## NIGHT SCHOOL ARRANGED FOR

WILL TEACH THE AMERICAN LANGUAGE AND CITIZENSHIP TO THOSE NOT CITIZENS.

### AMERICANISM IN EVERYTHING

That is the Slogan Which Must Inspire All to the Utmost Loyalty.

From Friday's Daily. Arrangements have been about completed for the opening in the near future of a night school, for the teaching of distinctly the American language, and American civic law, which will enable all who are not American citizens to understand what Americanism means. To the candidates for American citizenship, it is required that they shall understand the laws and institutions under which they elect to live, and be able to speak and write the American language. The Board of Education and the superintendent of the city schools, have evinced their readiness to take hold of the matter in a way which is insuring its success from the beginning. Had the idea of American citizenship in its full sense been inculcated, instead of some one desiring to hire some one because he could speak some other language, in order to secure that portion of that trade, things would have been different when the time came for the making of Americans out of those who probably did not understand it to its fullest.

## LITTLE JEANNETTE WINDHAM DIES

AFTER HAVING FOUGHT THE GRIM MONSTER FOR MANY MONTHS DEATH CLAIMS HER.

From Thursday's Daily. Robert B. Windham this morning received a telephone message telling of the coming of the Death Angel, for the spirit of little Jeannette, the daughter of Robert Windham Jr., who has for the past many weeks been at the Methodist Hospital at Omaha. Little Jeannette who is about nine years of age, was taken with measles on July 5th just after having been visiting here on the Fourth, and has since been sick with spinal meningitis and infantile paralysis. She has made a heroic fight for her life, and while at most times it has not looked like it was possible for her to recover, still at other times she has shown rallying power, which led to hope that she might recover. The burial will be at this place, but until the return of R. B. Windham, the grandfather of the little girl, no definite announcements of the arrangements for the funeral can be had.

The girls will collect them and dispatch them to the place where they are to be used.

### AN OPPORTUNITY TO IMPROVE YOUR HOGS

JUST AS WELL HAVE GOOD HOGS AS BAD ONES YOU FEED YOUR HOGS GOOD CORN.

From Friday's Daily. Why farmers continue to raise scrub hogs, when they eat as much good corn, and do not produce as much flesh as a good breed is a question which is hard to understand. Good hogs cost good money, and are worth it. No one would expect to get something for nothing, and those who look for such, will surely be disappointed. The opportunity is here now for the farmers to get good hogs, and ones which are safe. Hirtz, Rummell and Schaeffer, will hold a sale of fine Duroc Jersey Reds, fifty male hogs age for service at the home of Henry Hirtz, 6 miles west, Oct. 16th, sale commencing at one o'clock sharp. Col. W. R. Young will conduct the sale, while Geo. O. Dovey will act as clerk. This is an opportunity to get immune made hogs which acclimated, and are known to be in a healthy condition. Remember the time and date and improve your hogs, you will save money, and make more.

Mr. Schutz who lived here for a number of years, has been in the south for the past six years, and says he likes the country fine, but like here, it is pretty dry at this time.

## MORE THAN A MILLION BONDS

THE QUOTA FOR THIS COUNTY FOR THE FOURTH DRIVE IS TO BE \$1,250,500.

### GOOD TIME TO GO OVER TOP

The Nebraska and American Spirit Is To Do the Thing Whole Heartedly.

From Friday's Daily. With the call for \$1,250,500, which is two times that of the Third Liberty loan, it makes the blood tingle, and the nerves quiver as the muscles harden for the dash, of a few days to win, by subscribing for more than we are asked for. We should more easily go over the top this time, than at the other calls. At this time we have more friends on the other side, we have more sons there, we have more brothers there, more sweethearts there, and more to go. Sure we can see the way clear to subscribe to the limit if necessary. Not taking into the consideration that the buying of the bonds is an excellent business proposition, we should get after it as a patriotic proposition, and for the sake of our love for the boys who are not spending alone their times, for they have thrown away the good position for the \$30.00 per month while we are getting many times that amount. Do we want to be fair, or do we want to be slackers, if not we must get after the amount and do it at this time, with a will and energy which will win. Remember that this county is to furnish one million two hundred and fifty thousand, and five hundred dollars.

