Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes.

rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite.

Chamberlain's Colic and Diarrhoea Remedy

This medicine always wins the good opinion if not the praise of those who use it. Try it when you have need of such a remedy.

All the news when it is news. That's what you'll find in the Journal. 15c per week delivered.

SUMMER AILMENTS.

How can you blame your stomach, when you do not feel comfortable in these summer months? You are eating too much, you are craving for the very foods which your stomach cannot digest, you do not walk sufficiently, because you like to ride in your automobile, etc.

But if you ask for advice, here it is: Attend to your bowels regularly and keep them open by the help of Triner's American Elixir of Bitter Wine.

This remedy acts promptly and without any disagreeable symptoms. It is very palatable and contains only ingredients which have proven to be the most reliable cleansers of the intestines.

You will get it at your druggist's. And if lumbago pays you a visit, send at once for Triner's Liniment, a preparation which brings the relief quickly and does not raise blisters.

At all drug stores. Joseph Triner Company, 1323-1343 S. Ashland Ave., Chicago, Ill.

AUTO TRUCKS.

Have "Factory Agency" for the All American one ton and the "Traffic" two ton, thereby saving you \$500.00 to \$1300.00 on trucks having the same units.

Advise if interested and I will demonstrate in your town. Fred E. Johnson, Neb. City.

ALFA-MAIZE MILL IS GOING UP

L. C. Sharp Expresses Appreciation of Interest Being Taken in Local Plant's Output.

From Tuesday's Daily.

The Journal is in receipt of the following communication from Mr. L. C. Sharp, head of the L. C. Sharp Manufacturing company, of Plattsouth:

July 28, 1919.

Editor Journal:

Dear Sir: We beg to advise you that we have observed the several complimentary notices which have appeared in the Journal respecting the class and character of work we are turning out in our manufacturing plant in this city.

Our employees and ourselves thank you for such encouragement. It may also be of interest to the public generally to be informed that this highly important work is made in our own city by our own people.

The hydraulic butter cutter which we shipped to the Fairmont Creamery company at Omaha, and as mentioned in your Saturday issue, was designed and built complete in our works at Plattsouth. The machine is capable of cutting 40,000 pounds of frozen butter per day and is the fastest machine in the world for the purpose and in fact the only machine of the kind in existence.

As these machines are indispensable in creameries, a large sale is promised for them, both in the U. S. A. and for export. As our people are aware that the Fairmont creameries are the largest of the kind in the world, it is with pardonable pride that we can call attention to the fact that Plattsouth can supply them with such essential machinery and of such perfect construction.

Many of our people are not aware of the fact that our plant in Plattsouth is employing some of the most expert mechanics in the west and that our installation of machinery is the finest procurable and that also the above hydraulic butter cutter is only one of the many highly valuable machines manufactured by this company and under patents controlled by them.

It also may be of interest to many that in our works we are now building ten hydraulic ice cream cone machines to be installed in Kansas City, Mo. These machines are the most perfect ever constructed for baking this delicate piece of pastry.

The above machines will give a capacity of 300,000 cones per day and are the only machines in the world that will bake or mold a perfect cone without any waste of material.

An order is now on our books for one of these machines for Manchester, England, and we have received numerous inquiries from other foreign countries.

It may also be of further interest for our people to know that we manufacture a full line of forage milling machinery, consisting of new machines, new processes and entirely new product, sold by animal food experts to be a revolutionary product of this class of manufacture.

This machinery will be installed in this city through our efforts. We believe that this new mill will not only be of importance in emphasizing the value of the new product but will likewise be of value to the farmers of the community as well as to the prestige of the city which the advertising of such products will bring, and further, as our machine plant manufactures the machinery for all sub-mills, it necessarily involves the employment of a large number of highly skilled mechanics for the manufacture thereof, all of which activities are important in the upbuilding of the substantial interests of the city.

Our manufactures are the result of thirty years' experience in developing new and improved labor saving machinery, many of such machines now being standard and in use the world over. Our plant is unique from the fact that we develop ourselves all the machinery which we manufacture, such machinery being perfected from nothing throughout all our various departments to the patent office in Washington.

Our success in this line is due to our experts in every department whose

knowledge covers everything that is known in the machinery art.

do not believe because a town is small its people must necessarily be likewise.

In conclusion, we beg also to state that we expect at an early date to be able to announce a satisfactory solution of the plan whereby capital will be forthcoming to complete the large manufacturing plant which we have had in mind at all times since removing to Plattsouth. Those who have invested heretofore on our credit in the community will be taken care of in a satisfactory manner.

Our proposition stands strictly on its merit and merit wins. We ask the continued co-operation of our friends until such time as our endeavor shall take on the shape its importance warrants.

Yours for greater Plattsouth. L. C. SHARP.

Summer Complaint in Children.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use.

When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover.

Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."
