WILL MAKE HOME IN CALIFORNIA

From Monday's Daily. Uncle Henry Boeck and wife who have lived in this city for sixty years, and who have been a potent factor in moulding and making this city one of the best places to live in a short time remove to the Pacific coast, where they will make their home in the future. Coming here when they were young, they have put into this community the best which they have had of life, many years have they worked to make this town better. They have witnessed the town grow from almost an infant, when there was only a trading post, a blacksmith shop and Mr. Boeck assisted in constructing the first mill here. He has been in business here for many years, and been counted one of the most substantial citizens of this community.

DEPARTED LAST EVENING FOR CHICAGO

From Monday's Daily. Richard Avard and John McLean departed last evening for Chicago, where they go to investigate the conditions which the registration finds them in. They have taken their first papers to become American citizens, and the ruling of the British government is that they will have until Oct. 12th to enlist, if they choose and after that they will be inducted anyway into the service. They both are anxious to do the service but they desire to do so as Americans and not as subjects of the British Empire. They are making this trip to ascertain if they can enter the American army, if such, they will do so and if not they will enter the British army.

GREAT THROG PAY TRIBUTE

EXCELLENT PIONEER CITIZEN BURIED WITH HONOR BY LOVING FRIENDS.

Friends From Many Places Were In Attendance At Saying Of Last Sad Rites.

From Monday's Daily. In testimony of the excellent character, and the many good qualities of the late James Allison Walker, late of Murray, hundreds of his friends gathered at his late home to pay their last quota of honor to his memory. From most of the eastern portion of the county were friends to testify by their presence, their respect for this worthy citizen. Weeping Water, Nehawka, Union and Plattsmouth citizens were gathered to honor this man. The Masonic order of which he was a member, having been a working Mason for many years, had charge of the ceremonies. The house and yard even of the beautiful home, where he has lived so long, were not adequate to hold the throng. After the ceremonies at the house, with automobiles the concourse, repaired to the Horning cemetery, where the mortal remains were laid away by the Masons according to their ritual. The obituary of J. A. Walker will appear in a later issue of this paper.

BUILDING A NEW HOME.

From Monday's Daily. Phillip A. Hild is building an elegant home on his farm west of Mynard. In its construction, the feature of beauty was incorporated with that of utility in from the convergers ideas, that was evolved a modern farm home with the conveniences of the city and also making one of the most beautiful structures imaginable. The home is just now nearing completion, the plasterers just at this time being engaged in finishing their portion of the work.

REGISTRANTS OF THIS COUNTY

REMEMBER YOU MUST FILL YOUR QUESTIONNAIRES OUT YOURSELF, DO THE WRITING

YOU MAY HAVE LEGAL ADVICE

But The Writing Must Be Yours, Not Another.—Do the Work Yourself.

From Monday's Daily. Heretofore there has been some trouble when some one else did the real mechanical work in filling out the questionnaires, as the registrant did not always know just what the question was. Now by filling out the entire blank in his own hand writing he has a better opportunity to know just what he is expected to answer and should remember just what he has answered for the fillings of the blanks will be in his own hand writing.

The waver must be signed by the one making it, that is you must sign yourself.

On page three of the question blank, you will be required to answer all the questions, which are asked notwithstanding you may have signed a waver.

On page five all questions must be answered giving the exact facts regarding citizenship. Do not neglect to fill these questions out where they are required in your case. Again on page fifteen where the affidavits are required do not neglect them for they are absolutely required. Remember again, that these questionnaires are to be filled out in your own hand writing.

SARGEANT OLIVER WATSON IN FRANCE

MAKING GOOD WITH WORLD'S BEST MECHANICS AND STANDS HIGHEST IN WORLD.

From Monday's Daily. Lee Watson and son Allen were in this morning looking after some matters at the court house and consulting the local board in regard to the matter of the questionnaire for Mr. Allen Watson.

