

OYEPELA COMPANY

A DELIGHTFULLY ENTERTAINING AND EDUCATIONAL PROGRAM ON CHAUTAUQUA

Oyepela (Singing Water) is a beautiful Indian girl, niece of the present chief of the Creek Indians of Oklahoma. Her great, great grandfather was a warrior of the Tacomah, her grandfather led the Creek Indians from Georgia to Oklahoma and was chief of the tribe until his death two years ago. Oyepela is the literary mind of her people. She was sponsor for the Creek Indians at the recent congress in Tulsa, Okla. A graduate of the dramatic department of the Christian College, Columbia, Mo. She takes her audience back 400 years to the primitive stages of civilization, and through her own interpretation and transposition of the beautiful Indian legends, pictures and changes in the life of the First American, the Indian, Indian songs and dances in beautiful beaded costumes are a feature of the program. Oyepela will be ably assisted by two concert artists chosen personally by her for this program. Afternoon of the second day.

ARREST OF CHINESE STUDENTS RESULT OF ANTI-JAP BOYCOTT

Washington, June 20.—Arrest of 6,000 Chinese students at Fushow by Chinese and Japanese military authorities was said in official circles here to have resulted from the anti-Japanese boycott growing out of the decision of the peace conference on the Shantung question. The Chinese authorities, fearing forcible action by Japan, are said to have been trying to stop the boycott, which has been largely fomented by Chinese students.

CREW MAROONED ON BARREN ISLAND

Honolulu, June 20.—Capt. D. P. Wall of Honolulu and a crew of seven of the schooner Laka, 49 days overdue from Suva, Fiji Islands, are

believed by shipping men here to be marooned on Flint Island, 1,000 miles south of Honolulu, and in great danger of death by starvation. The captain of the barkentine Alta, which arrived at San Francisco May 17 from the South Pacific, was signalled by fire from Flint Island, but because of heavy seas and strong tidal currents was unable to put boats ashore. The castaways are in a desperate situation as Flint Island is little more than a coral reef on which there is neither water nor food. There is no naval vessel here available for a rescue cruise.

John Ledgway, wife and daughter, Miss Florence, were all passengers to Omaha this morning, where they are visiting with some friends for the day and also looking after the transaction of business.

News

Miss Bell Bouck was visiting her parents in Palmyra last Sunday. Chalmer Switzer and family and Mrs. Whitman autoed to Lincoln Tuesday afternoon. H. L. Thomas has been busy the last few evenings distributing advertising matter for the chautauqua at nearby towns. Justin Sturm who has been attending Yale University, returned home the latter part of the week and will remain at home for some time visiting his parents. Eugene Nutzman who left here to serve his country returned home last Monday. While away he was stationed at several cantonments on this side and while he saw several months' service in France he did not see actual fighting. He was driving trucks the greater part of the time and at the last was doing clerical work. It seems too good to his friends to see him back again and he is surely glad to be home once more. The community fruit and vegetable dryer that Nehawka got along without last year, because some one had the temerity to venture the opinion it would be a failure, now appears (to judge from reports from other towns that used one) to have been Nehawka's loss. Up at Weeping Water where a dryer was used last year, the dried products were of such excellent quality that the dryer has been put in shape to begin work as soon as the season opens. With prospects bright for good gardens and fruit, Weeping Water is going in to can and dry the surplus.

SAYS SILVER WILL NOT GO BELOW \$1 AN OUNCE

reno, Nev., June 20.—That the price of silver will not fall below \$1 an ounce in less than seven years, and probably for several years later than that, is the statement made here by Raymond T. Baker, director of the United States mint, who is en route to San Francisco for the annual accounting of the mint at that place. Baker says that the probability of congress repealing the Pittman silver bill is very remote.

"If the government were to purchase the entire silver production of the United States for the next five years," said Baker, "the silver to be melted and sold to the mines of the United States under the terms of the Pittman bill would not be replaced. It would be impossible to purchase the entire output of the mines of the United States, hence it will be a somewhat longer period than five years before the replacement would be completed.

"The government has melted, under the Pittman bill, 270,000,000 ounces of silver and 200,000,000 ounces have been sent abroad. The silver production of the United States last year was 77,000,000 ounces."
