PUBLIC NOW TOLD ALL ABOUT TANLAC

AUTHORITIES NOW SHOW JUST
WHAT THIS MEDICINE
REALLY IS.

In a recent issue of this paper announcement was made that Tanlac now has the largest sale of any medicine of its kind in the world, and that more than twelve million bottles had been sold during the past four years.

These are unusual figures, and the question naturally arises in the mind of the reader why this phenomenal success and why has this preparation so far outstripped all other medicines of its kind. It is only natural therefore that the manufacturers should offer some explanation to satisfy public interest.

In the first place, Tanlac is manufactured in one of the largest and most modernly equipped laboratories in this country. Its formula is purely ethical and complies with all national and state pure food and drug laws. Altogether there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association as in the Tanlac formula, humanity had not heretofore realized their full value and effect.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has long been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac the 13th Edition of Potter's Therapeutics, a standard medical text book, states that—"they impart general tone and strength to the entire system, including all organs and tissues."

This same well known authority in describing the physiological action of still another of the ingredients of Tanlac which is of value in treating what is commonly known as "a run-down condition" uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which because of their influence upon the appetite, digestion, assimilation and elimination improve the nutrition and vital activity of all the tissues and organs of the body, and produce that state of general tonic which is called health.

In discussing another ingredient the Encyclopedia Britannica says: "It is one of the most efficient of that class of substances which act upon the stomach so as to invigorate digestion and thereby increase the general nutrition. It is used in dyspepsia, chlorosis, anemia and various other diseases in which the tone of the stomach and alimentary canal is deficient." Concerning still another ingredient this same standard authority says: "It causes dilation of the gastric blood vessels, increases secretion of the gastric juice, and causes greater activity in the movements of the muscular layers in the walls of the stomach. It also tends to lessen the sensibility of the stomach, and so may relieve gastric pain."

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required. Dyspepsia, atonic gout, hysteria, and intermittent fever are among the many affections in which it has proven useful."

There are certain other ingredients described in the Dispensary and in other standard medical text books as having a beneficial action upon the organs of secretion, whose proper functioning results in the purification of the blood streams passing through them. In this manner objectionable and poisonous ingredients of the blood are removed, and the entire system is invigorated and vitalized.

Tanlac was designed primarily for the correction of disorders of the stomach, liver, and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must therefore have a far-reaching and most beneficial effect upon the entire system.

Although Tanlac's claims for supremacy are abundantly supported by the world's leading authorities, it is the people themselves who have really made Tanlac what it is. Mil-

Hons upon millions have used it, and have told other millions what it has done for them. That is why Tanlac has become the real sensation of the drug trade in this country, and that is also why it is the most widely talked of medicine in the world today.

Tanlac is sold in Plattsmouth by F. G. Fricke & Co., in Alvo by Alvo Drug Co., in Avoca by O. E. Copes, in South Bend by E. Sturzenegger, in Greenwood by E. F. Smith, in Weeping Water by Meier Drug Co., in Elmwood by L. A. Tyson, in Murdock by H. V. McDonald, in Louisville by Blake's Pharmacy, in Eagle by F. W. Bloomkamp, and in Union by E. W. Keedy.

There are certain other elements in Tanlac which because of their influence upon the appetite, digestion, assimilation and elimination improve the nutrition and vital activity of all the tissues and organs of the body, and produce that state of general tonic which is called health.

WELL PLEASED WITH NEW CAR

From Thursday's Daily.
Lee J. Mayfield, of Louisville, the versatile editor of the Louisville Courier, was in Plattsmouth yesterday looking after some business and was accompanied by Mrs. Mayfield and a lady friend of hers, the trio driving down in Lee's new Ford touring car. Lee is as pleased with the new motor vehicle he has recently acquired as a little boy of the sixties or seventies would have been over the receipt of a pair of new copper toed and red leather topped boots, and that is some degree of pleasure, as you will be told by that part of the present day population

THE PROPER COURSE

Information of Priceless Value to Every Plattsmouth Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Plattsmouth citizen who used them and who publicly tells of the benefit derived?

Mrs. J. M. Hiber, 1403 Vine St., says: "Once in a while I get a dull ache across my kidneys, but a few doses of Doan's Kidney Pills soon overcome this trouble. I couldn't recommend a better medicine for backache and kidney complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hiber had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
