

## Hogs Will Continue To "Bring Home The Bacon"

THE profit in hog-raising isn't going to end with the war. It's going to take a long time for the meat supply to catch up with the demand.

The business farmer will take advantage of this condition. He will equip himself to raise hogs—and raise hogs with the most profit. That means a good breed of hogs and a scientifically built hog house.

A good hog house must be weatherproof—warm in winter and cool in summer—with plenty of sun on the floor at farrowing time. With such a house you can get two litters a year as easy as one, and bigger litters and healthier pigs.

And such a hog house will pay for itself in one year in the saving of feed alone. The feed goes into pork production—not merely to keep the hogs warm.

White Pine buildings are a permanent asset—they increase your security and add permanent value to your farm. White Pine used for any exposed surface does not warp or twist or rot, even after years of exposure. And it works more easily than other woods.

Practical working plans, specifications and complete bill of material for the above Hog House, or any other type of farm building, will be furnished on request, together with our estimate of the cost.

W. B. Wilson, Secretary of Labor, says, "SAVE YOUR MONEY BY BUILDING A HOME." We have been told that we were overly modest but excuse us for adding, AND BE SURE AND BUY YOUR MATERIALS OF THE CEDAR CREEK LUMBER CO. That goes so well together that you can almost sing it. Come in, and we'll let you try it on our piano.

### EAGLES ENJOY GOOD TIME.

From Monday's Daily: The social good time was had at the Eagles dance given at the Coates hall on last Saturday evening. Even though the weather was pretty warm there was a very good crowd in attendance and all seemed to be enjoying the usual good time. The Eagles have been giving an excellent series of dances for the past few months, and most of all them have been well patronized.

### UNDERWENT OPERATION AT OMAHA LAST EVENING

From Tuesday's Daily: Last evening Edward Creamer was suddenly taken with a severe attack of appendicitis, and was rushed to

Omaha via automobile, where it was decided by the attending physician that an operation would be necessary and that at once. This was done immediately and the young man was reported during the night as getting along as well as could be expected under the circumstances. This morning his parents, Mr. and Mrs. C. I. Creamer and sister, Miss Rose Mae Creamer, departed for Omaha to see the young man and do what they could for him. It is hoped he may progress nicely and soon be able to return to his work entirely recovered.

Harsh physics react, weaken the bowels, will lead to chronic constipation. Doan's Regulets operate easily. 30c a box at all stores.

## DRY BILL IS MADE A LAW BY HOUSE

MEASURE FOR ENFORCEMENT OF PROHIBITION ADOPTED SECTION BY SECTION.

### LIQUOR IN HOME IS ALLOWED

Strike Out Amendment That Would Have Put Under Bond Person Convicted of Violating Regulations.

Washington, July 21.—The prohibition enforcement bill, drastic provisions and all, was adopted Monday section by section by the house, but a man's right to store liquor in his home stood up against all attacks. On the final count, only three votes were recorded in favor of an amendment to make some possession of intoxicants unlawful.

After all perfecting amendments had been adopted and others designed to make the bill less severe were bowled over in a chorus of "noes" an attempt was made to adjourn over night. This prevailed, but there was a demand for a roll call and the prohibition force, summoned from all sides by their leaders, piled into the chamber in sufficient numbers to keep the house in session for the tedious roll call vote on half a dozen amendments in dispute which had to be passed on before vote was taken on the bill as a whole.

Demand for a formal reading of the engrossed bill which was not in shape for that purpose, forced adjournment of the house Monday night and delayed its passage until Tuesday.

#### First Fight of Day.

The first fight of the day was over the section giving courts the right to put under bond a person convicted of violating the liquor law. This was stricken out after Representative Gard, democrat, Ohio, had pointed out that it provided double punishment for the poor man, who might be sent to jail. The vote was 83 to 66, many prohibitionists opposing its retention.

When the house reached section 35 of the bill dealing with enforcement of constitutional prohibition and which contained the provision that it was not unlawful to store liquor at home for personal use, the scene was not unlike that on a stock market on a high sales day.

Everybody wanted to speak or offer an amendment, fully a score clamoring for recognition at once.

First consideration was given Chairman Volstead of the judiciary committee in charge of the bill, who had two amendments. These fixed the time for reporting possession of intoxicants. In one Mr. Volstead offered, and the house accepted, the time specified in the proclamation by the state department as to the effective date of constitutional prohibition January 15, 1920, was accepted without discussion.

