GOES ABROAD TO PREPARE WAY FOR RETURN OF YANKS

HURLEY SAYS U. S. PLANS TO BRING BACK BIG PART OF ARMY IN HURRY.

CAN MOVE 300,000 TROOPS A MONTH

Secretary Baker, However, Doesn't Know When Men Will Start Back.

New York, Nov. 15.—Edward N. Hurley, chairman of the United States shipping board, announced here tonight on the eve of his departure for Europe that the government intends to return to this country speedily a large part of the American expeditionary forces. The purpose of Mr. Hurley's trip to Europe is to arrange the details for their transportation.

To offset the loss of transport tonnage through the withdrawal of British ships hitherto engaged in carrying American soldiers overseas, Mr. Hurley hopes to utilize twenty-five or thirty German and Austrian liners, with accommodations for 4,000 men each. In compensation for the "loan" of these vessels, he said, food would be sent to the people of central Europe on their return voyages.

Mr. Hurley said the shipping board would be able to bring troops back at the rate of 300,000 a month. "If the war department wants them returned as fast as that."

World Meet Pershing.

He would meet General Pershing at American field headquarters, he added, to discuss the details of their home coming.

Convalescent wounded, including many men who would have returned to the battle front had the war continued, would be the first troops brought out of France, he said.

They would be followed by units of various branches of the service, following plans already partly worked out by Secretary Baker and the general staff.

On future developments in the internal affairs of Germany and Austria and their relations with the allies, the shipping official added, together with the trend of European events in general, would depend the number of troops to be brought to this country within the next few months, but he was preparing, he stated, to transport large contingents.

Baker Has Made No Plans.

Washington, D. C., Nov. 15.—The war department has made no definite plans for the return of the American expeditionary forces to the United States, it was learned tonight and it is not regarded as likely that the movement, except of sick and wounded, will start soon.

Asked specifically if any of the men could be expected home by Christmas, Secretary Baker said he did not know.

General Pershing has been considering the question of getting the army back home, but many factors in his plans have not yet been discussed.

Among these is the question of what proportion of the guard duty in Europe the American forces will assume. Presumably the supreme war council, through its military advisers at Versailles, is working out this question.

Miss Alben Franzen, who has been visiting in this city a guest at the home of H. M. Soenichsen and John Wickman, departed this afternoon for Scribner where she will visit for a few days with relatives.

BETTER DEMAND FOR SCHOOL TEACHERS

THEY ARE ENTITLED TO BETTER PAY THAN HAS BEEN ACCORDED THEM IN THE PAST.

County Superintendent Miss Alpha Peterson is holding teachers examination at the court house today. Four young ladies are taking the examination. They being Misses Mary Egenberger, Frances Seybert, and Elizabeth Bajock of this city, and Miss Verna Bates from Greenwood.

It has been very difficult to obtain teachers for the schools, and it would seem, that the occupation is not overly crowded, while we think that the teacher surely earns her pay, the conditions are not as bad as they have been in the past. We are pleased to see the conditions improving, for surely the young lady who has put in the years of preparation for the position, and then not giving employment for only a portion of the time is well entitled to a good salary.
