There is a mistaken notion among a whole lot of people that booze is the best remedy for colic and stomach ache.

NATION-WIDE TELEGRAPH-
ERS' STRIKE IS LIKELY

Washington, June 5.—Employees of the Western Union Telephone company in Florida, Alabama, Georgia, South and North Carolina, West Virginia, Virginia, Kentucky, Tennessee, Mississippi and New Orleans, La., who are members of the Commercial Telegraphers union were ordered to go on strike immediately tonight by S. J. Kokenkamp, president of the organization.

President Kokenkamp said the strike order was issued in support of Atlanta telegraph and telephone operators who went out several days ago, and asserted it would unquestionably be followed by a nationwide strike with a few days.

"I took the step immediately upon learning that Postmaster General Burleson has ordered wires returned to the company," Mr. Kokenkamp asserted. "Authority for it was extended by a strike vote taken some time ago, which has been held up to see if we could not negotiate a peaceable settlement. It is very likely that the strike will also involve the Postal company."

BUY COAL NOW IS AD-
VICE OF GARFIELD

Chicago, June 5.—Armed with the latest figures supplied him by the statistical expert Dr. Harry A. Garfield, federal fuel administrator, sounded another warning to "buy coal now."

The figures supplied by C. E. Leshner, chief of the government's geological survey, showed for the first five months of 1919 that the bituminous production amounted to only a trifle more than 178,000,000 tons. This compared with 232,000,000 in 1918 and 226,000,000 in 1917.

The statistician estimated that 530,000,000 tons would be needed for the year.

"That means an average production of 10,000,000 weekly," Dr. Garfield said. "But our present average is only 8,200,000."