### OPERATED UPON FOR AP-PENDICITIS LAST SUNDAY

From Tuesday's Daily: This morning Mrs. Ida Keown, of Pleasantville, Iowa, arrived at this place years ago, but have been making their home in the west for a long time now. The altitude at McCook is considerably higher and the air is drier, which fact was responsible for their early departure, as they had planned on remaining in Plattsmouth during carnival week, but were unable to do so on account of Mrs. Budig's condition of health.

### WARREN SURE SOME FARMER.

From Tuesday's Daily: Warren Wassell, the monument man, is some farmer, besides being able to do a fine job of work at his trade. We chanced past his place last evening and found that his cabbage patch had all been marketed, he having had some good ones. But tomatoes, you tell 'em, he had some that would fill a quart cup. A total of thirty-nine vines, all tied up on a stake and with tin cans sunk in the ground at the root of the plants in which to give the vines a drink. About as fine a scheme as we ever saw and it works too, for all one has to do for proof is to look at the elegant crop of tomatoes, which is ripening rapidly. Mr. Wassell also has a flock of Ancona chickens that lay at the age of five months.

### RETURN TO THEIR HOME TODAY

From Monday's Daily: Mr. and Mrs. Gust Budig, who have been visiting in this city for some time past, guests at the home of their daughter, Mrs. Earl M.

## No Camouflage in This Price

We have reduced the Titan 10-20 price \$225. You can now get the world's standard 3-plow tractor for \$1,000.

**Titan 10-20 \$1,000**  
Cash F.O.B. Factory \$1,050 on Time

When you buy a TITAN the original price includes:

### Friction Clutch Pulley

A large, wide friction clutch pulley, made in five sizes, equipped with safety shield, is mounted directly on the crank-shaft of the low-speed, steady Titan engine and delivers the full power to the driven machine. The Titan 10-20 can be quickly backed into the belt because of the location of the pulley and the belt clears the front wheels and other parts of the tractor by a generous margin. It is not necessary to dig holes for the front wheels to get belt clearance. The Titan pulley was not put on as an afterthought. The designers did not overlook it in the first place. Some tractor builders committed this very serious error, due to lack of farm knowledge and experience. To remedy this error, they designed a small make-shift pulley, in one size only, attached to it in an awkward place, and charge you \$35 to \$40 for it. The Titan 10-20 friction clutch pulley is furnished without extra charge.

### Throttle Governor

Some tractors are sold without governors because, perhaps, the designers did not know that one was needed. Which is the best economy—to pay an operator a salary just to sit on the tractor and adjust the fuel to the load variations when engaged in belt work or let a throttle governor do it without extra cost?—do it automatically, perfectly. The Titan throttle governor saves fuel, prevents grain losses by delivering uniform power to your thrasher and lengthens the life of both tractor and driven machines. You get this governor without extra charge.

### Drawbar

Some tractor builders put a head and eye affair on the tail end of their tractors—and call it a drawbar! They seem to have overlooked the fact that a farm tractor not only pulls plows but also mowers, hay loaders, grain binders, harrow-threshers, etc., each requiring different hitch adjustments. Perhaps they didn't know about these other machines. Look at the Titan drawbar. Note the provisions for a wide range of adjustment both up and down and sidewise. The Titan drawbar fits every need and is furnished without extra cost.

### Fenders

The designers of some tractors evidently did not know that the drive wheels throw dirt, dust or mud over the operator and machine unless fenders prevent it. The Titan 10-20 has such fenders. They are also a "safety first" feature. The state of Michigan has passed a law prohibiting the sale of fenderless tractors. Titan fenders are furnished without the \$40 to \$50 extra charge made by the "low-price" manufacturers.

### Platform

Some tractor designers apparently never set in a tractor seat ten hours a day or more, jolting over rough fields, so they can't appreciate what a relief it is for the tractor operator to rest himself now and then by standing up, without loss of time. You will appreciate the Titan 10-20 platform that enables you to do this. It is a comfort feature furnished regularly with every Titan 10-20 tractor—no extra cost.

