

CAPTURED BY YANK SOLDIERS

A TRAIN OF REAL RELICS, AND
WAR EXHIBITS HERE AT
EARLY DATE.

FOURTH LIBERTY LOAN CAR

German Howitzers and Siege Guns
That Few Weeks Since
In Use.

From Wednesday's Daily.

The train which was to have been here some time since is now scheduled for next Saturday at the Missouri Pacific station, where it will be for two hours, from 11:00 a. m. to 1:00 p. m. This is a rare opportunity that will probably not occur again for some time if at all and advantage should be taken of this opportunity to see the things with which the enemy are fighting, and know what our boys have to go against.

German howitzers, minenwerfers, siege guns which a few short weeks ago were raining shells on our troops, French machine guns and field pieces, some of which had been captured by the Huns and recaptured by our boys, as well as shells and all manner of relics which show as nothing else can what our men are going through over at the front.

The trophies are all newly captured, most of them having been landed at Hoboken on Sept. 12th and rushed to Kansas City, arriving there less than four weeks after they left the front lines in France. Many of the pieces still have the mud of the trenches adhering to their wheels and all of the guns are well camouflaged.

In addition to the captured trophies the exhibits will contain several types of American machine guns, zero bombs, navy mines, shells, and other American equipment exactly as used at the front.

Of especial interest in connection with the American equipment is the fact that all of it will be sent to France for use later. The people will be able to see and have explained to them the things that later may be among those captured on Berlin. They can wish a "good luck" on machine guns which will be in the hands of American boys in No Man's Land in a few weeks and view shells which will soon be screaming over the heads of our troops toward German positions. In addition, this material presents a very complete exposition of what the bonds bought in the "Fighting Fourth" Liberty Loan will pay for.

The exhibit train will consist of two flat cars, one box car and a Pullman. It will be parked by the railroad stations indicated in schedule for view of the public.

The soldiers who will accompany the train have just returned from France, some of them having been in the trenches since the first American occupation. All of them have been "over the top," not once but many times. They have been through everything that war has to offer, and all of them have been wounded. They bring back the story of the war as the boys see it over there, and carry the plea of the men from the trenches for unlimited backing by the people over here. These boys are not orators, they will be found just plain ordinary American soldiers who have done their bit and are extremely modest about it, but their simple stories and the relics they and their comrades have captured form a combination of tremendous interest.

WILL TRY HAND AT FARMING.

John Gorder while in the west a few weeks since made purchase of a quarter section of land, and has shipped out there a tractor and a gang plow, which he will use in subduing the raw prairie to cultivation. He will start out in a few days and will be away for some three weeks, breaking the ground and seeding half of it to wheat and rye. The land is situated in Lincoln county, Colorado, and is near Bovina.

WILL SHUCK SOME CORN.

This morning Henry Kilbrick and son Willie, were in the city from their home at Avoca, where they are farmers and were looking after some business in the city during the morning as well as at the court house, and returned to their home this afternoon. P. E. Goos, desiring to do what he can for the winning of the war, went home with them and will put in some good work in picking corn for a while.

OTTO LUTZ ARRIVES IN FRANCE

Otto Lutz, arrived safely overseas as a card was received by his parents in this city telling of his arrival. Otto went with the first from here to go to Camp Cody, early last year, and has been kept at that place for special work until lately. He was with the contingent which went from Cody a short time since, and it was supposed that he was in quarantine with others, who are still at the concentration camps in the east, but he must have been allowed to get away with a ship, before the quarantine went into effect.

IOWA OVER TOP IN LIBERTY LOAN DRIVE

HAWKEYE STATE FIRST IN UNION TO REPORT ITS QUOTA FILLED.

Pledges of \$148,920,000 Announced
—Many Counties Yet to Be Heard From.

