"Fifty per cent of the disabled men treated by Hydro and Electro-Therapeutics in the hospitals of France and England are completely relieved to physical efficiency."—Excerpt from an official report of the U. S. Army Medical Corps.

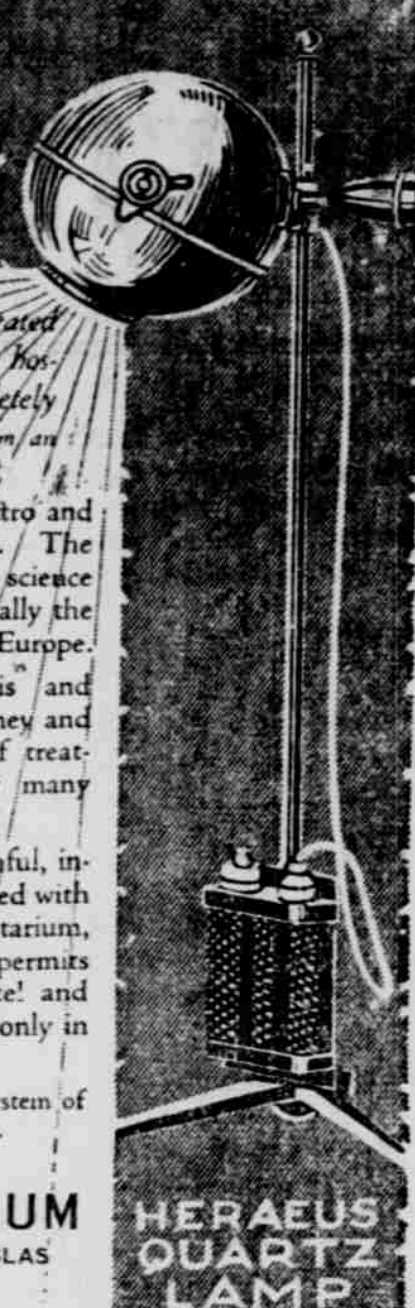

The Solar Sanitarium has the largest Electro and Hydro-Therapeutic equipment in the west. The most advanced methods known to medical science are used here. Our treatments are identical to those given in the Base Hospitals of Europe.

Rheumatic conditions, Sciatica, Neuritis and Diseases of Joints as well as Stomach, Kidney and Nervous Disorders all yield to our system of treatment. We are daily treating successfully many cases where all other means have failed.

The Solar Sanitarium is a pleasant, healthful, interesting place to come to—not a hospital filled with sick people. People do not stay at the Sanitarium, but come only for daily treatments. This permits one to enjoy the comforts of home or hotel and still secure treatments which can be found only in world-famous institutions.

Our Illustrated Booklet accurately describes our system of treatments. We will be pleased to send you a copy. Write for it today!

FEEL MISERABLE FROM THAT COLD?

Colds and coughs are quickly relieved by Dr. King's New Discovery

Nobody should feel "perfectly miserable" from a cold, cough or bronchial attack for very long. For it takes only a little while to relieve it and get back on the road to recovery when Dr. King's New Discovery is faithfully used. It soon loosens the phlegm, relieves irritation, soothes the parched, sore throat, brings comfort.

Half a century old and more popular today than ever. At all druggists.

Make Your Bowels Behave

Make them function with gratifying precision. If regulation of the diet does not relieve their torpidity Dr. King's New Life Pills will. They are perfect bowel trainers, cleanse the system surely, comfortably.

close friend of Frank Claus of this city.

Roy Cole and wife from near Mynard, were in the city this morning, enroute to Omaha, where they will visit for the day, and will probably then depart for Manhattan, Kansas, to visit with a brother of Mrs. Cole who is at the camp at that place, and which is expected soon to be abandoned, with the demobilization of the troops there.

THE INDEMNITY THAT GERMANY MUST PAY

The Supreme War Council at Versailles has decided the indemnity will form one of the conditions of peace that Germany must satisfy, with regard to the Allies. The United States technically speaking, has not become one of the Allies. The collective documents always refer to this country specifically when including it. Owing to this condition, the Council speaks here for the rest, not for us. Mr. Lansing's somewhat vague announcement of the President's "agreement with the interpretation set forth" leaves it a trifle ambiguous whether the United States agrees that the Allies merely should receive indemnification for damages to their population, or whether this country's citizens also are to be indemnified.

At any rate the Entente powers are a unit in their demand for restitution, not merely territorial but economic. There can be no approximate justice for the innocent parties, the people of the Entente nations in any other course. The victims cannot sit naked while the spoils cover a "defeated" enemy; the populations cannot bear further gigantic taxes to mend breakages for which that enemy stands wholly and often willfully responsible. It is unqualified right therefore that the enemy, or at least, that part of the Central Empires which has acquiesced in their course, should bear the full burden of making all this harm and ruin good.