### Tools

A complete set of sixteen tools is furnished with every Titan 10-20. This handy tool-kit is provided in spite of the fact that Titan 10-20 tractors get out of order less frequently than any other tractors in the world. Some tractor concerns whose tractors really need frequent adjustment and repairs, furnish nothing but two or three wrenches. They tell you that their product is so good that it doesn't need adjustment. Do you believe this? As a matter of fact, they omit necessary tools for the same reason they omit the essential features described above—to make a low "camouflage" price! The Titan 10-20 complete tool kit is furnished without extra charge.

THERE is no "joker" in this price. We are not telling you one story in this advertisement and then leaving it for our dealers to break the sad news that the advertised price won't buy a tractor unless you pay extra for a lot of necessary features. The Titan dealer won't charge you extra for "starting and service" before he can deliver the tractor. He won't show you a machine stripped of many essential parts—belt pulley, fenders, platform, governor, drawbar, tools—and then tell you that you can have these things by paying extra for them. The Titan at this advertised price is a complete 3-plow kerosene tractor.

Then there is another thing. We are not experimenting at your expense when we sell you a Titan 10-20. There is real farm machine and tractor manufacturing experience back of it. We have been in the farm machine business for 88 years and have been supplying tractors for 14 years. Not another company in the world knows the farmer's power and machine requirements as the Harvester organization does.

Would you entrust your bank account to a man who had never had any experience in handling money? Will you risk your farm profits in a tractor built by designers whose knowledge of farming is limited to books and a drawing board? It will pay you to think about these things when you buy your tractor.

### Starting and Instruction Service

Another "joke" of some tractor concerns is to charge you a large "starting and service" fee—extra. This is another way of getting a low price for advertising purposes. But you can't get the tractor without paying this charge. They make it compulsory. The International dealer gives you this service without asking you to pay extra for it when you buy a Titan 10-20. Free tractor schools inaugurated by us, also benefit Titan purchasers in all parts of the country.

considering the natural advantage of a two weeks' advanced season and believe those who buy here will make handsome sums from their investment.

While in Canton, Mr. Swatek met Herman Richter, who formerly lived here, and said that he is prospering there and inquired about the large number of friends he has in this city.

The entire distance of 207 miles to Canton, was made over the King of Trails.

### BACK FROM A VISIT IN SOUTH DAKOTA

W. A. Swatek and Family Make the Trip to Canton and Return via the Auto Route.

From Monday's Daily: A few days ago Will A. Swatek and family, who have been visiting in the north, returned home, coming via the auto route from Canton, S. Dak., and making the trips up and back in one day each.

While at Canton they visited at the home of Antone Jelinek, who is a brother of Mrs. Swatek, and they report having had a most excellent time.

Mr. Swatek says there is about two weeks' difference in the climate between here and there, but still the land is selling at about the same figure as it is here, going from \$250 to \$300 per acre, and raising good crops.

South Dakota owners think the land is selling too cheap here, con-

sidering the natural advantage of a two weeks' advanced season and believe those who buy here will make handsome sums from their investment.

While in Canton, Mr. Swatek met Herman Richter, who formerly lived here, and said that he is prospering there and inquired about the large number of friends he has in this city.

The entire distance of 207 miles to Canton, was made over the King of Trails.

### INJURES HAND PLAYING BALL

From Monday's Daily: Eddie Gradoville, the man who did the catching for the Red Sox yesterday and made some brilliant plays at that, is laid off from his work on account of injuring his hand while catching a hot foul in the game yesterday. He is giving the injured member a good treatment in the hopes of soon having the hand so he can go to work again.

Mr. Gradoville is one of the best players in this city, and with every game is getting better. We expect to see him take his place with some of the best teams in the not distant future.

### IS VISITING WITH FRIENDS HERE

From Tuesday's Daily: Frank York, who was until just recently a sergeant in the United States army, has been discharged and returned to civil life. Mr. York, who is a telegraph operator, enlisted in the engineers corps in Chicago and was in overseas service for many months. Now that he has been dis-

charged he will continue to make his home in Chicago. About two weeks before his departure for overseas, he was united in marriage with a Chicago girl, and on his return he visited in Chicago for several days, being accompanied by his wife to this place for a visit with his folks, before he returns to take up his former position in Chicago.

In coming to Plattsmouth with her husband for a visit, Mrs. York, the war bride, left the windy city for the first time in her life, she having been born and raised there.
