CLASS OF NINE CONFIRMED LAST NIGHT

At St. Luke's Episcopal Church, by Right Reverend H. S. Longley, D.D., of Iowa.

From Saturday's Daily.
Last evening St. Luke's Parish was visited by the Right Reverend Harry Sherman Longley, D. D., the Bishop Coadjutor of Iowa, and the Sacrament of Holy Confirmation was administered. On account of the busy life of the Bishop, made doubly busy by taking extra duties in Nebraska, the service had to be changed to quarter past seven so that Bishop Longley might take the nine o'clock train for Pacific Junction enroute for Council Bluffs and Des Moines. However a large congregation assembled at that hour and everyone present will remember a long time the beautiful and simple service, the spiritual address to the Class and the forceful sermon of the Bishop.

The Bishop's sermon was more than forceful. It was inspiring and helpful. His text was, "What think ye of Christ?"

Confirmation was administered to a class of nine.

At the close of the service Bishop Longley shook hands with the entire congregation.

RECEIVES REQUEST FOR PRICE QUOTATIONS FROM MANCHESTER, ENGLAND

From Saturday's Daily.

Yesterday L. C. Sharp, proprietor of the Western Machine shops, received a cablegram from Manchester, England, asking for a description and prices on the cone manufacturing machine which is a product of the local factory and which the British concern wishes to purchase in large numbers. On account of the message being partly in the A. B. C. code Mr. Sharp was compelled to go to Omaha for a key for the interpretation of the message. Upon learning what it contained he immediately took steps to give the British parties the desired information, and expects within a short time to receive an order for shipment abroad of these machines. This will not, however, be the local factory's first export business as already hundreds of the safety cranks for Ford cars, as well as the steering device manufactured here, have been shipped to foreign countries. This institution is building up a large domestic and foreign trade and should receive the encouragement and hearty support of everyone in Plattsmouth.

STANDS PAT ON BIG ARMY.

Washington, May 9.—Secretary of War Baker expects to stand pat in his forthcoming recommendations to Congress for a peace time army of 1/2 million, a request embodied in bills falling of enactment in the closing days of the last Congress.

The secretary indicated today that although he expects to be called into consultation with the military committees of the Senate and House, he now has no further program to offer.

May Change After Peace.

While he did not elaborate his views, the inference was drawn that this will not preclude the depart-

ment from offering other recommendations after the session has progressed, and the needs of the Nation are decided upon, following the signing of the peace treaty.

The Military Appropriation Bill, which failed of passage, was based on an army of 1/2 million. It is probably the intention of Secretary Baker to push this measure at the beginning of the session and delay consideration of a permanent reorganization bill until later in the session.

"Happily there is no mystery or privacy about what I have promised the government here," the president called. "I have promised to propose to the senate a supplement in which we shall agree, subject to the approval of the council of the league of nations, to come immediately to the assistance of France in case of unprovoked attack by Germany, thus merely hastening the action to which we should be bound by the covenant of the league of nations."
