HOME FROM A WEEK OF PLAY AND WORK

CAMP FIRE GIRLS ARRIVED ON SATURDAY FROM OUTING AT CRETE, NEBR.

MANY FROM HERE WON PRIZES

Half Dozen Fair Maidens Carried Away Blue Ribbons—Intensive Daily Schedule.

From Monday's Daily.

The girls from the Wah-Wah-Tay-See and Toka camps of Campfire Girls, who were in attendance at the state encampment at York, arrived home Saturday evening and were greeted by a shower after a week of very pleasant weather.

The Plattsmouth young ladies made a good showing at Camp Metilomeesh, eight of them receiving blue ribbons. They were Alice Pollock, Fae Chase, Helene Gopen, Alice Louise Wescott, Grace Beeson, Catherine Waddick, Mrs. Westover and Mrs. Gobelman.

Virginia Beeson won first place in the potato race at the track meet and Alice Louise Wescott second place in the ball throw.

As usual, all was not play. There were classes the girls were to enter, including First Aid, Sketching, Folk Dancing, Story Telling, Arts and Crafts, made up of wood-blocking, stenciling, decoration of ceremonial dresses and clay molding. The other classes were Nature Lore, Camp Fire Songs and Motions. These classes were held from 10:00 to 12:00 each day and the girls could register for any two of these besides boating and swimming. These classes were beneficial as well as interesting and the girls from Plattsmouth took pride in their work.

The daily schedule of work was as follows:

6:30—Reveille. 7:00—Flag raising and setting-up exercises. 7:30—Tom-toms sounded for call to breakfast. 8:45—Camp inspection. 9:15—Community sing. 10:00—Classes. 12:15—Tom-toms, Dinner call. 1:00—Hour's rest till 2 p. m. 2:00—Hour's swimming till 3 p. m. 3:00—General boating. 4:00—Tom-toms, Supper call. 7:30—Evening entertainment. 10:15—Tattoo. 10:30—Taps, Lights out.

The camp inspection was a great benefit for the sanitation of the camp. The girls were fortunate in having no flies during the whole week, although there certainly were plenty of mosquitos. Each girl was responsible for her own belongings and the cabin, also the cleanliness of the surrounding yard.

The last night was stunt night and each cabin gave a stunt. The camp was very systematically organized for one of such magnitude and although there were nearly 700 girls in attendance not a single accident occurred to mar the pleasure of the campers.

New Telephone Toll Rates

EFFECTIVE JUNE 21, 1919

OFFERS SEVERAL NEW CLASSES OF SERVICE REDUCES REVENUE OF TELEPHONE COMPANY.

A new method of computing charges on telephone toll calls under which all toll rates within the State of Nebraska are placed on a standard basis, became effective Saturday, June 21, 1919. A brief description of this new method and of its application to the several classes of service, is given herewith. The rate for any particular class of service may be obtained from the long distance operator:

"Station to Station" Rate

When a person makes a toll call without specifying that conversation is desired with a particular person, and the connection is established and conversation held, the "station to station" rate applies.

"Station to station" calls should be made by number wherever Telephone Directory information is available. Where this information is not available at the calling telephone, such calls may be made by giving the toll operator the name and address of the subscriber at the telephone called.

"Person to Person" Rate

When a person makes a toll call, specifying that conversation is desired with a particular person and the connection is established and conversation held with that person, the "person to person" rate applies.

As this service requires a greater amount of operating effort, the rate for such calls is about one-fourth greater than the "station to station" rate.

This "person to person" rate is computed on the day rate between the points involved, whether the call is made during the day or during the night, and the minimum charge is 15c.

"Report Charge"

When a "person to person" call is made and the particular person desired is not in or will not talk, or when an exact telephone address of the particular person desired has not been given and he cannot be reached at a telephone within one hour a "report charge" applies.

Such a charge also applies if the calling party is absent when the connection is completed within one hour, or if he refuses to talk.

This charge is to cover compensation for the operating work performed and is usually about one-fourth of the "station to station" rate.

In any case where a "report charge" applies, the minimum charge is 10c and the maximum is \$2.00.

"Appointment" Rate

When the calling party in placing his call appoints a definite specified time at which he will talk on a "person to person" basis and the conversation is held at the specified time, the "appointment" rate applies.

The "appointment" rate is usually about one-half greater than the "station to station" rate.

The "appointment" rate is computed on the day rate between the points involved, whether the call is made during the day or during the night, and the minimum charge is 25c.

"Report charges" apply under the same general conditions as specified for "person to person" calls.

"Messenger" Calls

When a call is made on a "person to person"

basis and a messenger is required to secure attendance of the designated person at the distant point, the "messenger" call rate applies.

This rate is the same as the "appointment" rate for the same distance, plus any charge for messenger service.

The "messenger" call rate is computed on the day rate between the points involved, whether the call is made during the day or during the night, and the minimum charge is 25c.

Messenger charges incurred are to be paid even, if desired conversation is not had.

"Report charges" apply under the same general conditions as specified for "person to person" calls.

Standard Toll Night Rates

The following reduced rates for night service on a "station to station" basis only are effective, 8:30 p. m. to 12:00 midnight—About one-half the "station to station" day rate.

12:00 midnight to 4:30 a. m.—About one-quarter of the "station to station" day rate.

For the purpose of applying night rates, the time of day at the point at which a "station to station" message originates is used.

Day rates apply on calls made at night when the "station to station" charge is less than the minimum night rate of 25c.

"Collect Calls"

"Collect calls" are calls for which the charges are reversed; that is, are to be collected from the subscriber at the distant station at which the call is completed.

Such "collect calls" or reversed charges are allowed only in connection with "person to person" calls.

Example Showing Application of New Rates

Assuming the air-line distance between toll points to be more than 144 miles, but not more than 152 miles, the following initial period rates for service under the various classes offered would apply:

Table with 2 columns: Service Class and Rate. Includes Station to station, Person to person, Report charge, Appointment, and Messenger rates for various time periods.

The rate for a "station to station" call is generally less than the present charge and the "person to person" rate is a slight increase in some cases. The revenue produced under the new tariff will be less than was received under the old rates.

The Postmaster General's classification and rates have been in effect on interstate business since the first of this year.

The United States Supreme Court has established the Postmaster General's authority to prescribe rates and at 12:01 a. m., June 21, the new long distance rates and classifications became the legal rates on all toll business throughout the United States.

PAYS THREE HUNDRED DOLLARS PER ACRE

This Is The Price That a Quarter Section Cass County Farm Sells For.

From Wednesday's Daily.

The negotiations have just terminated for the purchase of the Christ Parkening quarter section of land, where he has lived just over the Four Mile creek west of this city. The quarter has one acre short, as that amount has been used for school purposes. Charles C. Parmele is the purchaser, not that Mr. Parmele knows the value of lands, he does, and is in the market every day, knowing just what a farm will produce, how much per cent the land will pay on the money invested, and the matter of the land selling for this amount is not a scramble to get the land, for in this purchase it must show capacity for paying a dividend, on the purchase price, and it eventually selling for more money which it is bound to do.

Woman loves a clear, rosy complexion. Burdock Blood Bitters is splendid for purifying the blood, clearing the skin, restoring sound digestion. All druggists sell it. Price \$1.25.

Although Journal want-ads cost but little the results they bring are wonderful. Try them.
