NORTHWEST PART OF STATE UNDER FOOT OF SNOW

STORM PRESSING EASTWARD WITH LOWER TEMPERATURE; TELEGRAPH WIRES DOWN, TRAINS ARE DELAYED.

Lincoln, Neb., April 7.—Dispatches from Chadron, Seneca and Alliance say northwestern Nebraska is covered with from 10 inches to a foot of snow and the storm is working eastward. At Seneca the weight of the snow carried down telegraph wires, the damage being so extended that work trains were started out on the Burlington road from Alliance to repair them.

Trains on the Northwestern Railroad are delayed and there is a tie-up at Lusk, Wyo. Wires are down in the vicinity of Chadron. There was a heavy fall of snow in southwestern Nebraska, extending as far as McCook.

2nd Annual Tractor Demonstration Is Held

Even proved that Tractors are adapted to Spring work. Low Fuel Consumption Records made, the following giving the name of the tractor, horse power, speed, gas, kerosene and acre cost respectively:

- Huber, 12-25, 2 1/2 mi., 2 qt., 2 1/4 gal., 37.2c. Parret, 12-25, 2 3-8 mi., 2-3 qt. 3 gal., 38.1c. Waterloo, 12-25, 2 3/4 mi., 3 qt., 3 1/4 gal., 37.8c. Case, 15-27, 3 1/2 mi., 1 qt., 3 1/2 gal., 42.8c. Ford 10-20 2 1/2 mi., 1 qt., 5 1/2 gal., 46.9c. Titan 10-20 2 1/2 mi., none 5 1/2 gal., 63c. Heider 12-20 63c.

The depth of plowing was agreed upon as seven inches, no more, no less. The Titan had the ill luck of having plows that would not scour well. The Heider had a piece of ground part of which was fall plowing and this prevent plows scouring well at first.

This was a spring Demonstration and was valuable in answering the question that has prevailed as to whether tractors were adapted to spring plowing. There was no doubts left in the minds of any but that the question was answered in the affirmative. In this Demonstration also, all of the tractors were given a test of hillside plowing which proved very satisfactory to all who are interested in the tractor proposition.

One of the outstanding results of the meet was the showing made by all of the tractors of a much smaller fuel consumption than in the meet last fall. This is an item that all are interested in. It is because of this interest in fuel consumption that we print the table in connection with this article. It should be understood of course that a table like this is not to be relied upon as an absolute showing. In the first place it is not to be taken as the real fuel usage under actual working conditions for the reason that the lands plowed were short and the extra amount of turning increased fuel consumption probably 25 per cent over what it would be under actual working conditions. Another fact to be mentioned is that the fuel was not measured absolutely accurately, no graduate measure being provided. Other circumstances

two of which are mentioned in starred foot notes are to be taken into consideration.

There was a big crowd present, men being there from all parts of the county and the Demonstration proved a success in every way. The county agent says that the tractor dealers in the county should be commended for their spirit of co-operation in making the event a success.

Tractors entered in the meet were as follows: CASE: George Domingo, Weeping Water, dealer. Operated by Domingo; Also by J. M. Chalfant, Union.

FORDSON: Harry Williams, Elmwood and T. H. Pollock Auto Co., Plattsmouth, dealers. Operated by Williams and R. C. Hitchman.

HEIDER: Wallace Philpot, Weeping Water, dealer. Operated by Philpot and son Lloyd.

HUBER: F. H. Gorder, Weeping Water, John Gorder, Plattsmouth and Harry Williams, Elmwood, dealers. Operated by Noell and Williams.

PARRET: Grinnell Papillion; Gerts, Murdock and Barret, Eagle dealers.

TITAN: F. H. Gorder, Weeping Water and John Gorder, Plattsmouth, dealers. Operated by Fred Runtz.

WATERLOO BOY: Gollaher Bros, Elmwood and Johnson Bros, Implement Co., Weeping Water, Nebr. Operated by Gollaher and Henry Christensen.

A feature of the meet was the large display of tractor equipment, tandem plows, etc.

The following trucks were also on display: Maxwell, Dodge, DeSance, Ford, Master, Republic, Sandow and International.

Men who have attended Cass county's two tractor shows say they get more good out of them than out of the big ones like those held in times past at Fremont, Nebr. Here they can see tractors under actual plowing conditions; also the crowd is not so great but what one can get close up view of the tractor at work. It is interesting to note in this connection that at the National Tractor Show held at Atlanta, Georgia, a short time ago one of the head men there in a speech said that the ideal tractor Demonstration "like that held in Cass county, Nebr."
