

## AGE A LITTLE AGAINST HIM

**VICTOR ALONZO WILSON, COMES  
FROM RED OAK TO WORK IN  
BURLINGTON SHOPS.**

From Wednesday's Daily.  
Yesterday a man past the meridian of life, but with a quick step, a sharp eye, and demeanor indicative of a good deal of life and energy yet to spend, alighted from the stub from over the river, and when asked his name gave it as V. A. Wilson, saying he had come recently from the Burlington here. Many other people had come recently from Red Oak and are working with the Burlington here and a fine lot of gentlemen they are proving to be also.

As we looked at Mr. Wilson, we thought well you are a little older than the men that the Burlington is looking for, but try it, so he went and looked around, but did not find anything but what looked to hard, and the management of the shops thought so too. This morning he returned to his home and at the Burlington station told that he was born March 15th, 1818, about 25 miles outside of New York City, on the trip over. He tells of his first landing at Chicago, when it was only a series of swamps, and the ground along the lake front would shake when one walked over it. Anyway he is too old for the Burlington shops job.

### FOUND SOME CORN ANY WAY.

From Tuesday's Daily.  
Edgar Johnson who came in this morning from his home at Lincoln, to visit with his mother here, stopped at Orepolis to change cars, and while waiting stepped over into an adjoining corn field to investigate the conditions of the crop, and found some very good corn, not the large ears, which is a feature of the bumper crop years, but good solid corn, that will go a long way when it comes to feeding properties, especially when the corn is short.

### ARRIVED SAFELY OVERSEAS.

From Tuesday's Daily.  
A word was received from Private James Lepert that he arrived safely overseas. He was drafted last June and was station in the Radio school at Lincoln. He enjoyed a nice trip across the continent to New York. He saw many sight while going on this trip.

### REV. F. M. DRULINER GOES TO STANTON

From Tuesday's Daily.  
Rev. F. M. Druliner who was at this place for two years, has been sent by the conference of the Methodist church to Stanton, having for the past two years been located at Red Cloud in the Holdrege district. The church at Stanton is indeed fortunate in the securing of this able and popular minister. He still has many friends in this city, who were pleased with his services while here.

### FRANK CHAVEL REJOICES.

From Tuesday's Daily.  
A daughter arrived at the home of Mr. and Mrs. Frank Chavel, and there is joy in the home. The little Miss is a winsome lass, and the parents are both doing well, thank you, as well as the daughter. Now there is also another one who is feeling pretty well over the matter that is Grandpa Claus Boetel. If he does not charge enough for the hauling of that trunk, just think it is because he is thinking of that little blue eyed granddaughter.

### A BROKEN RAIL STOPS TRAFFIC

From Tuesday's Daily.  
This morning the trains were delayed on the Missouri Pacific on account of a broken rail near Union, causing a derailment of a few cars, for a short time. The break was repaired and the trains again operate on time.

### CAME IN BY SURPRISE.

From Tuesday's Daily.  
Lieut. Geo. E. Fingarson and wife and Miss Gretchen Donnelly sister of Mrs. Fingarson, arrived today from Camp Funston, where Lieutenant Fingarson is stationed.

Miss Gretchen Donnelly has been visiting at Camp Funston with Mr. and Mrs. Fingarson, and was returning home, when Lieut. and wife thought it would be nice to come along. They gave the folks here quite a surprise.

They are visiting at the home of Mr. and Mrs. Jim Donnelly, parents of Mrs. Fingarson.

## THE MIDLAND CON- CERT COMPANY.

A Trio of Artists Coming.

It is our judgment that we have a most enjoyable evening ahead of us when the Midland Concert company is with us as a number on our Lyceum course. They are three jolly girls, vivacious and full of life who put lots of pep in their programs. It is no effort for them to put on an evening's

MISS DOROTHY COLE.  
With Midland Concert Company.

entertainment from their large repertoire, they just enjoy it along with you.

The combination is voice, violin and reading, which makes possible much variety in combining parts. There are readings, solos, duets and trios as well as sketches. There will be musical readings with violin obligatos and piano accompaniments. The sketches are playlets abounding in humorous situations and pathetic incidents and will be well chosen and finished.

Dorothy Ellen Cole is a typical American girl full of spontaneity, versatility and fun. She is the reader of the trio and although quite young has had several seasons' experience on the Lyceum and Chautauqua platforms. Her repertoire ranges from Van Dyke's masterpieces to the "Humorous Remarks of Ez Whitcomb Concerning Pumpkin Holler."

Miss Corinne Schroeder is the pianist and also contributes to the combination a delightful well-trained soprano voice. She has great voice control and sings with ease and grace. She has a pleasing personality and fits into the ensemble numbers beautifully.

Miss Lucille Schroeder displays much natural talent in her violin numbers. She has been a devotee of her art since childhood, which, together with her natural ability and years of training, gives her a mastery of the violin seldom excelled. She is a sister of Corinne Schroeder and has appeared with her so long that they thoroughly understand each other and work together beautifully.

The trio is a strong one selected for their individual merit and give a most delightful evening's entertainment.

## WOMANS RELIEF CORPS KNITTING

ARE ENTERTAINED BY MES-  
DAMES JOHN W. ELLIOTT AND  
J. H. McMACKEN YESTERDAY

From Wednesday's Daily.

