Getting Rid of Coughs
The easiest and quickest way to get rid of a cold is to take Chamberlain's Cough Remedy. This preparation has been in use for many years and its value is fully proven. No matter what remedy you use, however, care must be taken not to contract a second cold before you have recovered from the first one, and there is serious danger of this. A man of middle age or older should go to bed and stay in bed until fully recovered. It is better to stay in bed three days at the start than three weeks later on.
