The legislature seems to pursue a very safe course on the bills proposition, and are not rushing bills through without a thorough examination and if a bill is worthy and merited, it stands a good show of becoming a law. :o:

A writer speaks of an odd marriage ceremony he witnessed in the South Seas, where the bride and bridegroom "looked totally disinterested." We have seen marriage ceremonies here in America where the bridegroom was so stage frightened he looked totally deceased, but nothing was said or written about it. :o:

There is more cheer in this section of the country than at other seasons put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. FAIR TREATMENT TO THE FARMER

Farmers are waging a fight in the Nebraska legislature to gain an equal footing with the speculator on the grain and live stock exchanges of the state, one of the measures providing that the exchanges of the state should be held to be public markets and that all who agree to comply with the rules should be entitled to membership. It is a remarkable situation that the producing farmer of the state should have to fight for an equal right in the markets of the state with the speculator, but the speculator does not want the man who produced and first owned the foodstuffs of the state to have the right to an open market. He will fight to the last ditch to prevent such a law going upon the statute books. There is not a single good reason why the co-operative institutions of the state, should not have access to all of the markets of the state, except the perfectly selfish reason of the speculator, who plays his trade not alone against the producer, but against the ultimate consumer as well. A law governing this situation, and fair in its provisions, ought to weather the opposition in this legislature, where almost one half of the members are actually farmers. If not, why not?

BOLSHEVISM WON'T WORK.

The real reason why Bolshevism will not get a permanent place in the world is not that it is immoral, or cruel, although it is both. The real reason is that it won't work; that it will produce less wellbeing in the world and not more. All previous human experience is against it.

The Bolshevik is certain that society as now organized is all wrong. He wishes to break it down and begin over. The factory should be seized from its old owner and owned and operated by the workers, acting through a committee. By this plan, it is hoped, everybody will be well off and happy.

Well, society as now organized, is far from ideal. It develops numerous bad adjustments as it goes along, and these have to be remedied. At present the whole tendency is toward an increasing share in the product of industry for the worker. That is the meaning of the high wages and the shorter hours that have come, particularly during the progress of the war.

But so far society has found that it got the best results and the largest product by permitting the men of special aptitude to conduct its various kinds of business. Mr. Carnegie, for instance, showed a genius for organizing the steel business. He had an instinct for getting around him, as he said, men who were technically much more competent than he for doing the work. He found the opportunity to push to the front and to do a big industrial service to the country.

It is quite possible that the social organization permitted him to get a larger share of the profits than was necessary. At the same time, in a rough way, it did operate to let ability have the chance to do a big job. The same thing is true in the case of Henry Ford. He demonstrated his capacity to do a certain industrial service, from which both he and the country profited. Possibly again Mr. Ford profited more than was useful. But the system did produce cheap automobiles in large quantities for the world.

It is easy to point to the defects in the system and to say that another system would automatically correct them. The question is whether in correcting them it might not fail to do the essential task.

When the government took over the railroads it made a lot of small economies. But these were simply swept away and engulfed in the resulting inefficiencies. We might provide against Mr. Carnegie or Mr. Ford making a fortune and think that in doing so we were producing a wonderful reform. But we might find that at the same time we had prevented the development of the

Farmers Please Note 5% Early-Delivery Discount On Mogul and Titan Tractors

Nearly five thousand of our boys in khaki and blue are coming back to work. We shall, of course, make a place in our organization for every one of them, but we wish to do it without throwing out of employment the men who took their places and have worked faithfully for us ever since. This is not going to be so easy for us as for some others, because the Government designated ours as an essential industry during the war, and we actually increased the efficiency of our organization after our boys left to join the ranks.

We can, however, give steady work both to our present help and to the returning soldiers and sailors, IF WE CAN BRING ABOUT AN IMMEDIATE INCREASE IN TRACTOR PRODUCTION. In order to do this we must move forward to the farm some thousands of tractors that are ordered for delivery at various dates up to May 1st, and we shall also have to ship a large number of tractors that farmers intended to order later this season, but could just as well take now. To those farmers who are so situated as to be able to take advantage of it we make the following proposition:

Our Early-Delivery Discount Plan

If you will take delivery of a Mogul or Titan tractor now, we will reward your co-operation as follows: To those who will accept delivery of a Mogul or Titan 10-20 on or before March 8th we will give an Early Delivery Discount of 5 per cent from the price of the tractor. (This amounts to \$61.25 in the case of the Titan 10-20 and \$56.25 on the Mogul 10-20.)

After March 8th the following discounts will be given:

For delivery during week of March 10 to March 15, inclusive.....	4 per cent
For delivery during week of March 17 to March 22, inclusive.....	3 per cent
For delivery during week of March 24 to March 29, inclusive.....	2 per cent
For delivery during week of March 31 to April 5, inclusive.....	1 per cent

This discount will go a long ways toward paying the fuel bills of your tractor during this season.

By taking advantage of this Early-Delivery Discount, you will not only be helping yourself, but will enable us more easily to put back to work our army of returning boys without breaking up our present organization.

with it, so that when the first day of good plowing weather dawns, he will be able to get in the field without a moment's lost time. That in itself is a very good reason for taking early delivery. Go to your dealer and tell him that you will accept immediate delivery of your Mogul or Titan 10-20 horsepower tractor, so he can make up his carload shipments without delay.

The common sense of the world is for making the necessary adjustments to correct developing evils, while not throwing away the wonderful productive achievements of modern civilization.
