RED CROSS DO- ING GREAT WORK

THE AUGUST QUOTA OF THE CASS COUNTY CHAPTER LARGEST YET.

WILL SEND LARGE SHIPMENT

This Chapter, Largest in State Having Now Twenty Branches.

From Friday's Daily.

Just a short time since there was another Red Cross branch organized making the twentieth of the Cass County Red Cross, it being one located in the vicinity of Rock Bluffs.

During the hot days of the summer the ladies of the Red Cross, not one but all of them, were working like beavers at the rooms, the weather was not too hot, or the rooms too crowded, but what they put in the time, and it was not alone here but throughout the whole county, they did their part.

And to look at the piles of completed new work, garments, surgical dressings, and knotted work, such as socks, sweaters, robes, for the convalescents, and garments for the refugees in both France and Belgium. It would astonish one to see what they have done, the room which they are using for a store room is piled high with the goods, ready for shipment, a portion of them packed and in boxes, while others are still awaiting for the packing. The ladies would like all who are interested in the work, and all are, to come and examine and see what has been done. Not that they are wanting to receive praise for the same, though they are deserving of much commendation for their faithful work of love, but that the people may know just what is being done, and that the Red Cross ladies in this county are loyal to the charge placed upon them.

The work is immense, and while the days were hot, and the tasks arduous, the ladies one and all, have worked with a determination to get the work out, and is the only thing which enabled them to do as they have done. The labor, was one of patriotism and love, it was for the brothers, the sons, the cousins, and for all Americans who are over there, as well as a feeling of love for the oppressed of Belgium and France. The ladies have done a work, which will last as a memento of their love for justice and right, though the years to come. With the coming month, there will be an election, and at that time the ones holding the offices will not be candidates for re-election, but will want the places filled by people of good executive ability, and who can take the work up, where those who have been most interested, have so noble pushed it. Those who are now to go out of the office, feel that with the expiration of their terms, some one else should step in, assume and direct the work of this chapter.

While so feeling, they are well pleased with what they have been able to accomplish, and are more than willing to assist in any way to make the work more successful in the future than it has been in the past. Come every one who can, and see the work accomplished, and get a vision of what there is to do, and do all you can for the cause, the most pressing at this time.