## MUST HAVE BUILDING PERMITS

NO BUILDINGS WILL BE PERMITTED UNLESS NECESSARY TO WIN THE WAR.

### PERMITS TO CONTINUE WORK

Where Work Is In Progress Permits Are Required To Finish Work.

From Friday's Daily. The Council of Defense have just received instructions, which make it obligatory, on them to maintain a committee to inspect all building work, and to refuse or allow same to proceed, until a permit has been granted for that purpose coming from the state council or its supervisory board, and in case of a new structure, which it is desired to build, the permit must come from Washington. The temporary committee, which has been appointed here, is James M. Robertson and C. C. Westcott, who will have jurisdiction, until other arrangements have been perfected covering the matter. The ruling of the board at Washington having this matter in hand, is one far-reaching in its effects, as it even includes within its sphere, the building of silos, for the storing of the crops, which are now ready for caring. Where it can be shown that the improvement or new construction, will be in line with the assistance in winning the war, it will be permitted. No improvement will be allowed in any case, which amounts to over \$2,500 and no new work will be allowed at all which does not come in the sphere of necessary to win the war. President of the county council, L. F. Langhorst, has appointed the temporary committee, consisting of Mr. C. C. Westcott and Mr. J. M. Robertson, until a full meeting of the council can be had, when a permanent committee will be named.

### MADE AN ELOQUENT PLEA.

From Saturday's Daily. Last evening at the speaking at the commercial club advertisement of the Liberty Loan drive, at which Lieut. Herold Baldwin, gave the address, Mrs. Frank Dunbar made an address with more pep and good common sense in it than we have heard for many a day. Mrs. Dunbar whose whole soul and energies are wrapped up in the winning of the war and alleviating the conditions of those who are injured thereby, made an appeal for the purchase of bonds and thereby helping in the winning of this struggle for humanity. If four minute addresses were like the one last night filled with enthusiasm and earnestness coupled with concrete facts stated in a way they would appeal to the hearers, they would be a means of a great education, and stirring of interest in the things pertinent to the winning of the war.

## MADE A GREAT ADDRESS LAST NIGHT

LIEUT. BALDWIN, WHO SPOKE LAST EVENING VERY ENTERTAINING SPEAKER.

From Saturday's Daily. To a house not so well filled last evening and one not so responsive as it might have been to the address which he made, Lieut. Baldwin spoke for nearly two hours, telling of the things which have happened and are happening in the battlefields of France and Flanders. His appeal to the people, to support this war, and the boys who are fighting was to the parent and one which should be a strong motive for the going over the top in the drive for the bonds which begins at an early date. The story of his experience, began when he was farming in Saskatchewan, and told how he at last arrived in England and then in France. He desired to say that of the soldiers who first went to France from Canada, the larger per cent were English born and that when Canada had struck, it was a stroke of England.

Speaking of the runners, who were for carrying of messages when the telephone and telegraph lines were down during the battle, he says with fire from every company in the division, at the beginning of a certain battle in which he was one, at the end there were only seven in all.

The address was well received, and thanks are due to the commercial club, for the evening's entertainment, and the advertising of the Fourth Liberty Loan.

## BOUGHT LUMBER IN PLATTSMOUTH

LUMBER SOLD IN THIS PLACE FIFTY YEARS AGO STILL IN USE AT SURPRISE, NEB.

From Thursday's Daily. The following bit of history we clip from the State Journal, which shows the onward march of civilization, and the difference in the price of land:

Surprise, Neb., Sept. 24.—E. H. Shrader sold his twenty-acre strip of land to Thees Brandt today for \$300 an acre. Mr. Brandt owned the adjoining sixty acres with the exception of three acres given to the school district by the homesteader, Avrilis Roberts, in 1869. At that time land was not considered worth much. The lumber for the school house that was built that summer was hauled with ox teams from Plattsmouth and was the first frame school house to be built in Butler county. Twenty years ago this building was sold, moved to Surprise and used for school purposes for a year, when it became too small and was again sold and is still in use as a residence in the southeast part of town.
