## WILL ENDEAVOR TO KEEP THE CITY SAFE

THIS CITY VERY CLEAR OF SPANISH FLU, AND WILL ENDEAVOR TO KEEP SO.

From Thursday's Daily.  
While there are probably a few cases, of Spanish Influenza, every precaution is being taken, in the line of quarantine, and the refusing of bodies of people to meet, where they are kept in close compact bodies, the moving picture shows have been closed, the religious meetings deferred until such a time as there shall be less danger of contagion. There is a move to hold the religious gatherings in the open, which would be safe as out of doors, there is only the slightest danger. Many complaints as heard about the schools continuing, and it is not known as yet just what action will be taken in that direction.

## HAS BEEN SEEDING LAND TO WHEAT

Schaefer, who has been in the western portion of the state for the past three weeks, where he was seeding some of his land near Barclay, to wheat, returned home this morning, having just put in forty-five acres. He left there last night, and at the time of his departure he said it had rained for four hours hard, and everything was well soaked. The wheat he says is looking fine.

## DEATH CLAIMS GLEN C. EDWARDS

BRONCHIAL PNEUMONIA CLAIMS ONE OF PLATTSMOUTH'S FINEST YOUNG MEN TODAY.

## FOUGHT A VALIANT FIGHT

Only to Lose the Battle For Life, When All Had Been Done.

From Friday's Daily.

At ten minutes after two o'clock this afternoon, after fighting for his life, during the entire night and today, the spirit of one of the finest young men of this city Glen Chesley Edwards, took his flight to the other world. Glen Edwards was just twenty-three years of age and had been employed with the Burlington, in the capacity of switchman, until about ten days since, where he was taken with acute Bronchial Pneumonia, and has since been confined to his home.

He has had the best of care and nursing, but notwithstanding the noble fight for life, and for the comradeship of his family, of whom he was very fond, it was apparent many hours before that hope of his life was ebbing. He leaves besides his wife and little son, William, four sisters, they being Mrs. John D. McBride, of Omaha, Mrs. J. H. Haggerty, of Colorado, Mrs. D. B. Prother of Iowa, and Mrs. C. O. Larson of Omaha. Mr. Edwards was born in this city and was 23 years of age May 3rd. No arrangements as yet for the funeral, but announcement will be made later.

## BUY ANOTHER BOND AND BUY IT NOW!

YOU WHO HAVE NOT YET MADE THE PURCHASE, GET AFTER IT AND DO IT NOW.

From Thursday's Daily.

Just because you are thinking that the war is nearing the close, is no reason why you should not take all the bonds, which you possibly can handle. The last punch, or the knockout blow requires much of a punch to it. The boys are only too anxious to give it on their part, we should be more than willing to give it on our part. Even in these last battles, there will be many of the boys lost, it cannot be otherwise, and will we try to save our dollars, while they are not under cover. Some will probably figure, they will whip the Hun anyway, and withhold the last purchase they had figured on making, this is a little cowardly don't you think so? Far better take an extra one, for the boys are still over there and fighting now, and if they should stop, it will cost a lot to bring them home, and pay the necessary expenses. Better come across with another unit. It will not hurt, and it will help, and that materially.

## HAS ENLISTED IN THE AVIATION

## BEN WINDHAM RECEIVES PROMOTION

AS A RESULT OF HARD AND PERSISTENT APPLICATION TO HIS STUDIES IS ADVANCED.

From Saturday's Daily.

A long letter from Ben Windham to his father, which he received yesterday tells of a promotion for this young man, and says that he has been advanced to the electrical department, by reason of hard study. The library on the ship provides courses of study, and he has taken up this work, with the result that he has made good progress and has been thus advanced. Mr. Windham's former experience has been a good help to him. He gives a very vivid description of the appearance of the ocean, which we copy an extract.

"Last night, beautiful night I spent on the sea. It was blowing up a considerable amount of waves, and as they would break, a phosphorescent glow would appear on the water; you could see this glow as far as the eyes could reach; and in the wake of the ship, would be a great strip of water that looked like it was on fire, caused by the churning of the propeller. I assume it looked like the river styx, or whatever Dnates dividing river of fire was called; a great expanse of darkness, broken only by thousands of spots and streaks of liquid fire. With fast blowing clouds from the stream or vapor arising from the "River of fire." The only thing that is lacking is the ancient Ferryman, but a little imagination will do wonders in producing said boatman."

