

# TELEGRAPHERS WALK-OUT IS CALLED OFF

### UNION HEAD DECLARES STRIKE UNPRODUCTIVE OF RESULTS AS WERE DESIRED.

## NEW LAWS AGAINST SUGGEST

### Postmaster General's Autocratic Behavior Scored by S. J. Koenekamp in Statement to Union Members

Chicago, July 2.—The strike of telegraphers which began June 11 was called off at noon today by S. J. Koenekamp, president of the Commercial Telegraphers' Union of America. President Koenekamp, who returned from Washington this morning, called off the strike after he had conferred with other officials of the union.

A statement addressed to the members of the organization by President Koenekamp read in part: "When the present strike was declared against the telegraph companies under control of the wire administration, it was understood that it would not be made an endurance contest. The strike was to be the final protest against the unfair and unjust treatment we have received since August, 1918, at the hands of the wire administration.

**Worked to Compel Action.**  
"We realized that in order to make this protest effective it would be necessary to make the strike sufficiently acute to compel action. This does not seem possible now either through our efforts or the efforts of others we relied upon to help us. This is the view taken by many who are vitally interested in the success of the strike and they agree with me that to submit the proposition to a vote of the membership would result in serious delay and disorganization. Acting upon this conclusion and with a view to serving your best interests, I hereby declare the strike at an end and you are instructed to work without further delay. You have made a brilliant struggle for your rights as American workmen and women.

"You have sought a minimum of the things which the present government administration says all workers should enjoy. You have not only been denied these rights but governmental agencies have been used to prevent you getting them by exercising your own economic strength.

**Send Messages in Bags.**  
"We find that sending telegrams from city to city in suit cases is now permissible although Western Union officials were arrested for doing so a year ago. We find that telegrams are being mailed without restriction. The telegraph officials say the government is footing the strike losses, thereby adding this factor to our opposing forces.

"We are doubly unfortunate in having to deal with a governmental representative in the person of Mr. Bursleson, who will yield no concession to the workers unless it is forced from him and is not being able to muster enough strength within our own ranks to compel him to give us a square deal. Despite all of his high-sounding words, the fact remains that Bursleson has fought us and aided the telegraph companies at every turn and his party must take the blame.

**Future Not Hopeless.**  
"The future, however, is not without hope. The principles for which we contend are going to prevail in the end. They must prevail because they are right. The union will continue its fight for the elemental rights of industrial freedom. We urge you as a loyal member to continue to do your part.

"The C. T. U. A. will not surrender. Some reorganization of the union may be necessary, but our banner flung to the breeze in 1902 will never be furled."

It was announced that a meeting of the executive committee of the organization would be called in a few days to consider plans of reorganization.

### MAKING THE DANGEROUS PLACE SAFE

From Thursday's Daily.  
The county officials have blown out of the range of vision near the United Brethren church south of this city, two giant cottonwoods, which have kept people from seeing around the corner. The corner of the farm on the west and north side of the road has been purchased, and the corner which has always been considered dangerous, on account of

the square turn, and also by reason of the growth of trees there, will be made safe, as the trees which have broken the range of vision have been removed and the corner changed from the square to conform to a curve, and thus avoiding the danger of collision which has been there before. This seems a very sensible idea, and should in the long run be a very profitable investment.

### HINDENBURG QUITE WILLING TO BE SHOT BY ALLIES, HE SAYS

Berlin, July 2.—Field Marshal von Hindenburg, who resigned as chief of the general staff June 25, is reported to have told students from Goettingen who called on him that "if our foes want to stand an old man like me, who has but done his duty, up against a wall they may have me. They would only load another disgrace upon themselves."

## WRITES INTERESTINGLY FROM FRANCE

### Ben Windham Writes His Father Of Trip Through France And Of What He Seen.

From Thursday's Daily.  
Yesterday Hon. R. B. Windham received a letter from his son Ben Windham who is in the navy, but who has been given a furlough, to visit the interesting places in France, and an extract from the letter reads as follows: "Received a letter from Ben dated at Rheims, France, enclosed pictures of the great cathedral, as it was before the bombardment and as it looks now. This cathedral is said to have been the most beautiful structure of its kind in the world, but now almost a total ruin.