Once agreed on the principle, the Entente powers will have to unite upon a system of action as to the manner of restitution. Many ways exist; the easiest for the enemy, the least helpful to the recipients would take the form of a lump payment in some more or less valuable form of German money or promissory paper; the most beneficial to the recipients, the hardest upon the enemy would involve a requisition upon the Germans and Austrians for whatever materials, buildings or machinery are missing because of their visit.

Between these two limits must be found the most suitable manner of payment. The method chosen must prevent the debilitation of the recipients by the acquirement of mere money in place of lost property. It must equally avoid helping Germany build up a commercial mastery by supplying the victims with new goods till it has taught them how to feed out of its hand. It must avoid letting the debtor stretch out the payment indefinitely, or urn it in any way to his own advantage.

Indemnity thus viewed presents a colossal problem. It will have to be settled without too much refinement of planning, or it will never reach the point of settlement at all. The present prompt move toward an understanding constitutes a step in the right direction.

Few Escape.
There are few indeed who escape having at least one cold during the winter months, and they are fortunate who have but one and get through with it quickly and without any serious consequences. Take Chamberlain's Cough Remedy and observe the directions with each bottle, and you are likely to be one of the fortunate ones. The worth and merit of this remedy has been fully proven. There are many families who have always used it for years when troubled with a cough or cold, and with the very best results.

AGAIN AT HIS WORK.

From Friday's Daily.
This morning early before the break of day was heard the engine at the bakery of Fred Mumm, as evidence that he had shaken off the effects of the Spanish Influenza, and had gotten back to his business.

The wife and little boy are also both getting along in the best of condition, which will be pleasant news for their many friends.

VISITATION DAYS POSTPONED

On account of the prevailing epidemic of Spanish influenza, the Sunday school visitation day has been postponed until Sunday, December 8th, at which time it is hoped the disease will have been abated.

BLOCKADE WILL CONTINUE UNTIL HUNS SIGN PACT

ALLIES HAVE NO INTENTION OF ABANDONING THEIR CHIEF WEAPON JUST NOW.

Will be Used to Insure the Signature of a Just Peace Before Finally Rescinded.

London, Nov. 28.—The Times declares the absurd story which the Germans are reported to have spread semi-officially that the entente probably will consider the abolition of the blockade is absolutely unfounded. The allies have not the slightest intention, the Times continues, of throwing aside their chief weapon for insuring the signature of a just peace and the performance of its conditions, particularly in the present chaotic state in Germany.

When the truth has been ascertained, the allies and the United States will allow the Germans from time to time during the peace negotiations such food supplies as humanity dictates, but the blockade must remain in force until a definite peace has been ratified. Thereafter it may be kept in abeyance as the chosen instrument of the league of nations for enforcing its decisions.

Welcome Wilson's Visit

Concerning the German attempts to draw a distinction between the allies and the United States, the Times speaks of the futility of these efforts. With regard to President Wilson's coming visit to Europe, the Times says the allies look upon this unprecedented event as a great landmark in the world's history. They rejoice that the president is to make the visit first because they desire to show the United States by the reception they give the chief executive their sense of the immense debt they owe for America's assistance, and, secondly, because they are anxious to have the personal aid of President Wilson in the task before them.

To Enforce Armistice Terms

Paris, Nov. 28.—Edouard Ignace, under secretary for military justice and pensions, announced in the chamber of deputies today that parliamentary commissions would be appointed to witness the execution of the clauses of the armistice relating to war prisoners.

Meanwhile, the under secretary said, automobile convoys and revictualing trains under guard would be dispatched to the various concentration camps for war prisoners.

The chamber of deputies passed without a roll call an order of the day expressing confidence that the government would enforce the execution by Germany of the armistice clauses concerning food for prisoners and the repatriation of the soldiers.

BUY ALL THE CHRISTMAS PRESENTS YOU WISH

The restriction which has been placed on the buying of Christmas presents, and other things to make people happy, has been removed, the National Council of Defense has sent word, that the restrictions have been raised, and advising all to remember their friends to the limit of their desire, and it might be their pocket book, in many cases. They want the people all to know that they can purchase, send and give Christmas presents as liberally as before the war, and get at it as early a date as desired.

WOULD HAVE DECREE SET ASIDE

From Friday's Daily.
On September 30th, 1918, a decree for separation was granted Mrs. Bessie M. Weimer from her husband John E. Weimer, they having been married at Greenwood in 1909. This was sixty days since, and today they filed a petition to have the decree set aside as they have become reconciled, and desire to live together. They have two bright children, and for their sake more than for that of the parents, it should be considered.
