

OMAHA MAY GET U. S. DIRIGIBLE STATION

UNOFFICIAL REPORTS SAY WAR DEPARTMENT TO SPEND LARGE SUM THERE

PICK SITE NEAR FORT OMAHA

Have Developed New Helium Gas that is Non-Inflamable—Believe Game in Infancy.

From Thursday's Daily. According to unofficial reports of authentic inception, the War department is contemplating a \$3,000,000 expenditure at Fort Omaha in the near future in the way of a mid-continent dirigible station and other improvements about the post.

High officials from the east have been in conference with the commanding officer, Lt. Col. Wuest and they have viewed a tract of land to the south of Fort street and extending to the river, a distance of some three miles.

Unofficial reports have been current for some time that the War department has been considering the co-ordination of all balloon activities of the army at Fort Omaha, and also the designation of the fort as a central station for dirigibles.

Government chemical experts have only recently developed a helium gas, which is non-inflamable and is to be used exclusively by the government in its dirigibles. The use of such a gas would do away with such accidents as that occurring at Chicago Monday when the bag of a large blimp exploded.

Col. C. D. Chandler, chief of the balloon and airship bureau, who was the most prominent official out from the east, is sanguine that transcontinental dirigible trips will be an everyday event before long.

Fort Omaha already has been announced as the great central training station for balloonists of the army, and its additional importance as a dirigible station is believed to be the logical sequence of events.

ENTERTAINS SISTER WORKER

From Thursday's Daily. Yesterday afternoon at her home Mrs. Harry Poissall entertained one of her sister workers in the Brotherhood of American Yeomen. She was Mrs. John Salvador, a member of Enterprise Homestead No. 1582 of St. Paul, Minn. Mrs. Salvador is at present visiting in Plattsmouth and a guest of the Wagner hotel. She expressed herself as having been very pleasantly entertained by Mrs. Poissall who is also a member of the Yeomen, belonging to the local Homestead.

HAD A VERY NICE TRIP.

From Thursday's Daily. Hans Seivers, the custodian of the court house has just returned from a fine outing which he had the pleasure to enjoy. Mr. Seivers has been gone for two weeks and was accompanied by his daughter Miss

Sophia Seivers. They left here for Fargo, N. Dak. and visited for a while with another daughter of Mr. Seivers, Mrs. William Hegland and whom many Plattsmouth people will remember. Mr. Seivers says that the country around Fargo is very beautiful and that the wheat is still green. He also says that there are big fields of potatoes such as we would have corn, being forty or fifty acres in extent.

From Fargo they went to Brainerd, Minn., where they enjoyed another pleasant stay. After being gone about two weeks he returned to find that the court house lawn had grown up in weeds. Mr. Seivers got right to work on it however and even now quite an improvement can be seen. In a few days with his able care it will look as good as ever. Mr. Seivers looks better however and as if his trip had been of much benefit to him.

WENT TO MEET HUSBAND.

From Thursday's Daily. Mrs. Ed. Spies had a smiling face as she boarded the train for Omaha this afternoon and the reason for the smile was worth while as she had received a telegram from her husband that he would meet her in Omaha this afternoon. Ed has been in France for a year now and about a week ago landed in New York. At that time Mrs. Spies received a wire from him telling her of his safe arrival. He was sent to Washington and from there was discharged and hurried home as fast as possible. He will be in this evening.

BACK FROM TRIP.

From Friday's Daily. This morning we were glad to see that Sheriff C. D. Quinton and family had returned from the outing which they have been enjoying for a little over two weeks.

Two weeks ago all of the family started out in their car pleasure bound. Turning their car westward they made for Colorado and the cooling breezes of the Rockies. They went as far west as Holyoke and had a fine trip every foot of the way. While gone they saw in one county also traveling overland the Philpot family and at another place the family of Judge Beeson. They report both families as having a fine trip and as looking as if they were enjoying themselves to the utmost. Sheriff Quinton looks as if the trip did him a world of good and we are sure that he will be on the job harder than ever for having had it.

LIBRARY BOARD REORGANIZED.

From Thursday's Daily. Last night at the library a called meeting was held at which the new library board was organized. The following officers were elected: Miss Verna Leonard, president; Miss Mia Gering, secretary; A. G. Cole, vice president.

The report from the librarian showed that the patronage had increased over last year. This too, in spite of the fact that the books in foreign languages were ordered to be taken from the shelves by a state law to that effect. This is very encouraging to the librarian and to the library board. It is to be hoped that the public library will continue to grow at the same rate.

UNITED STATES RAILROAD ADMINISTRATION

THE NATIONAL PARKS

With All Their Wonders Are Yours

YELLOWSTONE

The land of geysers, painted canyons, forests and waterfalls—you can tour grand old Yellowstone in automobiles, either via the Cody way or Gardiner or Yellowstone entrance. Through sleepers, hotel and camp accommodation as usual. You can go direct or via Scenic Colorado or Rocky Mountain National-Estes Park.

ROCKY MOUNTAIN-ESTES PARK

Colorado's beautiful vacation land just north of Denver, the summer playgrounds of fifty thousand tourists. You can reach Denver in the morning and be in the Park at noon.

GLACIER

Magnificent Glacier Park—the climax of the Rockies' rugged grandeur is open to tourists. Through sleepers to the Park entrance. Tickets either direct or via Denver. Scenic Colorado, with Rocky Mountain National-Estes and Yellowstone Parks en route—THREE PARKS ON ONE TICKET.

Ask your local ticket agent to help you plan your trip and furnish you with descriptive booklets of points in which you are interested.