Rheims formerly had a population of 125,000, but today the Knights of Columbus secretary tells me it has only about 10,000. The city is full of statues, monuments and buildings of great beauty, and many very old. With hardly an exception they are damaged beyond replacement. I will visit Soissons next and then Chateau Thierry. While in Paris I was in Eiffel tower, and rode on the Ferris wheel. I was through the city in general, seeing all the famous boulevards and buildings. The two most interesting things in Paris possibly is the tomb of Napoleon and the chapel that contains it, and the famous painting of the war. This picture is in a gallery, evidently built especially for it. It is over 400 feet in length and has a history of the entire war, including the postures of leading people of all nations engaged in the conflict. They have portraits of President Wilson and his cabinet; also of Taft and Roosevelt. Roosevelt looks so natural you would expect to hear him speak. They have cannons pointed on the base, looking so real that many have asked if they were real guns, that had been captured from the Germans.

### YOU MAY CELEBRATE FRIDAY.

From Thursday's Daily.  
There will be no paper issued from this office tomorrow, the Fourth of July, in order that the Journal force of workmen may join in the proper observance of the national holiday. This is in accordance with a time-honored custom of the office. We are hoping that all the readers of the Journal may enjoy the day to the fullest extent, and ever be blessed with the freedom of the best government on earth. Do your best to enjoy yourselves and we'll do likewise, but will be back to greet you with the usual issue of the paper Saturday afternoon.

### HOME AGAIN; FEELING FINE

Frank E. Schlater, accompanied by Mrs. Schlater returned last evening from Excelsior Springs, Mo., where he has been for the past two weeks, resting and recuperating. Mr. Schlater has been away six weeks in all, having spent a month in the sanitarium at Kansas City receiving treatment. He returns feeling fine as a fiddle, and Mrs. Schlater, who was with him the last three weeks, returns feeling greatly benefited as a result of her sojourn at the Springs.

The many friends of Mr. Schlater will be pleased to learn of his improvement and to again see him in his usual walks of life.

Don't forget us when you want meat or groceries for harvest. We can take care of you. Just call phone No. 4 and we will have your order up. HATT & SON.

John Olson of Pacific Junction was a visitor in this city for a short time this afternoon where he is looking after some business matters for a few hours.

## BLIMP SOARING 2,000 FEET UP ON WAY TO U. S.

### Giant British Dirigible Enjoying Brilliant Sunshine Above Clouds on Historic Overseas Trip.

London, July 2.—The air ministry has received a report from Commander Scott that at 10:15 Greenwich mean time (4:15 p. m. New York time), the dirigible R-34 was flying westward at 30 knots, 2,000 feet above the sea.

At this height the R-34 was above the clouds and enjoying brilliant sunshine. Commander Scott expects to arrive Friday morning.

**Expected Friday Afternoon.**  
Mineola, July 2.—Lt. Col. Frederick W. Lucas, in charge of the British admiralty arrangements for the reception of the dirigible R-34 after its flight across the Atlantic, announced that unless unusually heavy winds or storms were encountered, the dirigible would arrive over Roosevelt field early Friday afternoon.

No attempt will be made to land, he said, until evening, because too much hydrogen gas would be wasted in making a landing during the hot hours of the day. There is a bare possibility, however, that with favorable winds the giant craft will arrive Friday morning and land immediately.

Everything is in readiness for the dirigible's reception. Two hundred mechanics, trained in the handling of lighter-than-air craft, and seven provisional army balloon companies of three officers and 100 enlisted men each, have been brought here and placed at the disposal of the British officers, who will direct the landing and mooring of the R-34.

**Smoking Barred On Field.**  
Every precaution has been taken to guard against accidents to the dirigible while she is here. No smoking will be allowed in the field and all men engaged in handling the craft will be searched and deprived of matches to prevent accidents by fire.

No airplanes will be allowed to fly over Roosevelt field while the dirigible is there and at all nearby fields but flights of absolute necessity will be permitted. Officers in charge of the special navy wireless selected on Roosevelt field to keep in touch with the dirigible as she nears the coast and to make arrangements for her landing, expect to get in direct wireless communication with the craft Thursday night.

To aid the crew of the R-34 in case they are forced to land at night or in a fog an observation balloon will be sent up over the field to serve as a marker. The pilot will be supplied with rockets and red flares.

## DUTCH WILL BE GLAD TO GET RID OF THEIR GUEST

### ALLIES SAID TO HAVE RECEIVED ASSURANCES HOLLAND WILL GIVE HIM UP.

### Bill Hohenzollern No Longer Wanted Anywhere—May Be Defended by German Counsel

London, July 5.—The allies, according to the Daily Mail, have received assurances that the Dutch government in the last resort will not refuse to surrender the former German emperor for trial.

