### FAREWELL GIVEN FOR MRS. GEORGE THOMAS

St. Mary's Guild Ladies Entertained  
at Home of Mrs. H. N. Dovey  
Saturday Afternoon

From Monday's Daily.

The St. Mary's Guild of the St. Luke's church held a very pleasant meeting at the home of Mrs. H. N. Dovey Saturday afternoon, the occasion being given as a farewell in honor of Mrs. George Thomas, whose family will remove to Nebraska City tomorrow to make their future home. There was quite a

large number of the Guild members present to enjoy the hospitality of the Dovey home.

During the afternoon Mrs. J. T. Beley favored the gathering with a number of very beautiful vocal selections and short talks were made by Father Leete and Mrs. J. A. Donelan, expressing their deepest regrets in the loss of this most estimable member of the organization, to which Mrs. Thomas responded with the same feeling with reference to the severance of her long connection with the St. Mary's Guild. She has been the treasurer of the Guild for many years and only those who know the scope of her work in that capacity can appreciate how well the duties of the office have been looked after and the excellent manner in which the financial condition of the Guild has been guarded. She has made a good and faithful officer.

Numerous games were played during the afternoon and the purchasing power of the little navy bean was surely demonstrated in

the game introduced by Miss Barbara Geritz, in which every little bean was valued at \$1.00 in the purchase of the prize offered in this contest, which was captured by Miss Alice Eaton. In the gum moulding contest, which was in charge of Mrs. R. W. Clement, Mrs. T. E. Bates captured the prize. In this contest all manner of little animals and flowers were moulded from the tiny piece of gum. Mrs. George Thomas, the guest of honor, was presented a gift in token of the remembrance of St. Mary's Guild.

A delicious buffet lunch was served during the afternoon.

### ARE MOVING TO NEBRASKA CITY

From Tuesday's Daily.

This morning two truck loads of household goods belonging to George W. Thomas were taken to Nebraska City by Fred Hafke in his big trucks. Mr. Thomas who has been employed in Nebraska City for some time, with the packing plant, is now moving to that place to make his home. Mr. and Mrs. Thomas in leaving this city are leaving a large number of very close friends who will miss this excellent family, as they have made their home here for a number of years, and have been interested and associated with the things which has been the making of this the progressive town which it is. In their going this city is losing some excellent citizens, but what is our loss in this instance, will be the gain of our sister city down the river. We are wishing them prosperity in their new home which we are certain they will have.

### HAS A NEW SIGN.

From Wednesday's Daily.

As we sit at our desk and look across the street we are accosted with a new sign, where but a short time since there was sign Barber Shop. Now we see "Chas. E. Martin, Attorney at Law, Real Estate, Insurance, Notary Public." That this man has white attending to the honing of razors, cutting hair and shaving, improved the spare time, and been admitted to the bar as an attorney, is to his credit, as one who is endeavoring to improve his condition, is worthy of congratulation. We are pleased to see his industry, and we are certain that in this new venture as in the pursuit of his former vocation he will succeed. We are pleased to see him progress, and hope he will meet with abundant success.

### ARE RECEIVING A CAR LOAD OF STOVES

From Wednesday's Daily.

The enterprising firm of Bestor & Swatek are placing the room on lower Main street, in condition for the unloading of a car load of stoves, which they have on the road at this time. They have just had a sign placed in the windows of their store room, which acts as an advertisement as well as telling where they store their stoves.

## Are Farm Buildings an Investment or an Expense?

**T**HE character of a farmer's buildings depends largely on whether he looks at building as an expense or an investment. It comes down to this. Do good farm buildings earn more money than they cost?

If carefully designed, well-built buildings make more money than they cost, every farmer will see the wisdom of having good buildings.

Here are a few facts for your consideration.

A good hog-house will pay for itself out of the feed it saves in one winter, and will then go right on paying dividends by making possible two litters of pigs each year, and bigger litters and healthier pigs.

A good implement shed will double the life of machinery, and save in the upkeep and repairs.

A good poultry house makes chickens profitable on the average farm.

A good barn increases milk and beef production so that the additional profits pay for it in a few years.

If cattle are fed in the open, the saving in feed will pay for a cattle shed in one winter.

These are not theories. They are facts based on the experience of every-day farmers. They answer conclusively that good farm buildings are an investment.

We are prepared to furnish you with practical working plans, specifications, and bills of material for any type of farm building, free upon request, together with our estimate of the cost.

And we have a nice assortment of White Pine, the best and most economical wood for use on the outside of any farm building.

It takes 15,000 feet of lumber to build the average dwelling. Suppose the price of lumber advances \$1.00 a thousand. Suppose it advances \$3.00. Or suppose it advances \$5.00. The first means an increased construction cost of only \$15.00; the second, \$45.00; the third, \$75.00. Honestly, now, would that stop anyone from building who really wanted to build?

### Extra! Special!!

No, this is not a news dispatch from Paris announcing that Ex-Kaiser Bill was shot at sunrise, but the information given here should arouse kindred feelings for the man who wants a screened porch for practically nothing.

We had a mechanic make up for us nine porch screens out of Clear Selected White Pine 1/4 inch stuff, oak dowel pins, screened with genuine PEARL Wire Cloth, and one priming coat of white lead and oil, with hooks and eyes and fasteners complete. These screens are not second hand but have been stored in our shed and it is a case of where we prefer the room to their company. Like some people, you know! We will not split or divide the assortment—the lot must go together. The PRICE—we blush to mention it, \$25.00. Think of it. Less than the cost of the wire cloth alone.

The sizes are given in inch measurements for your convenience.
