DEATH COMES THIS MORNING

MRS. GRACE DEN WINDHAM, ANSWERS SUMMONS OF DEATH MESSENGER THIS MORNING.

From Thursday's Daily.

Coming to this city, sick, worn out from the long watching over the fitful spark of life as it flickered in the bosom of her little daughter Jeanette Windham, and which went out, as the angels carried her spirit to the other shore, and when arriving for the funeral, was so sick that she could not be present, but was compelled to go to her bed, Mrs. Grace Den Windham, wife of Robert Windham Jr., fought against the demon pneumonia, with a heroism, scarcely equalled, only to at last, this morning to have succumb to the inevitable, and answering the call in peace, went to meet the little daughter which had so shortly preceded its mother. The mother seeing the great need of her care for the two little ones remaining, desired to live for them.

Mrs. Grace Den Windham was about thirty years of age, was united in marriage with Robert Windham Jr., about twelve years ago. She leaves besides her husband, two children, Jennie, aged between ten and eleven years and Lorene about seven. Her mother, Mrs. A. H. McMeekan, resides at Keota, Colorado, and a sister Mrs. Blanche Den Seaton at Arapahoe. No definite arrangements for the funeral will be made until word is received from the mother and sister. Mr. Robert Windham, who has been sick during the same time with pneumonia, is showing some improvement though still very sick at the home of his father E. B. Windham.

CAMPFIRE GIRLS VERY PATRIOTIC

'TOKA' CAMP OF THE CAMP FIRE GIRLS, SELL TOWARDS THOUSAND DOLLARS IN STAMPS.

From Thursday's Daily.

The 'Toka' Camp, of the Camp Fire Girls of this city have proven their hearts' are in the right place, in their efforts to push the sale of War Saving Stamps, as they, under the direction of their leader Mrs. Earl Stanfield, have been very successful in disposing of the stamps. They have sold and delivered well up towards a thousand dollars of stamps, which has added much to the ability of the government to push the war to a successful termination. If all were as enthusiastic and zealous as these girls, the funds would have all been on hands ready to forward long since. These young ladies like the people of Iowa have caught the spirit, and have seen a vision of the need, that have impelled them to the effort.

Iowa has suffered as much in losses of her brave sons, and like heroic state she is, has, after paying the best in life blood, puts forth her treasure as willingly, to save the boys of other states. Among those who are especially active in the work of the Camp Fire Girls, are Miss Mary Walling, being the one who sold the most, while Misses Emma Walforth and Clara Triley were well up in the amounts which they disposed of.

Journal Want-Ads Pay!

SEEDS 285 ACRES TO WHEAT.

From Thursday's Daily.

Last evening Henry C. Long, returned from Beaver City, where he has been for the past three months. He had some 285 acres in wheat last year and went out there during the summer, at the time when it was ready to harvest, securing the grain, did the harvesting and seeding the ground again to wheat, then selling the implements returned home, arriving last evening. Mr. Long is demonstrating two things, first his patriotism, at his age to go out there, endure the privations to get the wheat in that the world may be fed, and again demonstrating his faith in that country, which he is sure will come out all right, though the crop off the land this last season averaged only seven bushels per acre.

ARE ASKING FOR VOLUNTEERS

FOUR HUNDRED AND TWENTY MEN WANTED FOR MECHANICAL TRAINING FOR LINCOLN.

To those who were not able to enter the schools, on account of their age being over twenty-one, this offers an opportunity, and gives them mechanical training in certain necessary branches, of which there are a number to choose from. BURLINGTON SHOP BOYS ARE LOYAL

HAVE SUBSCRIBED, AT THIS TIME OVER \$40,000 FOURTH LIBERTY BOND LOAN.

From Thursday's Daily.

The workmen at the Burlington shops, who have to knock out all they get by hard knocks, and heretofore have had scarcely enough, have with the payment of what is coming on back salaries, applied it to the purchases of Liberty Bonds. They have up to today noon subscribed for over \$40,000.00 to the Fourth Loan, which is doing finely. That the workmen are loyal to a man is certain, for they are not only willing to do anything they can to assist in winning this war, they are also willing, to furnish as much as possible out of their living to help keep the big guns booming in Flanders Fields, and in fact contributing both man power and money for the purpose of making the world safe, and civilization sure.

Sincere Gratitude.

Mrs. William Bell, Logansport, Ind., writes: "I deem it my duty to express my gratitude for the good Chamberlain's Colic and Diarrhoea Remedy did me when I had a severe attack of diarrhoea three years ago. It was the only medicine that relieved me."

SAW MUCH OF COUNTRY ON TRIP

TRAVELED FOURTEEN HUNDRED MILES IN NEBRASKA, SAW MUCH GOOD LAND.

From Saturday's Daily.

Thursday, Lloyd Gaper and family returned from an extended trip over the state, having made the trip with his car, and stopped at many towns. He first went north and some west arriving at Springview, where they visited, and then taking a western course, visited Crookston, Valentine and Rushville, from which place they turned south, and went across the country to Alliance, then to Bridgeport, and on to Grant, where they stopped for a three days visit. With the land in the northern portion of the state, he was somewhat impressed, though he said it was somewhat spotted. In the west he was pleased with the land but found it the same way, with spots of alkali thereon. From Grant they went to Imperial, where they also stopped, and like around Grant, they found good lands. From Imperial they went southeast and found themselves at McCook, where they visited for a while, and later, turned east, and following the Burlington a portion of the way, they returned to their home here. While they found lots of good country on their trip, they were as well pleased with the home country as any.

We know his description of conditions, and what's doing there will be well worth while.
