## WILSON FAILED DE-CLARES ROME PAPER

Returns to America Leaving Behind Him Chaos of Disorder—The Peace one of Compromise

Rome, July 1.—Critical comment on President Wilson's sojourn in Europe is made by the Tribune, in discussing his return to the United States.

"Seven months ago an immense halo of popularity surrounded President Wilson," the Tribune editorial says. "Europe awaited him as the Messiah in a new era of history, while he now leaves amidst almost general indifference, appearing as an intruder in our continental history, our European civilization and our sacred ideals."

"It has been a psychological drama, as President Wilson believes, perhaps sincerely, that he incarnated not only the aspirations of America, but also the aspirations of Europe. Instead, President Wilson, despite his pure intentions, failed of his object. He returns to America, leaving behind him a chaos of disorder, passions and dissensions, since he could not conclude peace according to his principles, but made a compromise brought about by the overbearing attitude of the strong toward the weak."

## COLONEL HERSEY TO TAKE PLACE IN WEATHER SERVICE

Washington, July 1.—Lieut. Col. B. H. Hersey, formerly commanding officer of the U. S. ## MICHIGAN TOWNS THREATENED BY FIRE

Residents of Trout Lake Send Out Appeal for Rescue Trains—Forests Destroyed.

Sault St. Marie, Mich., July 1.—A dozen upper Michigan towns are threatened tonight with destruction by forest fires that have been raging throughout the territory west of here today.

Trout Lake, Raco, Brimley, Seney, Wellers, Strong, Ozark, Gilchrist, Johnsonburg and Dick are reported to be fighting the flames which are being driven before a high wind.

Residents of Trout Lake sent out an appeal for special trains to rescue them. The message was the last word received from that village and said the flames were within a mile of the town on two sides.

At Raco the flames were menacing the village on all sides and roaring along through the surrounding country practically unchecked. The railroad telegrapher there reported the people fleeing the village, which he said was certain to be destroyed.

Trainsmen reaching here from the fire-swept district were unable to give a detailed account of conditions but say the whole region is swept by smoke and at no time were they able to see more than 100 yards ahead.

The fires have already destroyed millions of feet of lumber. There has been no rain in this section for three weeks and efforts to fight the flames are almost futile.

## W. J. BRYAN BALKS AT RIDING CAMEL

Columbus, O., July 1.—William Jennings Bryan, former secretary of state and prominent national prohibition leader, balked on riding a camel in the prohibition day parade at the Methodist centenary celebration here. Centenary officials had planned to have Mr. Bryan ride a camel at the head of the parade. Instead, he viewed the parade from the grandstand along with the other prominent prohibition leaders.

## U. S. NATIONAL ANTHEM SUNG BY MEXICANS

Washington, July 1.—Mexicans joined with Americans in singing the American national anthem at a celebration of the signing of the peace treaty held Sunday at Monterey, Mexico, according to an announcement by the State Department. The governor and officials of the state invited the American consul to the state house for the celebration.

Several hundred military students of the Mexican university participated. After the American national anthem was sung a friendly address was made and the same honor was accorded the British, Italians and French. The celebration was closed with the singing of the Mexican national anthem and a speech by the governor, to which the American consul general responded.

## WE ARE ENTERING INTO THE NEW ERA

From Tuesday's Daily.

Today marks the beginning of a new epoch in the history of the United States. There never was a time since the foundation of the nation was laid that there was a law over the entire country forbidding the trafficking in intoxicating drinks. Long while since Maine forbade, then Kansas and Iowa, who were the three states for a long time one state followed another, and finally, the bill came to make it nationwide, then came the war measure, and the war was ended, and the resumption of the traffic was supposed to be a fact, but as there still remain more than 1,400,000 men yet undemobilized, the measure is supposed to stand until such a time as the troops shall all be home again. During this time the national prohibition measure has received the ratification of many more than the amount required and therefore becomes a law next January.

What will prevail in the future no one knows, the future alone can tell, but it looks like the ban had forever been put on the traffic. True there will be violations of the law, just as there have been violations of the state law, but the matter of going to St. Joseph or Kansas City, as we know it locally will be done away with and there being no stocks from which to draw, they will gradually be less of the visible, until it shall have been exhausted then the people will have found some other occupation, and the traffic will die a natural death. This of course will not be for some time.

