THE LARGE NEW BUILDING IS CROWDED TO CAPACITY OF LOWER PORTION.

The New High school building is filled to crowding capacity with scholars, for the lower portion, it was thought that there would be no cause for the equipping of the upper portion at this time, but there seems to have been an overplus of scholars, and they have come to school, they found a nice place to come and clever and winning teachers, who have come to instruct them, and they seem to be all here. Any way the regulation of only 35 scholars to one teacher has not yet been found possible. Over forty is the rule, and then it seems as though the number keeps mounting.