CASS CO. FARM

A Column Devoted to Local Farming Interest

BUREAU NOTES

Seed Wheat.

Several farmers have said they wish to change to another strain of fall wheat as the seed they have has been grown 10 to 15 years.

The Kansas Experiment Station, wrote that they would soon send us the names of farmers in Kansas, where we could get a pure strain of Turkey Red wheat. If interested write or call this office.

Harvest Hands.

Still placing a few men. A total of 208 men placed, that we know of and many ordered to places from the Omaha office, which do not come through this office.

Exchange.

If you wish to buy or sell hogs, cattle, seed and do not find a ready market, notify this office. We will be glad to help you. L. R. SNIPES, County Agri. Agent

TRAVELING MAN GAINS 20 POUNDS

Crull Eats What He Wants And Sleeps Like a Log Since Taking Tanlac.

"My opinion of Tanlac is that it can't be beat," said F. H. Crull, a well known traveling salesman, living at 312 West 31st Street, Indianapolis, Ind., while discussing the medicine, recently. Mr. Crull has lived in Indianapolis for the past twenty years. He has represented

the Taggart Baking Company on the road for twelve years and is one of the most popular "Knights of the Grip" traveling Indiana.

"I can testify to both the immediate and lasting results that come from its use," continued Mr. Crull. "A little over a year ago I got rid of a bad case of stomach trouble, from which I had been suffering for two years, by taking Tanlac, and do you know I haven't suffered a particle from indigestion to this good day. I had been having a world of trouble with my stomach and awful pains in my right side and was finally operated on for appendicitis. After the operation I still suffered with indigestion. I had no appetite and what little I did eat would sour, causing gas, bloating and intense pain. It looked like I would never get my strength back and I was as nervous as a cat. Many a night while out on the road I could not close my eyes for sleep. This condition kept up until I went down to one hundred and thirty pounds in weight and was almost a complete nervous wreck.

"About this time I read a statement about Tanlac that described my case so well that I decided to try a bottle of the medicine. Well, the first bottle helped me so much that I got another and it wasn't but a few weeks until I was free from all signs of stomach trouble and found that I had actually gained twenty pounds in weight, besides, going up from one hundred and thirty to one hundred and fifty pounds. I could go out and do a hard day's work and sleep like a log at night, and it made no difference whether I was at a hotel on a Pullman or home I could sleep soundly just the same. The medicine gave me wonderful strength and energy and such a big appetite that I could hardly get

enough to eat. Well, to make it short, Tanlac fixed me up in fine shape and I haven't had the least bit of trouble with my stomach since I finished my first bottle, more than a year ago. I just got another bottle of Tanlac the other day and my wife and I are both taking it. We had the 'flu' this past winter and neither of us had gotten over the effects of it. But Tanlac is going to set us right, for I already see a great improvement, especially in our appetites. I am only too glad to recommend Tanlac for it is one medicine that can be depended upon for results."

Tanlac is sold in Plattsmouth by F. G. Fricke & Co., in Alvo by Alvo Drug Co., in Avoca by O. E. Copes, in South Bend by E. Sturzenegger, in Greenwood by E. F. Smith, in Weeping Water by Meier Drug Co., in Elmwood by L. A. Tyson, in Murdock by H. V. McDonald, in Louisville by Blake's Pharmacy, in Eagle by F. W. Bloomenkamp, and in Union by E. W. Keedy.

HAVING TROUBLE WITH TEETH

From Friday's Daily. Earl Travis has been having to make a good many trips to Omaha lately as he has been bothered a great deal by his wisdom teeth. They have never come through properly and for some time has suffered with pains that run down the cords of his neck. It was discovered upon examination that the wisdom teeth were in bad condition and probably was the cause of the trouble. They will have to be cut out from the gums and this will be quite a delicate operation.

CAME IN YESTERDAY.

From Thursday's Daily. Yesterday after two years absence during which time he was serving

Uncle Sam at the front, Perry Neal returned once more with his discharge papers. Perry was one of the boys who managed to cross over the pond and saw life as it is during time of war at the seat of action. Perry Neal is the son of Mrs. Dave Neal of this city. Mrs. Neal has sent three boys to serve their country, giving their time and strength and had it been necessary their lives for the cause. Now all three of the boys are home again

with them there is a feeling of happiness that all are safe again. Here's a hearty welcome to you, Perry.

Don't forget us when you want meat or groceries for harvest. We can take care of you, just call phone No. 4 and we will have your order up. HATT & SON.

Wall Paper, Paints, Glass, Picture Framing. Frank Gobelman.

WHAT IS A FAIR RATE FOR TELEPHONE SERVICE?

Telephone rates are based on the cost of furnishing service. To furnish the required grade of service it is essential that our telephone plant should be well constructed, properly maintained, and efficiently operated.

Telephone rates have to be high enough (1) to get efficient employees and experts and pay them as good wages as would be paid elsewhere for equal skill; (2) to pay taxes; (3) to rebuild or replace parts of the property when worn out or when it becomes obsolete, and (4) to pay such a dividend to our present stockholders as will enable us to obtain the money necessary for making extensions and improvements required by the public.

The public would suffer by a low rate that did not meet these conditions. If we do not make enough money to hire efficient and sufficient help the public suffers from poor service; if we do not make enough to invite new capital to invest in our property the public suffers because needed extensions and improvements are not made.

We feel sure it is for the public's best interests that our rates are high enough to pay our employees fair wages, to give good service, and to pay a fair return on the money invested, so that our business may attract new money, which we need constantly for additional equipment to take care of present and prospective patrons.
