She has visited many army cantonments in the east and has enjoyed that part of her trip especially, as she is a very patriotic young lady. She has set no date as yet for her return to Louisville.

AN APPEAL FOR CLOTHING FOR BELGIUM RELIEF

THE DESTITUTE OF BELGIUM AND NORTHERN FRANCE NEED YOUR SPARE CLOTHING.

Back of the German wall that has hemmed in Belgium and part of Northern France, ten million human beings look to us for clothing, as well as food. We, who are well clothed, can hardly appreciate in what dire need these people are for lack of necessities. Stocks of clothing and raw material are long since exhausted. There are no imports other than those the Commission for Relief in Belgium has been permitted to make, and these never have been sufficient. The world is now short of both clothing and raw material, so the Commission can no longer purchase what is needed. But YOU can GIVE it.

Every household in the land has some spare clothing, worn or outgrown, of little use here, but desperately needed by the destitute there. This extract from a letter of a well-to-do lady of Brussels shows the conditions exactly:

"Perhaps you will laugh when you hear that I wear a cloak made from my husband's garde civique overcoat, a waist made from his football shirt, and a skirt made of a dyed bed sheet.

Mother has a suit made of the table-cloth, J. and M. have cleaky-made of woolen blankets, and S. a dress made of burliap. But all this is only amusing in comparison with the wretchedness of the population. After all, we remain calm and content of victory."

A recent Brussels advertisement says: "I will give up to 125 francs (\$25.00) for new or worn bed sheets." There is an immediate need for every sort of garment, blankets, sheets, and shoes.

The very wonderful results of the clothing campaign of Marcel assisted in helping to meet the demands; but when we realize that there are ten million inhabitants in the occupied regions, most of whom must look to the outside world for protection against the rigors of winter, it is seen that we cannot send too much. As long as the war lasts Belgium and occupied France must depend chiefly on America for aid. To insure the steady supply of garments which are so much needed, we appeal again to the generosity of the American public to give, and give largely.

THE BELGIAN RELIEF CALL.

The Cass County quota for the Belgian Relief Call will amount to 1380 pounds, and the Plattsmouth share of this quota will be twenty per cent of the total amount, so let everyone respond, and do their bit when called upon. The following are a few items that are most needed:

Warm clothing, partially worn or discarded, which can be made into suitable clothing for the homeless Belgians for the coming winter, is especially wanted, also blankets and linens are greatly needed.

Anyone having contributions and cannot deliver them to the E. P. Lutz store, on Sixth street, which will be open Friday and Saturday, can call Miss Ione Dovey, phone 161, or Mrs. E. J. Richey, phone 375; who will call for them.

MRS. D. C. MORGAN, Chairman.

BACK FROM STATE CONFERENCE

From Saturday's Daily.

Charles E. Cook, who has been at the conference of the United Brethren church at Hastings for the past week, having driven out with a car, returned home last evening. Mr. Cook reports a very successful convention, and says that the attendance was large and enthusiastic. Rev. E. H. Pontias, who accompanied Mr. Cook is still at the conference and will remain over Sunday.

J. P. Falter the realtor was looking after some business in Omaha this morning going on the early train.

PROFIT FROM COUNTRY'S LOSS

German Firm of Daimler Has Justly Earned the Execration of Its Countrymen.

The latest German papers to reach this country are devoting considerable space to the so-called "Daimler case," which has stirred all Germany. The principal character of the case is the Daimler firm of Stuttgart, which is one of the largest German concerns manufacturing automobiles and airplane motors.

The German public was informed that the German military authorities had taken over the entire control of the Daimler works. The reasons for taking over the Daimler factories by the government were not explained till the matter was taken up in the reichstag.

It was brought out that the Daimler firm repeatedly without sufficient reasons, had raised its prices of automobiles sold to the German government; that it had refused to allow the government to inspect its books, and that its profits ran as high as 1,500 per cent, while the firm pretended that its profits did not amount to more than 11 per cent.

