**DINED TODAY AT
PERKINS HOUSE**

Commercial Club Still Considering a Hospital Project for This City—Fire Need of One.

From Tuesday's Daily.
At their noon "get-together" meeting today the board of directors of the Commercial club dined at the Perkins house, and after having finished with their mid-day meal, proceeded to a further discussion of the matter of securing a hospital for Plattsburgh. Just where they got or what action was taken we are not informed.

Of this fact we are assured however. The city is in need of a first class hospital—one for emergency and the care and treatment of cases which are constantly going to other places, notably to Omaha. Only this afternoon, while the Commercial club committee was deliberating, a patient was in waiting at the Burlington station for the afternoon passenger on which they departed for the city to undergo an operation. The day before there were two cases of people from this place going to Omaha for treatment and operations. In fact, nearly every day during the past week, there has been one or more from this place entered one of the hospitals in Omaha.

There is no gainsaying the fact that we need such an institution in Plattsburgh and the sooner the people of this city realize the condition the better it will be. The board of directors of the Commercial club is doing what it can and will hasten the consummation of the scheme as much as possible.

RALPH LAIR WRITES HOME.

From Tuesday's Daily.
A letter from Ralph Lair which was received this morning, tells of his being in the base hospital and having his eyes treated which have been giving considerable trouble for some time past. Ralph had hoped to have been able to come home with the Rainbow Division which is reported for sailing in the near future, but as he has been placed in the hospital for treatment, his division will probably sail before he is able to rejoin them.

PLAN SUMMER CAMPAIGN AT MEETING

Woman's Auxiliary of Presbyterian Church Entertained at Home of Mrs. Schneider.

From Wednesday's Daily.
Yesterday at the home of Mrs. H. A. Schneider, she, with Mrs. Edward Becker and Mrs. Louis G. Meisinger, entertained the Woman's Auxiliary of the Presbyterian church at their regularly monthly meeting. Much business was taken care of at the business session of this meeting, and among other things which concerned the membership was the financial question. A rummage sale was planned and five circles were created with as near equal membership as possible to compete with each other in the matter of earning money for the cause. The president, Mrs. M. B. Allison, who is directing the scheme, has the matter of the increasing finances well in hand.

At the last former meeting of the Auxiliary the election of officers was indulged in, the following being elected: Mrs. Mary Allison, president; Mrs. John Gorder, 1st vice-president; Mrs. Wm. Schmidtman, 2nd vice-president; Mrs. C. E. Hartford, secretary and Mrs. Robert Troop, treasurer. These officers took their places at the meeting yesterday, after which the president gave a most interesting talk in which she made known her plans for the future work of the society. She stated they would hold markets and other entertainments for the purpose of raising the deficiency caused by the quarantine during the fall months. During the course of the business session she appointed numerous committees and it was decided that the ladies residing north of Main street would conduct the market Saturday of this week in the former Red Cross rooms and those on the south side would have charge next week.

After the business session the ladies devoted a few moments to a very pleasant social time. Then the hostess served a dainty luncheon, which was likewise thoroughly enjoyed.

INVENTS A WINDOW LOCK.

From Wednesday's Daily.
The Western Machine and Foundry Company, has just completed a model of a new invention which is the work of the cunning brain and skillful fingers of J. W. Peters of the Peters & Parker contracting firm. The lock and catch combined, permits of locking the window at any place which is desired. The catch is distinctive from all others in that it will raise the window which is stuck, by reason of the paint, or any other cause, and has a power of 500 pounds pressure to release the sash, so that it can be raised with ease. The device seems as though it would be in great demand for it has the capacity to overcome many obstacles which other devices for the purpose do not touch.

THE SOLDIER AND THE JOB.

From Wednesday's Daily.
Many of the returned soldiers with an honorable discharge from the service are complaining because they have not been able to secure employment, and a number of them cannot even get the position which they gave up to go to the service, and with no reason given why they should not be accorded the position.