Yesterday afternoon at the beautiful home of J. H. McMacken and wife, Mrs. McMacken and Mrs. John W. Elliott, entertained the ladies of the Woman's Relief Corps, who with a patriotism, and enthusiasm, which equal that of any society spent the time industriously knitting, and doing what work they could for the boys at the front, and in this case mostly for their own sons, and the sons of other members as now they have not the husbands to go as in the former times, and their husbands have now grown older and the sons have taken their place in the battle line. In the former days these ladies did for the soldiers of the civil war what they are now doing for their sons in the World's War. After the work of the afternoon had been accomplished, the ladies were served by a very beautiful and delightful luncheon, which was enjoyed by all of the nearly half hundred who were present and took part in the work which was in hand.

## TEUTONS HURL MUSTARD GAS AT THE AMERICANS

U. S. Troops Give Emphatic Replies to Vigorous Bombardment on the Lorraine Front.

With the American Army in Lorraine, Sept. 17.—The American artillery, infantry and aviators made emphatic replies today to the German challenge all along the newly established line. The enemy bombarded certain points with vigor and threw over quantities of gas, largely of the mustard variety, while airplanes endeavored to force their way through the aerial defenses, but evidence was wholly lacking that the Germans contemplated any attempt to regain the territory they have lost. Their high command apparently intends to adhere to the policy which resulted in the relinquishment of a large section without a bitter struggle.

Reports brought in by aviators, from prisoners verified by patrols, show the Germans are strengthening their trenches along the Hindenburg line, but there is nothing to show they are reinforcing their lines to a degree that might indicate a strong counter movement.

Patrols sent out by the Americans have been successful not only in reconnaissance, but in bringing in prisoners. Many of the prisoners were stragglers, but among them were the crews of several lost or isolated machine guns.

There was much German activity today on the extreme right of the line where the enemy vigorously shelled and gassed the woods north of Pont-A-Mousson and in the vicinity of Norroy.

## RAISE IN PHONE RATES TO BE ASKED FOR SOON

Omaha and Lincoln Companies Say  
Wage Increases Demand  
Such Move.

Lincoln, Neb., Sept. 6.—The Lincoln Telephone & Telegraph Co., will apply to the Nebraska State railway commission for permission to increase telephone rates all over the entire system to meet operating expenses due to increased wages for employees, estimated at \$250,000 annually.

The proposed application was discussed with Railway Commissioners H. G. Taylor and Vic Wilson with President Frank Woods yesterday afternoon.

The Nebraska Telephone Co., of Omaha, will file a similar application, President Woods told the members of the commission.

President Woods said that under government control workers are demanding increases in wages on the ground that other governmental employees are getting them. He says that for the 1,200 employees of the company, of which he is president, the increase will amount to from \$100,000 to \$150,000 annually. The increased taxes and operating costs will necessitate \$250,000 additional revenue annually, Mr. Woods said.

Mrs. Peter Herold and son Poissall departed last evening for Lincoln, where they will visit at the home of a sister of Mrs. Herold, Mrs. A. W. Damron and family.

## CASS CO. FARM A Column Devoted to Local Farming Interest BUREAU NOTES

**Germination of Fall Wheat.**  
The average test from 38 samples from several counties was 89 per cent. This proves that the fall wheat is of best quality for seed.

**Culling the Farm Flock.**  
A few of these Bulletins have arrived. Call or write for one if interested.

Notify this office if you have any walnut logs for sale.

**Seed Corn.**  
Now is the time to pick 1919 seed corn, gather plenty for yourself and some to sell. Many counties will have less favorable seed than Cass County.

Since April first the value of live stock sold through the exchange is about \$10,000.00. This has been done without commission from either buyer or seller.

**More Eggs.**

Fresh water, succulent green food, shade and clean houses are essential for egg production. See that the fowls have fresh water at least two or three times a day. Give them succulent green food such as green alfalfa or root crop, provide shade for the hens to utilize during the day and keep poultry houses clean and well ventilated. Keep only the best laying hens. Cull out the hen that refuses to do her share of work and send her to the chicken buyer or put her in a can for table use this winter.

County Agent.

## It's high time to think about Winter Underwear!

It's one of the necessities—you can possibly do without somethings, but winter underwear you must have.

Now lets face the facts. It is common knowledge that the government has commandeered most of the big mills, but aside from this and the shortage of raw materials, it is impossible for the mills not on government work to get needles enough to do the knitting. These facts are going to make underwear scarce and high. We are no shrewder than other stores, but perhaps we are more reckless—anyway we went into the market early and bought nearly a half car load of underwear and its here ready for you. We don't expect to get another garment this season, but what we have now is **right**—right in quality and right in price.

We start boys' winter union suits at... \$ .75

## Becoming Models In New Fall Suits

You can hardly imagine the charm and grace that is given to these garments by the long coat and the slenderness of the skirt. Many are relieved with exquisite trimmings of fur.

Present display brings forth such favored fabrics as velours, silvertones, serges and suedes, shown in a striking range of color tones. Among the most popular are blues, browns and soft grays. The prices reflect our early preparedness.
