Mrs. William Partridge received a message Wednesday morning stating that her father, George Mark, was in a critical condition at his home in Grant, Nebr. Mr. Partridge left on the Wednesday morning train for Grant, to give his assistance in caring for Mr. Mark. Mrs. Partridge had expected to go several days ago but word came that her father was better and that on account of the snow no trains were running. Because of the doubtful train service, she did not go at this time. Mr. Mark has been sick since about Christmas time when he was seized with the flu and has not recovered from the effects of it.

W. H. Betts has moved in from the farm southeast of town that his children may have the school advantages here. They are living in the Walker basement house just south of the William Coatman residence. The children have been driving back

The plan will make it much more pleasant for the children and give them a better opportunity to attend school every day.