Chicago, Ill., Sept. 30.—With subscriptions of \$148,920,000 against a quota of \$147,900,000, Iowa went over the top tonight in the fourth liberty loan campaign. It was officially announced at the headquarters of the seventh reserve district. Unofficially it was claimed that Iowa was the first state in the union to complete its quota.

Iowa is preparing to claim the honor of being the first state in the union to fill its quota for the fourth liberty loan. Late afternoon reports showed the state had secured subscriptions of \$110,000,000 and this total did not include returns from many counties which are expected to put the state over the top.

"As soon as we get complete returns I think they will show that Iowa will have reached its quota some time today," said C. H. McNider, Polk county, of which Des Moines is the leading city, started its subscription campaign today and half its quota was raised by noon.

It is estimated \$15,000,000 has been subscribed in Chicago, but several Illinois counties have raised rapid headway, and those Michigan counties which were inclined to lag during the last loan are exceeding all expectations.

From Baltimore came word that more than \$40,000,000 had been subscribed, or more than was raised during the whole third loan. The second day's business in New York was good, but pledges supported by the initial payments represented only a small part of the subscriptions actually gathered in.

"Indications generally are that subscriptions now are larger than they were in the first two weeks of previous loans," said a message tonight from San Francisco. In Utah \$1,000,000 subscriptions have been taken and eight honor flags claimed. Idaho reported that seven counties have exceeded their quotas; Washington, two counties and four cities; California, two counties and a dozen towns.

Subscriptions totalling \$44,000,000 for Boston and vicinity were reported in the New England district, with no reports as yet from Rhode Island, Connecticut, Maine, New Hampshire or Vermont.

Saline county, Kan., was claiming record tonight because every city, village and precinct within its borders had made a 100 per cent subscription record.

WILL ENFORCE THE LAW.

The city schools and county officers are on the eve of entering into a crusade to prohibit the smoking of cigarettes by minors, or those under the age, which is specified by the statutes. The age being under eighteen, which the law says one can be fined for smoking cigarettes, the authorities are going to enforce the statutes, which says that any one selling, giving or allowing minors to become in possession of the "makings" of cigarettes, are amenable to a fine from \$50.00 to \$100.00, and the one under eighteen smoking, to a fine of \$10.00, which will be remitted in case he shall tell where he received the cigarette or the "makings."

CORPORAL CREAMER BETTER.

A telegram was received by C. L. Creamer last evening telling of the very satisfactory condition of his son Corporal J. G. Creamer at the hospital at Middletown, Pa., where he has been for some days with the Spanish flu. He has been maintaining account, for the past eight months, with the 503rd Aero Squadron; a message from the commanding officer of yesterday told.

LOCAL NEWS

From Monday's Daily.

Mrs. Mary E. Foster was up from her home at Union last evening.

Jerome Tilton, who has been visiting in this city for some time with his son Charles Tilton, and with his niece Mrs. C. S. Forbes, departed this morning for his home at Bradgate, Iowa, and was accompanied as far as Omaha by Mrs. Forbes.

Robert Frans, formerly of this city and vicinity also living near Union for some time, but who has been making his home at St. Joseph, Mo., for some years past returned a few days since, and is making his home with William Carraker, near Union, where he will work on a farm.

Mrs. L. E. Vroman received a letter from her son Eugene, who is on the battle front of Europe, and has been in the front line and action but was when the letter was written in the resting camp. She also received a letter from Verdon, who is at a camp in the east having just recovered from an attack of the flu.

The Home Guards stick to their drilling in a very patriotic manner, and by their application are getting in excellent shape. Yesterday they were at the ball park, and put in two hours in drilling which adds greatly to their proficiency. If the people outside of the Home Guards were as particular to seek every opportunity to purchase bonds as the members of the company are to keep up their practice, the bond drive would go over the top.

From Tuesday's Daily.

George W. Wall of LaPlatte was a business visitor in this city this afternoon between trains.

A. J. Schaefer from near Weeping Water was looking after some business in the city last evening.