## CHARLES LAHODA MISSING IN FRANCE

PLATTSMOUTH BOY MISSING IN BATTLE IN FRANCE, THIRTEENTH LAST MONTH.

From Saturday's Daily.

A telegram received from Washington tells of the missing of one of the fighting boys of Plattsmouth, which occurred in France on September Thirteenth. Charles Lahoda departed from here during the summer, going to Camp Funston, but soon found his way to France, where he has been doing valiant fighting, having made the enemy pay the penalty for the capture, which they have made of him. The message which was received by his mother reads as follows:

Washington, D. C., Oct. 10th.  
Mrs. C. Lahoda,  
Plattsmouth, Nebr.,  
Deeply regret to inform you that Private Charles C. Lahoda is officially reported as missing in action, since September Thirteenth. Will report first information received.  
HARRIS.  
Acting The Adjutant General.

What has become of this Plattsmouth boy, no one knows, whether he has been killed or captured, but the presumption is that he is a prisoner.

## THE WAY THE YANKS SEE IT

A LETTER FROM A SOLDIER IN FRANCE TELLS OF THE VICTORY OF AMERICANS IN FRANCE.

## LIKES THE WAY THINGS GO

Gives Description of The Country And How They Are Living There.

From Friday's Daily.

The following letter from Sgt. Frank York to his mother Mrs. O. L. York of this place shows with what hopes the soldiers of America, are going after the huns in France:

A. P. O. France, Sept. 16.

Dear Mother:

Your letter of Aug. 20th at hand today. As you have seen by the headlines, the last couple of days, the boys have been having a little fun lately, and a mighty good job they have made of it, everybody are rejoicing over the great victory. I am almost tempted to go out and celebrate a little myself. Of course we were not a bit surprised, because we all knew that they could do it. If there was any surprise party, it was the ones on the other side. Whether they have gotten their brains working enough to comprehend the joke or not is more than I can tell. Anyway the square head will have something to think about for a while.

Well about Cecil, I think the navy is the best place for him to enlist in. He will have it much easier than at the front with the Doughboys. The infantry is no place for a man that is not robust and strong. Most of my pals, who left Chicago when I did are in the service. I had some experience in the naval training station and I would like to have you impress the matter of discipline on his mind. The navy is more strict than the army, but as long as a man keeps his mouth shut and does what he is told to he will get along all right. The less he has to say the better he is off, things will seem a little queer and hard at first, but you will get used to them. A soldier or a sailor is required to do anything that is to be done, and one that slacks in any respect is not a soldier or sailor. There is no shirking at this time, we are winning, but there can be no let up, the more all men do, the sooner we will have the kaiser's scrip, and we are anxious to get back to God's country. We are all working over here. France is one big workhouse, but we are doing our work carefully, with no regard to hours, or anything else.

It is getting most time here now for winter to come. I expect to be here most of the winter. Write often and tell me all the news. With much love to you mother and every one else.

SGT. FRANK YORK.  
Address Signals G. Tq. A. P. O. 706, A. E. F., France.

## LANDS ON THE SOIL OF FRANCE

## THEY THINK THE NORTHWEST GREAT

JOHN M. VORNDRON AND JOHN J. CLOIDT THINK NORTHWEST WORTH THE PRICE.

From Friday's Daily.

Yesterday John M. Vorndron and John J. Cloidt, returned from a few days in the northwest, where they have been to see the farm of Mr. Vorndron, and the country surrounding it. Some four years since Mr. Vorndron bought the farm and at that time, it was 11 miles from Crookston, he had not been there since, and the country had settled and has been fenced, it now takes 14 miles of travel to get there.

Mr. Cloidt was greatly surprised at the things which grow there, potatoes large as good sized boards, and of the best quality, while they have excellent corn, and the cattle and hogs which they raise there. In their trip up the Crookston, they met seven cattle trains coming to Omaha, which is evidence of what that country is doing.

## HARRY WARTHEN BREAKS ARM.

Later after having finished school he went in to the Burlington shops and became an excellent machinist and going to the west settled in Colorado, where he liked it on a homestead until he had proven up on it. Returning he purchased a home in this city, and then offered his services to his country, and was accepted, the family still remaining as citizens of this city. After entering the service he by unstinted application, and hard work and study, has been given a commission as First Lieutenant.
