

How is Your Head Geared?

You'll be pulling about "four to one" if you are wearing one of those new eight point shaped caps. They are right new, and come in a varied assortment of shades and materials. \$2.00 grade of worsted is excellent. \$2.50 grade of broadcloth is excellent — and that's some. \$2.00 and down — for the fellow who just wants a good respectable looking cap.

SCHOOL BOARD SELECTS C. E. PRATT SUPT.

WAS ONE OF FOUR MEN CHOSEN FOR INTERVIEW FROM 40 MORE APPLICANTS.

BEEN AT SUTTON THREE YEARS

And Is a Native Son of Nebraska, Receiving His Education and Experience in the State

Last evening at a meeting of the Board of Education, and after having completed the special interviews sought with four men picked from among some forty applicants for the position of superintendent of the Plattsmouth schools the coming year, two appearing last night and a like number the night before, Mr. C. E. Pratt was chosen for the position.

The four who had been sifted from among the large number of applicants were C. E. Collatt of Gothenburg; C. E. Lively, of Madison; J. E. Marsh, of Hooper and Mr. Pratt, who comes from Sutton, and it was not until after these four gentlemen had been called for a second interview the Board was able to decide whom they believed to be the most eminently qualified to take charge of the Plattsmouth schools the coming year.

Each was interviewed as to his special aptitude for certain lines of the work and the educational methods he would follow out and the decision was in favor of Mr. Pratt, who is at present superintendent of the schools at Sutton, where he has been the past three years. Sutton has a teaching force of 22 teachers in her public schools and Mr. Pratt has made good in the work there. The schools are progressive and doing excellent work which speaks well for his ability as an organizer and director.

Supt. Pratt was born near Hastings, and received his education in Nebraska as well as his experience along school lines—this state being one of the best places in the world to acquire a fund of knowledge and ripe experience along any line and more especially that of school work. Mr. Pratt is the possessor of a college education and is broad minded in whom the Board feel they can repose a great deal of confidence.

HAD AN EXCELLENT PRACTICE BALL GAME

Much Interest Is Being Shown by Those Who Expect to Get In to the Game This Year.

Last evening there was a ready response to the call for those who desired to see the city get into the base ball area this year.

Most positions were more than loaded with those who were interested in the game, and a very excellent time was had. Much interest has been generated, and another practice game will be held this evening just after six o'clock, after which there will also be a meeting for the organization of a team for the taking up of the proposition of ball for the summer. Let everybody get out and lend what assistance you can to this project. The opportunity for Plattsmouth to get into the game this summer is good. We have one of the best diamonds on which to play any place, and can have some of the best teams here and in the surrounding vicinity.

Captain Herold says he would like to see all those that can play ball at all on the diamond this evening as they want a real ball team, regardless of who they are or where they are from, just so they can play ball. He says he wants a winning team and if he has enough to pick from he will sure get it.

Mrs. Lamphear departed on the Burlington this morning for St. Joseph, where she goes to see her son and to do for him what ever possible in his sickness. It is hoped that she may find his condition better on her arrival.

Wm. Holly received a box yesterday from his son Sergeant Roy Holly from Germany, which contained among other things a First Aid Kit, of things needed by the soldier in case of being wounded, in the inner side of the lid was the name and address of the party who has had the kit, and a strange co-incidence, the name was W. LOOKS AS NATURAL AS YOU PLEASE

From Monday's Daily.

We had the pleasure of viewing a couple of pictures of Carl Roessler who is now in France, with the engineers corps, one standing beside an American Locomotive, which is one of goodly proportions, and no doubt looks large enough to the French, whose railroads are of the smaller type. Carl looked like he was enjoying life in that far away land. He has no idea when he will be able to get home.

WHAT RANSOM COLE HAS TO SAY ABOUT IT

WRITES LETTER RELATIVE TO SUIT FILED AGAINST HIM IN CASS CO. COURT

NOT AWARE SUIT WAS FILED

Until Read of Matter in Plattsmouth Journal—Says It Must Have Been Dismissed.

The following letter from R. M. Cole at Los Angeles, is self explanatory, and deals with a suit which was filed against him a few months since.

April 16th, 1919.

To the Editor, Plattsmouth Journal.

Dear Sir: It has come to my notice that in your issue of the above journal for February 20th, 1918, there appeared two news items in which my name was mentioned and concerned.

In one of these items the statement was made that Charles C. Parmele and Will S. Jean, had brought suit against me for the sum of \$802.50, as commission for the sale of a farm. The other item stated that Edward H. Spangler had brought suit against me to enforce the execution of a contract for the sale of a farm to him by myself.

I wish to state to your many readers that during the thirty years and more that I resided in Cass County, Nebraska, and since my absence from there, suit was never brought against me to compel me to pay one dollar of debt or fulfill an obligation of any kind. And, if it is true as your paper reports that suit was actually brought against me by the above named gentlemen, it must have been brought and dismissed at the expense of the persons bringing these actions, for I have never been served with notice of either of the actions.

I wish to explain that the transaction referred to in your paper was closed according to my instruction, and original agreement, which I was ever ready to live up to and did live up to, and within the time specified that it should lead up to by me, but I did not pay any commission of \$802.50, although I did pay the amount I agreed to pay, nothing more. I know nothing of Mr. Spangler's claim of \$400.00 damage. The agreement with me under which he was buying called for the closing of the transaction March 1st, 1919, while, according to your newspaper report he filed suit against me on February 19th, 1919.

It is a serious question in my mind whether or not one person can bring suit against another where no grounds for suit exist without laying himself liable to damages to the person who is injured by the filing of such a suit.

Respectfully yours,

R. M. COLE,

56 So. Daisy St., Long Beach, Calif.

P. S. Having been a property holder in your county for more than thirty years, I feel sure you will do me the justice of allowing my friends and business acquaintances to get this statement from me through the columns of your paper.

The Comfort Car

HUPMOBILE performance stands out as a thing distinct, unique, and unusual. It is a definite, positive quality of performance, uncommon among motor cars.

The explanation is that eleven years of persistent, scientific development have been devoted to the four-cylinder principle by the Hupmobile organization.

One of the results of this close application is an engine that obeys like a fine-mettled race horse in the getaway and pulls like a dogged, powerful plow-horse on the hills and heavy roads.
