## LEGISLATURE MAY SET RECORD FOR FAST WORK

BOTH BRANCHES WELL ALONG WITH MEASURES UNDER CONSIDERATION; TALK ADJOURNMENT FIRST OF APRIL.

Lincoln, Feb. 28.—Chances are considered better than an even bet that the Nebraska legislature, which has already smashed one record by holding down the number of bills introduced, will also wind up its work in record time.

Both branches of the legislature are well along with their work. The salaries and university maintenance appropriation bills have already been reported out of the finance committee of the house, the university appropriations which group all of the funds this year, has passed the house and it will not take the senate finance committee, of which Neal is chairman, long to push it through the upper branch.

Two big measures remain yet to be disposed of in both branches. The civil code administration bill, which has been undergoing a careful pruning by the special committee appointed by the senate, has practically completed its work.

Code Committee Named. In order to expedite matters, a code bill committee has been named in the lower branch. This committee has already started its labors and within a short time after the bill passes the senate and reaches the lower branch, it will be ready to report out of the committee.

There is no question but the civil administration code bill will pass both branches of the legislature with substantial majorities.

The three good road measures still remain to be passed, but with the exception of possible changes in the wording of the bills, it is not anticipated there will be any delay in handling them.

Members are already beginning to look ahead towards adjournment the first week in April, which, if it becomes an accomplished fact, will set a new mark for legislative efficiency.

## DUTCH ARMY HELD READY TO FIGHT ANNEXATION OF COUNTRY'S TERRITORY, WAR MINISTER ANNOUNCES.

Vital Problems Up. Paris, Feb. 28.—The peace conference plans to reach agreements on the more important questions between March 8 and March 15, Capt. Andre Tardieu, one of the French delegates, told foreign newspaper correspondents tonight.

He said the conference had four vital problems to solve—the Franco-German frontier, the Adriatic situation, the Russian frontier and the question of the freedom of the seas. All these questions probably will be completed in a fortnight.

Captain Tardieu declared France does not desire to annex the left bank of the Rhine, but only wants guarantees which will prevent Germany from using it as a base for attacking France. The Russian question, he added, will be considered later next week.

Consider Slovakia Frontiers. The peace conference commission, which is inquiring into the Czechoslovak questions today considered the question of the frontiers of Slovakia, according to an official announcement.

The commission for the study of Roumanian territorial questions met this morning under the presidency of Andre Tardieu, chairman. The official announcement says the commission resumed the examination of the claims of Roumania and Serbia.

The financial commission of the peace conference today unanimously adopted the proposition of Louis Klotz, the French minister of finance, for the information of a financial section of the league of nations.