## THE RED STAMP COMING BACK.

From Tuesday's Daily.

Not coming, it is here, the two cent stamp has returned. It looked in on us this morning, and with a smile which was answered by more than one hundred million people, it was greeted with a smile. The three cent stamp for the carrying of the letter which came as a war measure within three days of the signing of the peace treaty, is getting out, and allowing the bright red stamp which was formerly the medium of carrying the letter, take up the white man's burden again. During the time that the three cent stamp has held sway, the salaries of the clerks in the postoffice have been increased, but with the returning of the two cent stamps, the salaries are not to be lessened. They are to remain the same with a prospect of being increased. Nothing else is being lessened. The cost of other things are still up, and no one could expect that salaries would be made less.

Not only do we train you for positions in business, in civil service or as a Commercial Teacher, but we help you to secure such a position. Our Employment Department receives more calls than six schools could fill. Send for free catalogue of the oldest, largest and leading Business Training school in the West. ## STORE HOUSE TEAM WON THE FIRST GAME

BURLINGTON LEAGUE SEASON OPENED LAST NIGHT AT THE RED SOX PARK

## LEADS PERCENTAGE COLUMN

Jack Davis Made Home Run for the Store House—Score 7 to 3—Next Game Wednesday.

From Tuesday's Daily.

All roads led to the Red Sox ball park last night at 6:30, and it was but a short time after that hour that the players were on the diamond playing the first game of the newly organized Burlington league. This opening game was between the machinists and the store house teams. A new line up was arranged by the machinists, which was much changed from the printed line-up in yesterday's Journal, but the store house adhered pretty closely to their previous alignment.

The game began with a burst of speed which fairly dazzled the spectators and at no time was there a dull moment of play during the hour and twenty minutes the game lasted. There was an ardent supporter somewhere in the crowd for every player and when they came to bat or made a good play each received the encouragement which his act merited.

The machinists had placed James Gilmore in the twirler's position, instead of Edgar Boggs, who held down third sack until about the middle of the game, when they exchanged positions and Boggs took the box. Both did well, as did also Jack Davis, who pitched the entire game for the Store House team.

There was a peculiarity about the ball which seemed to say, "Hit me," and another in that it spoke in unmistakable language to many of the players, saying, "Do not catch me." And they didn't. There were in the neighborhood of 164 errors, but in spite of it all the score was held

down remarkably low. We would not attempt to sort them out and put the person's names to each one for a mistake in so doing would be perilous.

Wm. Sprecher of the store house team was first to make a run, he crossing home plate on a four bagger by Jack Davis, who thus brot in two scores for the Store House in the second inning. The only thing that kept this dandy hit from being a six bagger was the lack of more bases to be made for the ball lay "lost" in left field while Davis was circling the diamond.

These two runs were quickly matched by the Machinists in the last half of the same inning, when Joseph Bulin and James Gilmore each crossed the plate. In the fourth Earnest Neuman made another for the Store House and in the sixth Bulin scored for the Machinists, so the score was again tied 3 and 3.

In the seventh inning the Store House aggregation got spectacular putting safely across four of their star players. It started with a hit by Davis and a bunt by Sprecher, both being safe on bases. Jirousek made a hit that got him safely to first and brought in both Davis and Sprecher. H. Newman was struck out by Boggs. Carl Dalton got a safe hit and Antone Wooster was given a walk on balls. Earnest Newman made a hit, Wooster reaching third and himself second, while two more scores were tallied, making four for this inning and only one man down, while second and third bases were still occupied. Will Sprecher went out on a foul and John Wickman was fanned, bringing the disastrous first half of the seventh to a close, but not until after nine men had batted and four runs had been annexed to the score board. After that neither side was able to score, although they got dangerously close once or twice.

Eighteen hits were made, seven off Gilmore; five off Davis and five off Boggs. Those to get hits were Davis, two (including a home run); Dalton, three; E. Neuman, two; Bulin, two; Boggs, one (2-bagger); H. Neuman, Wooster, Wickman, M. C. Franks, Barthold, Jirousek, Lawrence Sprecher and Will Sprecher each got one. Boggs walked Wooster, while Davis walked Bulin once and Gilmore twice. Davis struck out eleven men; Boggs nine and Gilmore seven.
