MEETS WITH PAINFUL ACCIDENT

From Wednesday's Daily. Edward Fitzgerald is in the city enjoying a short visit here with his daughter Miss Opal Fitzgerald and looking after some business matters before returning to his ranch in the western portion of the state.

OFFICIALS OF LIGHTING COMPANY HERE

MEET WITH MEMBERS OF COMMERCIAL CLUB TO DISCUSS PROPOSED IMPROVEMENTS.

SAY RELIEF IS NEAR AT HAND

Machinery and Equipment for Plant In This City to Be Installed in Very Short Time Is Word.

From Wednesday's Daily.

Last evening Vice President J. B. Harvey of the Nebraska Gas and Electric company and Joseph Smith, one of the engineers of the company were here for a short time to meet with the members of the commercial club to discuss informally the differences that have arisen over the light question in this city during the past month.

Mr. Harvey, who was the spokesman of the lighting company, stated that the engine and generator to be used in the plant in this city had been ordered from the Choose factory at Mattoon, Illinois, and should be loaded and ready for shipment in a few days at least.

placed in the plant as soon as it is possible to have it delivered from the factory.

Mr. Harvey discussed at some length the situation in regard to the installing of a large supply station at some point on their lines in Nebraska for the supplying of current for the different transmission lines that they control. The Nebraska gas and power company have lines reaching west as far as Fullerton and southwest into Hamilton and York counties, north as far as Norfolk and south to this county, and Mr. Harvey stated that the exact location of the plant had not been determined at this time as the plans for the plant were still under discussion and action on them would not be taken for some time.

Mr. Harvey suggested that the city present to the company a number of the points of advantage of this city in the way of transportation facilities and other money saving facilities that would be of use to the directors of the corporation in making their choice of a location for their new plant when they decide upon it.

Established 1885, incorporated under the laws of the State of Nebraska, a member of the American Federation of accredited commercial schools and the first western school to prove that positions could be guaranteed and secured for graduates. 13 ADDITIONAL REGISTRANTS AT INSTITUTE

BRINGING THE TOTAL REGISTRATION TO DATE UP TO 108—MUCH INTEREST

WORK PROGRESSING NICELY

Under the Able Leadership of County Superintendent Miss Alpha C. Peterson.

From Wednesday's Daily.

Interest in the Cass county teachers' annual institute is gaining momentum daily. Yesterday thirteen additional teachers registered for the remaining four days of the course of instruction, bringing the total registration up to 108.

The program is so arranged as to allow the teachers considerable time for recreation, and they are enjoying it to the limit of their ability. But, intermingled with leisure time, there is plenty of work period, for in order to get the best results out of the limited time, it is necessary to keep busy pretty much all day long.

The instructors procured by Miss Peterson are among the best in the state and they are giving the teachers good and timely advice concerning the conduct of a school room, that cannot help but reflect in the quality of the work done throughout the schools of Cass county the coming year.

INSTITUTE NOTES

The teachers are all taking lots of interest in the work.

Good looking girls comprise the large part of Cass county's pedagogues. And say, have you noticed the day of men teachers has about passed—except in the higher grades.

Some sort of community entertainment should be planned for the visiting teachers during their leisure time.

The teachers are a hard-working, conscientious lot—and they should receive more pay than the most of them are getting.

Miss Hohl's presentation of primary reading is especially forceful, and the teachers are becoming most enthusiastic over her many practical suggestions.

Mrs. Wescott gave the teachers some good suggestions this morning as to what songs are good to teach children, and the sources from which they may be obtained.

Tomorrow at 11:20 Miss Mary Taylor, field representative of the government thrift movement will explain that work. At 2:30 Dr. Livingston will give a talk on health and sanitation as related to the schools.

Miss Marjorie Current, of Elmwood, gave the reading "Injo" adopted from the book of the same title. Miss Current's voice and manner of expression are very pleasing and her selection was one that made a strong emotional appeal.

