

SMITH GAVE THEM A MERRY CHASE

BUT FESSED UP WHEN IT WAS BROUGHT HOME TO HIM OF STEALING THE AUTO.

NOW REPOSES IN COUNTY JAIL

Was a Citizen Here Years Ago—Lived Near Mynard, Working On a Farm.

From Saturday's Daily. This morning Sheriff Quinton returned from Wahoo, bringing with him Charles Smith, who acknowledges to have annexed a Ford automobile at Greenwood, a few evenings since. The Ford had carried him as far as Wahoo, where he was stopping, and when the sheriff Dan Templeton, went to arrest him, Mr. Smith made an attempt to get away, the sheriff had thrown his overcoat in his auto, which had his revolver in, and as the man, Smith, darted away, the sheriff was after him, but as the thief was a big man and a good runner he soon outdistanced the sheriff, and the Home Guards had to be called out to assist in rounding the culprit. This they did in the most approved manner, and soon had the man a captive and was then lodged in jail to await the coming of the Cass County Sheriff. When the question was squarely put to Mr. Smith he admitted the theft, and returned peacefully with Sheriff Quinton, and now is resting in the jail here.

BETTER BE ABSOLUTELY LOYAL

From Saturday's Daily. In yesterday's paper it was reported to us that some one had gone to the St. Paul's church, to stop the ringing of the bell during the parade Thursday. This was so reported, and on evidence which we take for granted is true. That person was not the minister of that church, but it matters not, who it was there is this much, certain, whether it be that church, or any other church, or any other kind of an organization, all must obey the law. The Home Guards were asked to see that the law was obeyed. This organization is for this purpose in time of stress like the present, and to enforce an edict to the people, whether written or unwritten. "That there is no place for any one in this county who is not Absolutely Loyal."

Greatly Benefited by Chamberlain's Tablets.

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. Y.

FRED EGENBERGER AND WIFE IMPROVING

From Saturday's Daily. Fred B. Egenberger and wife with their little son John, who have been so extremely sick with the Spanish Influenza, are all reported as being somewhat improved, and are now making good advancement, which promises to soon put them out of danger. While they have gained so nicely, Will R. Egenberger and brother-in-law Carl Rinker who is staying with them are also down with it. Mrs. Will Egenberger had just gone to Lexington, when the boys were taken sick. A smaller sister had at the same time left Lexington to visit with Mrs. Egenberger and her brother Carl here, and arrived in time to care for her brother and Will Egenberger. Meanwhile Carl Egenberger and sister Florence have both been taken with the disease and are now down with it.

BRITISHERS ENTER TOURNAMENT ON THEIR WAY TO BRUSSELS

CAPTURE IMPORTANT JUNCTION OF VALENCIENNES.

FRENCH CUT DEEPLY INTO ENEMY'S FRONT

Roads Leading to Metz Are Packed With Retreating German Troops.

With the French Army in France, Nov. 8.—General Gouraud tonight holds the west bank of the Meuse river from Sedan to the outskirts of Mezieres, his troops during the day having made an advance of from five to eight miles.

On the battlefields the Germans everywhere are being hurried backward to their borders. Tournai, an important railroad center in Belgium on the line leading to Brussels, has been entered by the British who are across the Scheldt with a few barriers of great importance between them and Brussels.

To the south of Valenciennes the British have taken Avesnes, another important railroad junction point and all along the front have pushed the Germans farther east. Maubeuge is being advanced upon by the British.

French Cut Deeper Into Line.

The French again have cut deeply into the enemy's front. At last accounts they had reached Liart, twenty miles north of Rehel, on the railroad leading eastward to Mezieres.

The taking of this town leaves only one railroad in this portion of France over which the enemy can retire. This is the Hiron line, which is being daily brought nearer and now at some places is dominated by the French guns.

Eastward the French are still driving northward and have joined hands with the Americans in the western outskirts of Sedan. More prisoners and large additional quantities of war stores have been taken by the French.

Yanks Clear Out Forests.

Friday saw little infantry fighting between the Americans and the Germans west of the Meuse, but there were heavy reciprocal artillery bombardments. East of the river the Americans have cleared out several strong forest positions held by the enemy.

It is reported that the roads from Stenay, Sedan, Conflans and Longuyon leading to Metz are congested with retreating German troops and transport.

Since November 1, the British have taken 18,000 prisoners and 700 guns.

GETTING MUCH EXPERIENCE IN FRANCE

ALBERT A. FRICKE WORKING IN BATTLE FIELD NOW AS A SURGEON.

From Saturday's Daily. A letter as shown below from Dr. Major Albert A. Fricke, from the point where he is working shows his experience is varied, on the field of battle, and that he is working under difficulties. The following from the World-Herald, tells of his experience:

"Eric Brown, realtor and cattle feeder, and R. F. Marcy of Farris-Marcy Commission Co., have recently received letters from Dr. (now Major) A. A. Fricke, a former well known South Side physician and surgeon, at present just back of the firing line 'somewhere in France,' that he is enjoying life in a dugout and getting lots of war and surgical experience as a surgeon with the One Hundred and Twenty-sixth Engineer battalion, Paris group.

Prior to his location near the battle line Major Fricke was stationed in a beautiful chalet near Paris with eight other officers. He writes that there is a vast difference between Paris hospital work and that where shells are bursting all around one."
