Headaches and dizziness were common and my sight became affected so badly I couldn't read. I was also troubled by my kidneys acting irregularly. SIXTEEN BILLIONS ARE SAVED OVER!

VAST SUM VOTED FOR WAR STILL IS IN HAND.

Eight Billion Each On Appropriations and Contract Authorizations May Be Converted to Treasury.

Washington, Dec. 20.—More than \$16,000,000,000 of cash appropriations and contract authorization voted by congress for war purposes will be unexpended, Representative Sherley of Kentucky, chairman of the house appropriations committee, announced today.

Total appropriations and authorizations voted during the war amount to about \$57,000,000,000, including \$10,000,000,000 of authorizations for wartime loans to foreign governments. The loans actually made now total about \$8,000,000,000.

"More than \$8,000,000,000 of cash appropriations and approximately \$8,000,000,000 of contract authorizations will be converted back into the treasury," said Representative Sherley. Most of the money will come from the War Department, the largest saving, of course, being from ordnance, because the greatest amount of money was appropriated for that.

"The contract authorizations do not represent money that will be returned as a result of cancellations of contracts. These authorizations were voted by congress for departments to contract to expend and most of \$8,000,000,000 was unobligated."

Hearings of the appropriations committee on the subject of what money could be returned to the treasury are not near completion, and Mr. Sherley said a bill would not be reported until after January 1. Examination of the War department is practically complete.

CASE KEROSENE TRACTORS Save Horses—Fewer Needed. HARVESTING is mighty hard on horses, sometimes cruel. You're liable to ruin your best. But this Case 10-20 Kerosene Tractor doesn't mind heat nor long hours. Plenty of power to operate up hill if your land is not level. The hitch is such that you can cut a full swath all the time. This means you can do all your harvesting at proper time and run no risks. You can do your own and a couple of neighborhood jobs. This Case 10-20 pulls two 7 to 8-foot binders. It burns kerosene economically while working, and costs nothing to feed when idle. Let us tell you all about this powerful tractor, or others of the Case line. 10-18 and 10-20 Tractors Now Carried in Stock. J. M. CHALFANT, UNION, : : : : : NEBRASKA
