GEORGE SCHEISSEL WRITES MOTHER FROM ENGLAND, TELLING OF COUNTRY.

From Wednesday's Daily.
 George who was born and raised in America, finds things strange and different in England, but is enjoying the time there, and desired to hear from the home folks, more often than he does, as it takes a long time to get the mails through. The following is the letter he has written:

Somewhere in England, October 3, 1918.
 Dear Folks:
 I will drop you a few lines tonight as it has been a long time since I have wrote but have wrote every chance I get. I got here safe and am in the best of health. Had some ride on the water and was sea sick for two days, but soon got over that. This is sure some country, different from what we have seen. Am now a good many miles from home. The country here is thickly settled, the ground here is sandy and lots of rocks but raise good crops what they do raise. Most garden, wheat, oats and lots of hay the farms are not very big, only five and ten acre farms. They have one or two horses and three or four cows. Have not see many hogs yet. The buildings here are all made of brick and house, barn, shed all in one, sure looks funny but have things kept up nice. They have some awful nice trees here but have not learned yet what they are called, at least I have never saw any before. This is a nice country but I don't want any for mine as the states look best to me. Joe is still with me and we two have sure some

From Monday's Daily.
 One day last week, a man traveling via auto, from some place in Kansas, to a point in Iowa, passed through the city, and over the ferry at the river. In doing so he was willing to assist in the operation of the ferry, and went to take up the apron which admits the passage of the vehicles on the boat, and in so doing allowed a pocket book to fall out of his pocket into the river, which floated away and no one the wiser. Arriving at Glenwood, he discovered his loss and immediately phoned to Mr. Richardson, asking him to see if he could find the pocket book. It so happened also that some one carelessly has allowed one of the small boats of Mr. Richardson to get away. He had to take another one and go after it. On his return he espied the well soaked purse lying just at the water's edge and securing it, was soon in communication with its owner, who returned and received the same donating \$20.00 to Mr. Richardson for his service. The pocket book contained a \$500.00 government bond, \$135.00 in money, and other papers, in all \$800.00. Had it have fallen into the hands of some irresponsible person it would probably never have been returned, but in the hands of Mr. Richardson it was safe.

From Monday's Daily.
 Roy Denham, the operator at Cedar Creek is reported as being on the sick list, as he is laid up with the "flu." His friends will be sorry to learn of his illness and hope that it will not prove a serious case. The many cases of the disease are not only troublesome to the people afflicted with it but are also a source of inconvenience to the different places where they are employed. At present the labor problem is a great one and it is to be hoped that the epidemic will soon lose its hold. The depot will be glad to welcome Mr. Denham back as soon as he is able to resume his duties.

 AM STOUT
 I. B. SLIM

They are all good—and "KUPPENHEIMER CLOTHES" them all perfectly. Modern Clothes builders have taken a lot of pleasure from the man who boasted he was hard to fit.

You big fellows sized 44 or 46, do you know you can be fitted whether you are short or tall, and did you know there was such a thing as a forward model, made especially for the man who has a tendency to lean slightly forward.

We defy any clothing house in the State to offer you any better clothes at the price we ask—

\$20 and \$25

If you are a big Gink and need a suit—look these over.