They had some pictures that were taken in France, in which the son of Mr. Lee Watson was one, Oliver Watson, who went to Camp Funston in the first quota, and has been in France for some time. Oliver ranked the highest of 231,000 who studied motor mechanics, and is now sergeant, and is the last one to handle the aeroplanes, before being delivered to the fighters. He has to fly with and inspect in every way the planes before they are given over and his O. K. is necessary to their being accepted. His great grandfather was a merchant in this city at an early day and was the first justice of peace in this city, over sixty-seven years ago. Henry Watson who died in this city was a cousin of John Allen Watson, the great grandfather of this young American who is now serving in France. The young man is just 25 years of age tomorrow. A picture of his appeared in the World-Herald of yesterday, showing him with others in the Aviation service. He holds the highest markings for motor mechanic in the United States and the world.

WILL ENTER SCHOOL WORK.

From Monday's Daily. Saturday Rev. A. J. Hargett who has been the pastor of the Christian church at this place for some year or more, was elected to the chair of mathematics in the Phillips University at Enid, Oklahoma, and will depart in a few days for his work there.

He offered his resignation as pastor at this place, which was accepted by the official board of the church, though reluctantly, but in view of the greater opportunity for Rev. Hargett and the greater field for his

endeavor, they were willing to consent for him to go.

Rev. Hargett has been here more than a year, and is well liked not alone by his congregation, but the entire community. His going from here is with the best wishes of the entire circle of friends which he has acquired during his stay here.

L. W. Scott of Exeter, will conduct the services here both morning and evening next Sunday.

GOES TO CAMP PIKE.

From Monday's Daily. This morning C. A. Rawls and wife returned from a trip to Lincoln where they were to meet their son Glen Rawls, who was on his way from Lewiston, Montana, to Camp Pike to enter officers training, where he will take a three months course.

DO NOT WANT FOLKS TO KNOW

MAKE A JOURNEY ACROSS STATE TO BE MARRIED AT HOME OF COUSIN.

From Tuesday's Daily. This morning off of the train from the west dropped F. A. Stephens and Miss Della Mitchell of Curtice, this state, and after getting their bearings made inquiries for J. L. Stewart, Mr. Stephens being a cousin of Mrs. Stewart. Mr. Stephens before going out, secured a marriage license, and were united in marriage, then went and visited at the home of Mr. and Mrs. J. L. Stewart, for a few hours, returning in time to take the train for Omaha, where they will visit for a short time, before returning to their home town to surprise their friends. At the station the happy groom said, make the article which we were going to write small, for we do not want them to know it at home just yet.

LOSES A VALUABLE ANIMAL.

From Wednesday's Daily. Last evening while Luke L. Wiles was taking a young bull from his farm to the Burlington for shipment to Utica, to a customer, having made the sale a few days since, the animal became heated, and fell on the road, and had to be killed. The carcass was taken to the farm for skinning, and the carcass to be fed to the hogs. The animal was a valuable one and is quite a loss.

GREERVILLE NEARING COMPLETION

From Tuesday's Daily. The Burlington has problems to solve which we know not of, unless perchance we are observant. The matter of securing help has been a problem, as the army has taken many of their men and those whom they can ill afford to part wit. They have gone here and there to secure others only to have them depart after arriving, because they have found no suitable place to stay. Just now they are endeavoring to solve that proposition, by building a lodging camp, as they have elsewhere. Ten box cars have been demounted at the site of the old elevator, where they have been made into a village somewhat resembling the ancient town of the oriental countries, and the Mexican village with the court or plaza in side. These ten cars are arranged for a boarding camp. Five bunk cars, one kitchen, two diners, a refrigerator and a commissary car.

WAS ALSO IN THE BATTLE.

From Tuesday's Daily. W. B. Rishel departed this morning for Glenwood and was accompanied by Edward Ripple and M. Kearnes, they going to Glenwood to interview a member of the company which went from Glenwood to France, and who was in the battle and fighting by the side of Eddie Ripple at the time he was killed. They go to get an affidavit of his death, that the insurance which he carried in the Woodman of the World may be settled. Mr. Kearnes goes along that he may get some direct news from his two boys who are now in France. As well as does Mr. Ripple, as this man was with his son at the time of his receiving the wound which resulted in his death.
