Special policemen last Thursday night made a killing arresting auto speeders. Four of them were run in and Friday they were given fines of \$5 and costs each, which they paid. There seems to be a determination on the part of the city government to put a stop to the reckless driving on the streets of Eagle and this is but a foretaste of what may be expected should the practice be continued. There are other reprehensible practices also which have grown bolder as time passes and which are promised severe punishment if not curbed. The reputation of Eagle has suffered immeasurably in the past few months from the dikes of rough necks.

Here Is the Plan

THE Government is issuing during all of 1918 what is known as **U. S. Thrift Stamps**. These stamps are on sale at postoffices, banks, stores, factories and many other convenient places. A single stamp is sold for **25 cents**.

When you buy your first stamp you will be given a Thrift Card with spaces for affixing sixteen stamps. This card will show at all times just how much money you have loaned the Government.

As soon as you have sixteen stamps on your card—**\$4.00 worth**—you can take them to any place where U. S. Thrift Stamps are sold and there exchange them with a small cash payment for a "War Savings Stamp" that will pay you 4 per cent interest.

What is a War-Savings Stamp? When affixed to a War-Savings Certificate, it is an obligation of the United States Government to pay the holder **\$5.00 on January 1, 1923**. All the wealth and security of the United States are behind it. It is as good as a Government bond, which is the safest investment in the world.

Now let's see how Thrift Stamps are changed into War-Savings Stamps.

Suppose you have a card full of Thrift Stamps—**\$4.00 worth**—and want to turn them into a War-Savings Stamp in March. All you have to do is to put **fourteen cents** with your card and take it to any place where U. S. Thrift and War-Savings Stamps are sold. There it will be exchanged for a **Five Dollar War Savings Stamp**, which will put you in the investor class.

If you exchange U. S. Thrift Stamps for War-Savings Stamps in April, it will be **fifteen cents**; and so on a cent a month up to December, 1918, when the added amount will be **twenty-three cents**. The sooner you buy the less the cost.

PLATTSMOUTH LEADS THE STATE

PLATTSMOUTH HAS BEST PENMANSHIP EXHIBIT OF ANY IN THE STATE AT THE FAIR

On the matter of production this city and the city schools stands first in the state in specimens of penmanship, produced by the scholars, under the instruction of Miss Marie E. Kaufman, as shown at the state fair. The collection of samples of work, done by the pupils on the Plattsmouth schools of the different grades, landed three first premiums, which is greater than any other city of any size in the state. Besides this they took two second, premiums, and one third premium. This is a record that this city should be pleased with and with the instructor who is able to bring these results.