At the 11:20 assembly today, Mrs. Mable Mayfield, of Louisville, gave a much appreciated vocal group composed of Carrie Jacobs Bond's "Cottage in God's Garden" and "Prayer Perfect," adapted from James Whitcomb Riley's poem.

Mr. Brown, in his last talk yesterday, made a special plea for the use of correct and pure English and the careful avoidance of slang and too-popular expressions, saying even though the slang of today becomes the classic of tomorrow it is the part of public school teachers to speak and write in the classic English of today.

Mr. Guy Davis, of the University Extension department presented the subject of Boys' and Girls' Club work. Mr. Davis is thoroughly interested and enthusiastic over this work and is bringing it to the teachers in a most appealing manner. He called attention to the demonstrations that are to be given at the state fair next week, and which will surely be of the greatest interest to parents as well as to boys and girls.

Feel languid, weak, run down? Headache? Stomach "off"? A good remedy is Burdock Blood Bitters. Ask your druggist. Price \$1.25.

FIRE AT MULLIS GREENHOUSE

From Wednesday's Daily.

The fire department was called out this morning shortly after 1:00 o'clock by the alarm of fire which had been turned in from the Mullis greenhouse on west Locust street, and on their arrival there found that the coal in storage there had burst into flames as the result of combustion. The coal was stored in the storage bins in the greenhouse and the first intimation of the fire was discovered by Mr. James Burrows who saw the reflection of the flames in the greenhouse and at once notified Mr. L. M. Mullis, owner of the house as well as turning in the alarm. The fire did not do much damage to the building and only a small amount of the coal was burned as the prompt work of the neighbors as well as the fire department checked the fire. The coal continued to smoulder until a late hour this morning but a careful watch was maintained to see that the fire did not have an opportunity of breaking out a second time.

ENTERTAINS FOR FRIENDS.

From Wednesday's Daily.

The friends and neighbors of Mr. and Mrs. A. E. Todd, residing west of this city gathered Monday evening at the Todd home to spend a few hours in a most delightful manner with the host and hostess, who are soon to leave for Ashland, where they expect to make their future home. The evening was spent very pleasantly in games and a general good time until a late hour when the guests departed wishing Mr. and Mrs. Todd much success and happiness in their new home and expressing their regret at losing them as friends and neighbors. Mr. and Mrs. Todd will make their home in the city of Ashland until spring when they expect to remove to a farm near that city.

A lazy liver leads to chronic dyspepsia and constipation—weakens the whole system. Doan's Regulators (50c per box) act mildly on the liver and bowels. At all drug stores.

CASE ON IN COUNTY COURT.

From Wednesday's Daily.

Last evening Chief of Police Manspeaker arrested John Stull, residing north of the city on the complaint of Alvin Jones, one of the employes at the Reo garage of Ed Mason, as the result of a dispute over a sum of money which had been paid over at the garage by Mr. Stull as payment for some repairs made on his car. It seems that the automobile of Mr. Stull has been at the Reo garage being repaired and overhauled and last evening he came to the garage to get the car and paid the amount due for the work \$66, putting the money down on a table in the garage. What follows is the cause of the dispute between the parties, as Mr. Jones claims that when he picked up the money after Mr. Stull had left, it was shy \$20 of the amount due, although there had been \$66 laid down by Mr. Stull. Mr. Stull on the other hand denies that he touched the money after it had been paid over for the repairs. The case is being heard this afternoon in county court before County Judge Allen J. Doeson.

TO ENTER AUTO RACE.

From Wednesday's Daily.

This morning A. E. Allen of the O. K. garage, departed for Hiawatha, Kansas, where he will enter a three days automobile race that will be held in that city the last of the week. Mr. Allen has constructed at the O. K. garage of McMaken's a special racing car, fitted especially for track work and with which he will take part in the race in the Kansas city. This car is one capable of great speed and has taken some time to build. Mr. Allen has had several years experience in automobile racing having worked as mechanic in a number of pits at the largest racing speedways in the country and his experience will be of great benefit to him in driving at the Hiawatha races. The car is equipped with a high power Chalmers engine and made especially to get all the speed possible.