If you see it in the Journal you can rely on its being so.

SURPRISED THEIR FRIENDS.

From Wednesday's Daily.
Last evening a number of the friends of Mrs. D. W. Clark, with prepared baskets and a determination to have a good time, surprised their friend, Mrs. D. W. Clark to celebrate her birthday. The evening was very pleasantly spent, and at the conclusion a very beautiful and useful present was presented the lady, with the best wishes for her coming years, and that she might live to enjoy many more such occasions.

The evening was concluded with a very delightful luncheon served by visitors.

From Wednesday's Daily.
Last evening the basketball team, accompanied by Superintendent of the schools, G. E. DeWolf, departed for Lincoln, where they will attend the tournament for the remainder of the week. Plattsburgh has been placed in Class "A" which is the highest, and contains sixteen teams, of which Grand Island, Lincoln, Kearney, South Omaha, and Omaha, and others of the larger towns, and means that they must play ball.

The first game in which Plattsburgh will figure occurs this afternoon, where they will contest with Fremont, but with Fremont, the South Omaha team came out, just the same as when she played with Plattsburgh, but Fremont won over Havelock with a higher percentage than did Plattsburgh. Those to go from this city to Lincoln yesterday besides Superintendent G. E. DeWolf, were Harley Ceell, captain, Joseph McCarthy, Roscoe Hill, Hilton Martin, John Sattler, A. C. WILL ANDREWS WRITES HOME

LETTER FROM FRANCE TO MRS. JOSHUA ANDREWS, FROM SON TELLS OF TIMES THERE.

From Tuesday's Daily.
Moltron, France, Feb. 14, 1919.
Dear Home Folks:

I will write you a few lines in answer to your letter which Jim wrote and I received today and sure was glad to hear from you. It is the first letter I have got from you for a long time. Well how is everybody up there by this time. What is Jim going to do up at Alliance or does he know yet. Tell him if he thinks that it is fine to be in the army that I ever have to go to the army again, he can have my chance at it. It would not be so bad if we were in the good old U. S. A. but take it over here in this frog country, it is not very nice if we were moving around, it would not be so bad at that, but when you stay in a one horse town for about 2 or 3 months it sure gets on your nerves. We have been here in this little town ever since the 6th of December and there is not a thing to go to either. I am going to try and go to Paris before I came back if I get a chance. We have plenty to eat and a good place to sleep, so that makes it better too. We may get a chance to see Germany yet, which I hope we will. If we have to stay over here very much longer. I am cooking now. We have 2 cooks on one day and 2 on the next so you see I don't have to work only every other day, so that is not so very bad. We are going to have a big inspection tomorrow and I hope it is an oversea inspection. There has been two of the boys from our company that got their discharges and have gone on their way back home now. One of them left today. If you or father was sick you could put in for me a discharge and say that you need me at home and I think I could get one, but you would have to put it through from that side. How is grandma getting along. Have you saw any of Tolenes lately. I have not heard from any of them for quite a while. I wrote to them about a week ago. I wrote sis and them a letter the other night also. Where is Mable and Ruby at now? How much does Sandy make driving Flynn's car for him. Well mother, I just can't think of anything else to write now, only to sing the blues. So I guess I will say good night and go to bed for I have to get up about 5 o'clock and get breakfast, so good night with lots of love to everybody. Ans soon. From your son,

C. T. Richards of near Ashland, passed through this city this morning on the early Burlington, enroute for Quincy, Ill., accompanied by the remains of his mother who had died at Medford, Oregon, at a very advanced age, and the son was taking her to the old home for interment.

The folks had lived in the east years since, and had with the tide of immigration worked westward, until the mother had gotten away across the continent. Mr. Richards will accompany the remains of the mother east where he with loving hands will lay her to rest until the "rump of the resurrection angel" shall awaken her to that new life forever more.

His many friends here and especially his immediate family will be greatly pleased at his arrival home.
