaters and in each of these instances a most satisfactory reason was given.
The State Director, Prof. M. M. Fogg of Lincoln has written Chairman Morgan in most complimentary terms touching on the local organization, he writes, "One of the very best organizations in the state". He also informs the organization that September 4th has been designated "Four Minute Men Day" at the state fair and requests all Four Minute Men to be present.
Since the organization of the local branch 73477 people in this city have listened to the message from the Government as passed out by the Four Minute Men.

Perhaps but few people are aware that this organization is a national organization and under military discipline, made so by Proclamation of the President. The success of the work is due in a marked degree to co-operation of the theater managers they stand ready and willing to do everything in their power to aid in the work.

We have lots of excitement with the big shells, it is fun to watch some of the boys trying to dodge the shells, also myself, and sometimes bullets fly like rain drops, but if I see I can't out run them, I dodge them, Ha! Ha! Well Mr. Rishel I will close for this time.

OVER TURNS POLICEMAN'S CAR

LARGE CAR OVER TURNS ONE DRIVEN BY POLICE AND DAMAGES SAME, GETS AWAY.

From Friday's Daily.
This morning at near one thirty, while Officer Jones and Wm. Grebe were coming down the McKonkie hill on the Chicago avenue road, they met just below the foot of the hill a large car going south. Officer Jones was driving Chief Barclay's car, and when the cars approached, Mr. Jones pulled out of the road into the weeds to allow the other car to pass, which was going at a fast rate of speed apparently straight ahead until near the car in which Mr. Jones and Mr. Grebe were, when it swerved catch the little car, with one wheel, turning it over, demolishing the wind shield, crumpling up one fender, and bending back the radiator. The occupants were thrown out, and bruised to some extent, but not seriously injured. They had stopped almost, or the results would have been more serious.
On account of the glaring headlights which the car carried, it was not possible to see who was in the car, or to tell whether there were more than one person in it or not. As the car in which Officer Jones and Mr. Grebe were in was overturned and put out of commission, they could not follow the car, and have no idea of who it was or why he should be out at that time of night.

STUDENT NURSE TRAINING RESERVE

THE GOVERNMENT WANTS 25,000 STUDENT NURSES AT ONCE.

From Saturday's Daily.
Twenty-five thousand train nurses are to be taken almost immediately to the foreign fields for work in the hospitals there, and there now exists a demand for that number of young ladies from 19 to 35, to fill the positions which will thus be vacated by this demand on the nurse supply in this country at this time.

The Woman's department of the Council of Defense, has the matter in hand, and as there is no auxiliary in this city of the Council of Defense. The matter of receiving the applications for the filling of these positions will be in the hands of the secretary of the county council which is Mr. C. C. Wescott. There are to be two classes of nurses which are known as the preferred class and the deferred class.

The preferred class will consist of those who will be willing to go any where for any kind of nursing, that the Government might call for and when needed will be called for by the Surgeon General. This is the class which is to supply anything what is needed in Army Hospitals and what it might be. The other the deferred class will be those who prefer to choose their kind of service and are to go where they prefer, but are willing to do service in a manner that they feel they are capable of doing. Those who register are to be called by April first, 1918, and are to hold themselves in readiness for the call when it shall come.

Those who register will receive a thorough training in nursing, and is preferred that the persons shall have a high school or larger education, but it is not absolutely required. An examination of a certificate will be necessary to show that their health is such a condition as will warrant them standing the rigors of the services which they are expected to render. See C. C. Wescott about the matter, he is in position to explain the matter fully, and you can learn what is required in the promises.