Ways of Utilizing Tomato Refuse. A recent bulletin of the U. S. Department of agriculture brings the fact that vast quantities of tomato refuse accumulating each year at tomato-pulping factories can be reduced to two products—viz., fixed oil and meal—both of which may be made commercially useful. The oil from the seeds is suitable for use as an edible oil or as a soap oil, and by proper treatment can be made useful as a drying oil for paint and varnish. The meal has valuable qualities as stock feed. The department urges the establishment of reducing plants and the adoption of a co-operative plan of manufacture in the regions where tomatoes are extensively used to make cat-sups and soups, the seeds and skins being at present discarded as useless. The utilization of tomato wastes seems to have made much more progress in Italy than elsewhere.

Literature Among the Doctors. The New York Medical Journal deigns to enter the field of literary criticism via the "Nine Humorous Tales" of Anton Checkov. In reviewing this volume the medical authority remarks:

"For many years France led the way in short story writing, though many of them resembled delicate water color sketches having an unanalytical charm. . . . Then came the American authors, who have equaled the French, but in a different way. Their short stories are like powerful sketches in black and white. . . . The inspiration of these profundities lies in the fact that Checkov was once a doctor. This explains Checkov's peculiarities perfectly. He is a doctor as well as a Russian.

The Street Organ Deserts London. It is quite seldom that a street organ is seen or heard in London nowadays, and the very few about are not ground and trundled by an Italian or his wife. The Italians have left their organs and gone to fight their country's battles; their women folk trundled and ground the family organ in London streets until all raids decided them to start on country roads. In consequence, the provinces have had, and are likely again to have, more "music" than they ever bargained for. It's an ill wind that blows nobody any good; at any rate, the children will be of that opinion, but it is to be hoped that the little girls of Soho will not forget how to dance.—Christian Science Monitor.

Squelched. "Gabson used to be a loud-mouthed fellow. You could hear him laugh a block away."
"That's true."
"But he has toned down considerably."
"What happened to make him so subdued?"
"Oh, he met the fate that often overtakes noisy men. He married a woman with executive ability."

Special Delivery. A Pittsfield woman telephoned for a piece of ice. Shortly afterward a big, eight-cylinder touring car drove into the back yard. The driver inquired whether anybody had ordered any ice, and was told by the puzzled woman that she did. He thereupon took his things, lifted a piece of ice from the rear of the machine, and toted it into the house.

HAVE THEIR WINTER'S COAL IN.

From Thursday's Daily.

The Board of Education has just completed the storing of the winters coal in the bunkers at the New High school building, and have secured enough for the winter. They purchased it last June, and have had some of it piled on the Missouri Pacific right of way for a while but have it all stored now for the winter, so that the fear of shortage of fuel will not exist.

NEW SET OF POLICEMEN.

From Thursday's Daily.

With the advent of M. E. Manspeaker having to go to the hospital at Omaha, Harvey Manners was appointed to act in his stead during his sickness, and with the tendering of the resignation of W. A. Barclay as Chief of Police, Carl Kunsman was appointed as the chief and the two are now looking after the interests of the peace of the city.

MISS EVA SAYLES VERY SICK.

Mrs. W. H. Seybert was a passenger this afternoon for Omaha, where she went to see her sister Miss Eva Sayles, who is at the St. Joseph hospital, where she is confined with the typhoid fever.

Miss Eva has been working with the Union Pacific for some time past and was taken with the malady while thus employed, and was taken to the St. Joseph hospital for treatment. Her case is very serious, and her condition was so extreme, that Mrs. Seybert and her brother George R. Sayles were present for this afternoon. Mrs. Geo. E. Sayles, the mother, who is making her home at Abeline, Kansas, has been telegraphed for and her arrival is expected this evening.

ARE VISITING AT CAMP DODGE.

This morning Charles Creamer and wife and Miss Vera Yardley and Alex Campbell departed via automobile for Camp Dodge, where they will visit for over Sunday with Mont Shrader. It is expected that a number of the troops at Camp Dodge will soon be sent farther east for finishing training.
