Almost as soon as said with Dr. King's New Discovery Get a bottle today!

The rapidity with which this fifty-year-old family remedy relieves coughs, colds and mild bronchial attacks is what has kept its popularity on the increase year by year.

This standard reliever of colds and coughing spells never loses friends. It does quickly and pleasantly what is recommended to do. One trial puts it in your medicine cabinet as absolutely indispensable.

Bowels Usually Clogged? Regulate them with safe, sure, comfortable Dr. King's New Life Pills. Correct that biliousness, headache, sour stomach, tongue coat, by eliminating the bowel-cloggers.

TO ESTABLISH NIGHT CITIZENSHIP SCHOOL

STEPS TAKEN LAST NIGHT FOR THE OPENING OF SUCH A SCHOOL HERE SOON.

COMMITTEES WERE APPOINTED

Much Interest Was Displayed by the Citizens and Success of the Enterprise Assured

From Thursday's Daily. With the coming to this city of Naturalization Agent D. D. Mote, who was in the city yesterday to look after the naturalization of some half dozen candidates for citizenship in this land of freedom, developed an opportunity of starting the ball rolling toward the establishment of a night citizenship school here in order that the alien within our midst may be given an opportunity to understand the full and true meaning of American ideals. And for that matter, there are some native born citizens who aren't very well informed regarding the great liberty-loving nation of which they are a part.

A number of interested citizens of the community were at the court house last night in response to a call of the Naturalization agent, and a general discussion of the matter was participated in and steps taken to assure the establishment of a night school of this kind in Plattsmouth.

Mr. Mote addressed the assembly of interested citizens, pointing out the necessity of opening such schools to prepare candidates for citizenship in such manner that they will understand American principles and be really and truly at heart American. To the surprise of some of those present Mr. Mote declared that there are in Plattsmouth at the present time approximately two hundred aliens, and that it is the duty of this city to educate these people to the point where they can and will want to become citizens.

At the present time the laws of the land, which have been rather lax with respect to aliens, are being rapidly made more rigid and right now no alien can vote, hold office or even teach in the public schools before he shall first become a citizen of the United States through the naturalization process. It will soon be that the privileges of citizenship cannot be longer enjoyed unless the obligations are assumed as well, and the sooner some of our people are made to understand this the sooner will there be a general desire on the part of the aliens to join heart and hand with the land in which success has smiled upon them so admirably.

Mr. Mote declared unofficially that it is generally understood in immigration circles there is to be some drastic immigration laws enacted at the coming sessions of congress—in fact this is merely by line with the recommendations that have been offered by well versed immigration experts of the nation. In this event, it is very probable the coming of foreigners to our shores will be greatly restricted or perhaps stopped entirely.

At the present time there are within the confines of the United States some 12,000,000 people who are not citizens of the country and it is our duty to educate this element of such startling proportions to the duties and privileges of citizenship. The alien population therefore comprises nearly one-sixth of the total population of the country and if it is permitted to remain in our midst it should be 100 per cent naturalized American.

Unless the people who reside here

and are not citizens become such, their tenure of residence must be limited, for there is no room in this country for any one not an American at heart.

To the end that this element may soon come before us as voluntary candidates to receive American citizenship steps are being taken over the country to teach this class thru the medium of night schools regarding their duties and obligations. In Plattsmouth a similar step was taken last evening for the organization of a night school in which aliens in our midst may be taught free of charge the requisite fundamentals of true citizenship.

At the present time, among other things, it is required that the applicant for citizenship must know something of American history, of our democratic form of government, its purposes and intent as well as the manner of conducting elections.

They must also know what our flag stands for and must respect it as well.

After the discussion had reached a point where all present might know its intent, and feel the importance of organizing such a school, committees to that end were appointed, as follows:

Committee to obtain the Public Library as a place in which to hold the school sessions, James M. Robertson, H. A. Schneider and J. S. Livingston.

Educational committee, whose duties are to provide teachers, whether they may offer their services free or it be found necessary to employ them. With Superintendent of the City School G. E. DeWolf, chairman and A. G. Cole, secretary, the personnel of this committee is made up as follows: G. E. DeWolf, Misses Alpha Petersen, Marie E. Kaufman, Amelia Martins, Judge J. T. Begley, A. G. Cole, Geo. L. Farley and Revs. H. G. McCluskey, M. A. Shine, A. V. Hunter, W. S. Leete and W. L. Senti.

The committee appointed to interest those not citizens in the matter of the night school and get them prepared to become naturalized citizens has as its chairman, W. A. Robertson, who is vested with power to call the committee together and to organize and direct its work as he sees fit. Those appointed to membership on this committee are W. A. Robertson, E. J. Richey, A. J. Janda, Carl Kuschman, Frank J. Libershad, John Sehulhoff, Geo. R. Sayles, J. M. Robertson, T. H. Pollock, C. A. Marshall, Richard Avar, Wm. Holly, Ignac Straka, Ed Donat, Frank E. Schlater, E. H. Wescott, D. C. Morgan, F. A. Cloldt, Geo. Luschinsky, C. C. Parmele, Rea Patterson, L. G. Larson, J. C. Brittain, Gunner Johnson, Wm. Baird, Harry Goucheour, Frank Sabatka, R. W. Clement, Dr. G. Sandin, F. L. Cummins, Will T. Adams, A. O. Moore, A. L. Tidd, A. W. Cloldt and J. C. Petersen, Jr.

The publicity committee is made up of R. A. Bates, chairman, Col. M. A. Bates and M. S. Briggs.

CLASS HOLDS AN INTERESTING MEETING

Lads of the Christian Sunday School Met at Home of B. F. Crook and Enjoyed Themselves

From Thursday's Daily. Last evening, at the home of B. F. Crook, there met a large number of the young people of the Christian church Sunday school, in the capacity of the Red Pepper class, of

which Mrs. A. M. Sanders is the teacher.

The evening was spent in a very pleasant manner, with a program of games and music, followed by a delightful luncheon which was one of the big features of the meeting.

After the other business of the newly organized class, the boys concluded there was a new class of boys and young men organized with A. M. Sanders as the teacher and John F. Sanders as associate teacher. The list of officers is as follows: Clair Hudson, president; Vern Hutchison, vice-president and Charles Talene, secretary-treasurer.

In the selection of a name for the newly organized class, the boys concluded they would adopt a wait, the name of "Loyal Sons" which the men of the church had thrown into the gutter in their attempt to annex the membership of the former Loyal Sons class, which had existed for so long.

The young men start on with excellent prospects of making a success and we are in hopes they will for we see no reason why they should not. They are young men filled with devotion to the cause of the master and are workers as well, which should insure their success two-fold.

Why Colds Are Dangerous. You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your
