

# BE LOYAL TO YOUR COUNTRY

IN A TIME OF CRISIS BE ABSOLUTELY LOYAL TO THE COUNTRY WHICH PROTECTS YOU.

Just at this time we are in the most critical period of the history of the World's War. All of the Americans, irrespective of party should be loyal to their country, and require that in the settlement of the peace terms, that the element which has caused the discord, shall be made to "Unconditional Surrender", that a peace shall be made, only when it guarantees the safety of the rights and liberties of the world. Should the war close just now which we hope will than remain an enormous amount of work to be done, and it will require the sacrifice of all to adjust the affairs of all countries right. It will take men and money. Let us with a true Americanism meet these requirements. I wish to make known my appreciation for all the efforts

which have been put forth, for the consummation of the end of justice, for all the peoples of the world.

I also desire to extend my thanks to all who have been in their friendship, in any way instrumental in the furthering of my candidacy, to the position of county judge, for what they have done, for what they are doing, and what they shall do. In this connection I wish to say, I do not desire this or any other position within the gift of the people for a continued period of years. Two consecutive terms in any office is enough, and the seeking and working for a position for a longer period of years, savors not of Democratic or Republican views but of life tenure and hereditary office holding. We are fighting a war for democracy, in the old world, why not practice it at home. Again thanking all for their loyal support. I am,

M. S. BRIGGS.  
Candidate For County Judge.

Each building which has special rooms for agriculture, sewing, domestic science and other important studies, represents from two to ten districts, costs from \$45,000 up to \$119,000, and has from ten to twenty acres of land for farming experiments. There are from 150 to 250 pupils in each school. From one to ten automobile trucks are owned in each district, to take the children to and from school—in some cases as far away as ten miles.

As a means of combating the Spanish influenza epidemic, the state board of health issued an order prohibiting all public gatherings, indoors or outdoors, throughout the entire state, until November 2. The action was urged by the Nebraska farmer's war council.

There is some talk by state educators of eliminating the Christmas and spring vacations, and continuing school on Saturdays, for the time lost during the quarantine period. ### NON-PARTISAN TICKET.

On account of the stress of work, especially with this paper with which I am connected, I have not been able to see a large number of citizens of this county during this campaign, deeming a greater service to do what there is required in the position which I occupy, than chase away and leave the work undone. I wish to extend my appreciation for the kindly feeling and loyal efforts of my friends over the county in my behalf, and to assure them if elected as the county judge for the coming term that I shall endeavor to fill the position creditably, and in accordance with the laws. And if not so selected I shall bend all my efforts to the work of assisting keeping this the Best Country on Earth. Again thanking all, I am M. S. BRIGGS.