The newspaper says that the necessary formal objections will doubtless be raised to maintain the rights of Dutch sovereignty, but as the demand for his person can be made in the name of the league of nations, national rights will not be infringed and there is no doubt the Dutch government will be quite ready to get rid of the unwelcome guest.

It is not considered likely, the Mail continues, that the matter will come before the Dutch courts, despite certain statements at the Hague.

The chief count in the former kaiser's indictment, the Mail understands, will be his action in causing violation of Belgium and Luxembourg.

The proceeding will be conducted in English, but a translation will be made into several languages simultaneously.

John Andrew Hamilton, Lord Sumner, will preside over the five judges representing the United States, Great Britain, France, Italy and Japan at the trial of the former

German emperor, according to the Evening News.

Sir Gordon Hewart, solicitor general of Great Britain, will lead for the prosecution. William Hohenzollern, it is said, will be defended by German counsel, assisted by numerous British lawyers, if he wishes them.

## PRODUCE HOUSE IS OPENED IN PLATTSMOUTH

From Saturday's Daily.  
Samuel N. Rips has opened a produce house in Plattsburgh, with headquarters on Sixth street, in the old Dawson stand. Mr. Rips expects to pay the highest price in cash for all produce, such as chickens, eggs and butter. He will be pleased to quote you prices at all times and will be found at the above stand to accept your produce every day in the week.

## EUROPE AND RETURN IN TWELVE HOURS

### Jules Verne-like Vision of Commander Read, Who Piloted NC-4 Across Atlantic.

New York, July 2.—Regular transatlantic aerial travel would become a reality within three years, if interest in aviation evident in time of war were continued in time of peace, declared Lieutenant Commander Albert C. Read, "skipper" of the NC-4 at a dinner given by the American Flying club for the airman who won for the American navy the honor of being first to fly across the Atlantic.

"Anyone who says that we will never attain an altitude of 60,000 feet; that we will never be able to cross to Europe in the forenoon and return in the afternoon; that we will never be able to accomplish the things that appear impossible now, is a most courageous person, with a courage similar to those in the olden days who said that iron ships would never work," asserted Commander Read.

Commander Read predicted that in the future, long-distance planes would be much larger than the NC-4s, which have a wing spread of 126 feet, and that gearing down the propeller to obtain a greater efficiency in continuous drive of gasoline motors would solve much of the present engine troubles on long flights.

"The design of larger airplanes in the future will undoubtedly incorporate the features of a gearing down from the motor to the propeller and also the connecting up of several motors to drive one large propeller," he said.

## TAMMANY HOLDS ITS FIRST "DRY OPEN HOUSE"

New York, July 4.—The out-of-town exodus that began yesterday and last night continued today and, according to railroad men, was greater than any year since 1913. Extra coaches were added to regular trains and several of the trains ran in two sections.

Patriotic organizations joined with the mayor's celebration committee and neighborhood associations in staging pageants, athletic contests and festivals in 100 parks and playgrounds.

Tammany Hall held its first "dry open house," with Senator Harrison of Mississippi and Senator Ashurst of Arizona as the orators of the day.

## QUAKED ITALIAN CITY RESEMBLES A WAR-SWEPT TOWN

### CATHEDRAL LIES IN RUINS AND HUNDREDS OF HOMES AND SHOPS SHAKEN DOWN

### People Resort to Living in Tents—If They Can Get the Tents—Military Rule Reigns.

Borgo, San Lorenzo, July 2.—This city, wrecked by earthquake Sunday, resembles a town in devastated districts of France after an artillery bombardment. The cathedral is in ruins. Hundreds of homes and shops have been shaken down. Some of these, still habitable after the major shocks, fell down during later earth tremors.

Many people are living in tents. Military authorities have been unable to induce the bakers and the shopkeepers to return to their places of business because of the unsafe condition of the buildings. In the bake shops many of the ovens were cracked by the earthquake. Hardly a house was undamaged. There appears to be little acute suffering, but there is a great demand for

# Work Clothes for Those Who Work!

Here are some of the clothes you need for every day wear. This is not a sale, but a reminder—a reminder that you may save on your purchases.

|  |  |

| <p><b>Stock Up On Work Shirts!</b><br/>We sell the famous<br/><b>Kenwood, Red Diamond, Ferguson-McKinney</b><br/>work shirts in blue, gray and black. You must have an honest shirt for hard work, and if these not honest "they aint none."</p> | <p><b>Garhart Overalls</b><br/>in waist or bib, in heavy blue denim. This is the overall that is guaranteed by the makers to go over—a new pair for you if they fail to make good—<br/><b>\$2.50</b><br/>Good value in a lightweight union made overall at \$2.00.</p> |

Wholesale prices on Work Shirts and Overalls have started back up the ladder, and they are going to continue in the same direction. A raise in the retail prices of these goods is certain, in the near future, so you're doing yourself a bit if you don't buy at present prices.

clothing and food which are in charge of the military authorities. The local administration and business are disorganized and the inhabitants are giving free rein to the military authorities, who are distributing relief.

