He has already received his release from his service to Uncle Sam and has been appointed athletic coach of the State Normal at Peru. This is an important position and draws a good salary. Leon is well fitted for the job and will make good in every way.

Last Saturday the board of health announced that smallpox had made its appearance in Eagle. Elmer Oelschlager was the first case reported, and the same day John Hartsook was reported to be afflicted in the same manner. The quota of Liberty precinct for the War Work fund was over \$2,700. Up to date only \$1,987.41 has been paid into the treasury, which shows that there are still some Americans who have the welfare of our boys at heart, yet there are others who have neglected to attend to this at once and are awaiting the eleventh hour to do their bit. Surely such a cause as this deserves the earnest support of everyone so let us all pay the share allotted to us and put Liberty precinct over the top and thus erase the names from the slacker list before it is made public.

Mr. Bailey is going into the milk business and knows a good cow when he sees it.

George Metcalf, who has been at the State Hospital in Lincoln for a number of weeks, was brought home Tuesday as it was deemed best for both him and his mother that he be at home. A number of citizens and the relatives succeeded in getting the authorities to parole him and it is believed that if George is not bothered by others he will not be a bother to anybody. Undoubtedly his trouble in the past has been brought on by the ill advised teasing and taunts he has been subjected to. It is hoped that he will be given a fair chance to make good in his parole. He has been paroled by William P. Sitzman, who stands sponsor for him. Rev. W. F. Haskins went to Lincoln to bring him home.

ALL THE FAMILY HAS IT

The latest addition to the long list of "fin" patients, past and present, includes Clarence Robeson, linotype operator on the Journal who is now confined to his home. In addition to Mr. Robeson, his wife and young son are also down with the malady and it is simply a case of the entire family being laid up at one time. It is hoped Mr. Robeson and family will soon be about again, but the doctor does not promise any results for a number of days to come.

Sergeant Elmer Webb, of the Uni. of Nebraska training camp at Lincoln was able to get a few days furlough from his duties there and arrived this morning to operate one of the linotypes in the Journal office until Mr. Robeson shall have so far recovered as to permit taking up his work again. THANKSGIVING

WITH the ending of the terrible struggle and days of strife that have darkened the world for four long years, every heart overflows with sincere thankfulness.

Humanity's greatest crusade has been successfully waged and gloriously won. The world has been delivered from the menace of the forces of evil and darkness and will engage in giving thanks with the same fervor as did the Pilgrims who dedicated this day to their deliverance and birth of Freedom.

And what a feeling of pride comes to Americans here at home when we review the daring deeds of sacrifice and service of our brave boys who offered their all that justice and peace might be restored to all the world.

Let us give thanks that victory is ours—that sacrifices have not been in vain—that our nation has been blessed with valorous sons—and for the boys over there, let us offer a prayer that ere another Thanksgiving dawns they will be safely home.

We remain open until 7:45 this evening closed all day tomorrow.
