visiting in Murray last Sunday, being guests at the home of Mr. and Mrs. E. S. Tull.

 Some of the young boys and girls who persist in scouting past the big doors at the lumber yard are flirting with death, for a team is liable to drive out at any time and run over them. The employees at the yard are constantly in dread, fearing least some accident will happen. Parents who are allowing their children unrestricted freedom of all outdoors during the summer months while there is no school, are permitting them to endanger their lives and it would seem good policy to pay a trifle more attention to their whereabouts.

The members of the class were all present as well as a large number of invited guests. Luck and Lack

Don't trust to luck. Luck is untrustworthy. Systematic, scientific striving for any goal is far more likely to bring you success than any mere faith in your success.

Just as changing a single letter changes "Luck" to "Lack," so will the reverses of a single day change plenty to want. But you can insure yourself against this by building your success on the habit of saving.

Save and Win

Be well dressed. Make friends. Increase your influence in your community. Enjoy the respect of all your associates.

These things do not come to those who trust to luck for them. Systematic saving will win them for you. Systematic saving will accumulate for you a small fortune that can safely and readily be expanded to a large one.