The first supply truck reached here Monday morning in charge of an American Y. M. C. A. staff under Harry Hobert of Tucson, Ariz. He told the Associated Press correspondent that when he arrived he was literally mobbed by the hungry people. He said the scramble for food was such that members of the Y. M. C. A. force mounted a wall and tossed the food to the people because they could not hold them back on the ground.

## THREE INJURED WHEN PLANE AT MANAWA DIVES

### COMMERCIAL MACHINE AT THE AMUSEMENT PARK NOSE DIVES INTO WATER.

Two Passengers and Pilot Injured Slightly—Rescued by Passing Motor Boat.

Pilot Clyde Wilcox and the two passengers aboard the hydroplane being operated commercially at Lake Manawa, were injured slightly yesterday when the machine tipped its nose while about 200 feet in the air and nose-dived into the lake, at a distance of about 20 feet from shore. The water was about 6 feet deep. A passing motor boat rescued the pilot and passengers, who had climbed on a wing of the machine that was sticking out of the water. One wing of the machine was broken in the fall.

The pilot suffered a broken nose and slight cuts about the head and arms. J. Howard Burch, one of the passengers, suffered a sprained leg, and Miss Bessie McGee, the other passenger, suffered cuts about the head. Both of the passengers were from Morehead, Iowa.

The motor of the plane stopped while the machine was banking, which is believed to have caused the dive. The plane will be repaired and continue to make flights it is announced.

## PLANE CRASHES INTO CROWD, KILLING WIFE OF JURIST AND A GIRL

Minot, N. D., July 4.—Mrs. C. J. Fisk, wife of the former chief justice of the North Dakota supreme court, was killed instantly and Ruth Stahl of Minot, aged 14, received fatal injuries Friday when an airplane driven by Lt. Christler Jacobson, crashed into a crowd.

A farmer named Denker, of Drake, received a fractured skull and may die. Lieutenant Jacobson, who was

## AMERICAN SUFFRAGE HEAD DEAD

### DR. ANNA HOWARD SHAW SUCUMBS IN PENNSYLVANIA HOME, AGED 71 YEARS.

### A NOTED WOMAN OF COUNTRY

With \$18 Capital, Entered College, Later Going to Theological Seminary; Preacher and Lecturer, Then Doctor.

Philadelphia, July 2.—Dr. Anna Howard Shaw, honorary president of the National American Woman's Suffrage association, died at her home in Moylan, Pa., near here, at 7 o'clock Wednesday evening. She was 71 years old.

She was taken ill in Springfield, Ill., several weeks ago while on a lecture tour with former President Taft and President Lowell of Harvard University in the interests of the league of nations. Pneumonia developed and for two weeks she was confined to her room in a Springfield hospital. She returned to her home about the middle of June and apparently had entirely recovered. She was taken suddenly ill again Tuesday with a recurrence of the disease and grew rapidly worse until the end.

No arrangements for the funeral have yet been made.

### Leader in Many Lines.

Dr. Anna Howard Shaw was a leader in many lines of endeavor, but it is for her work in behalf of woman suffrage that she will be best remembered. For some years she had been honorary president of the National American Woman Suffrage association. From 1904 to 1915 she was active president of the same organization, and as such won a national and international reputation by her eloquence, power as a polemicist and disputant, and organizer of victory. Her formal advocacy of the case dated as far back as 1885, when she was chosen lecturer of the Massachusetts Suffrage association.

Born in England.  
Dr. Shaw was born at Newcastle-on-Tyne, England, February 14, 1847, and came of Scotch highland ancestry. Her father was forced into bankruptcy by the English corn laws, and when the future suffrage leader was an infant of 4 years the family decided to try their fortunes anew in America. Their first year in the United States was spent in New Bedford, Mass., from which place they removed to Lawrence, Mass., and there stayed seven years. In 1859 the family removed to northern Michigan, where Dr. Shaw spent her girlhood living the life of the pioneer. At an early age she evinced a keen and unusual interest in various public movements.

Rev. H. G. McCluskey departed on the morning Burlington train for Omaha, where he was called to look after some business matters for the day.
