Mr. and Mrs. John Farris autoed down to Syracuse last Sunday to attend a family reunion of the family of Mrs. Farris. Her father just arrived from Virginia and a nephew from overseas duty. The occasion was a very pleasant one for all.

Gustave Kirchoff, from Kansas, was here last Saturday visiting with friends and relatives. He was also spending a few days at the Engelkeier home in Plattsmouth. He goes from here to Plainview for a few days visit with his brother before returning home.

Chester Shrader entertained a number of his young friends at the home of his grandparents, Mr. and Mrs. Long, last Saturday evening. The young folks had a most enjoyable time and at the usual hour Mrs. Long served them with excellent refreshments.

Dr. Gilmore, Mrs. Gilmore, sons Walker and John, and daughter Helen, who have been out in the western part of the state for the past two weeks, looking after their wheat crop returned home last Saturday. Walker will attend the state university this winter.

Mr. and Mrs. L. H. Puls and family are expected to arrive home the latter part of the present week. They have been at Pekin, Illinois, for the past few days, and will probably make a short stay in Ottumwa on the way home, in which city Mrs. Puls has a number of relatives.

Dr. J. F. Brendel, Mrs. Brendel and little Richard, Mrs. B. F. Brendel, and Mrs. L. D. Hiatt and little Alice Louise, departed in an auto Tuesday afternoon for Lincoln, where they will attend the state fair for a few days, and will visit with the parents of Mrs. J. F. Brendel while in the city.

Sylvester Venard, of Bakersfield, California, has been in Cass county for the past few days visiting with friends and relatives. He came to Murray Tuesday for a few days visit with his nephew, Roy Howard. Mr. Venard expects to remain in this part of the country up until cold weather, when he will make for his home in Sunny California. He will spend most of his visit with his daughter, Mrs. Albert Wetenkamp, near Mynard.

Little Sarah Elizabeth Wiley, who has been so seriously ill for the past few weeks, and receiving treatment at the St. Joseph hospital in Omaha, suffering from infantile paralysis, was able to return home Tuesday and is feeling greatly improved. The physicians pronounce her out of danger at the present time. Her aunt, Mrs. Ona Lawton, who was nursing her, and remained at the hospital during the entire time, returned home with her. This will be good news to the many friends of the little lady who were looking forward to this announcement.

There were quite a number from this vicinity who attended the meeting at the Young cemetery last Saturday, and some excellent work was accomplished in the way of cleaning up, but it will require another day to put the grounds in the proper condition.

Mr. and Mrs. John Young and family arrived in Murray last Sunday evening and will spend the week visiting at the homes of their parents, Mr. and Mrs. L. H. Young and Mr. Chas. Boedeker, also with other friends and relatives in and near Murray. They will also take in the state fair at Lincoln.

The Murray Lyceum Course will soon need attention, and the sale of tickets will demand the appointment of a rustling committee. Make up your mind that yourself and the members of your family will attend the numbers this fall. This will lighten the burden of the ticket sellers. The season tickets will be the life and success of the winter's course.

Miss Pauline Oldham bought the farm belonging to Font Wilson last Saturday. This land was formerly owned by Robt. Good, and lays three miles east of Murray. It will make an excellent stock farm for Miss Oldham. It has plenty of good pasture land with running water, and has very good improvements. Miss Oldham has been very successful for the past number of years in the stock business, and the new possession will permit her to make greater advancement in the fine stock line.

### THE WISE CHINAMAN

The Englishman says, "How do you do?" The Egyptian greets you "Do you sweat copiously?" but the wisest is the Chinaman, whose greeting is, "Is your stomach in good order?" Good stomach means perfect health and therefore such a salutation reveals a just sense of life. And if you suffer from stomach disorders, constipation, indigestion, headaches, insomnia, nervousness, etc., Triner's American Elixir of Bitter Wine is just what you need. This remedy cleans the intestines, aids digestion and sharpens appetite. It is both efficient and palatable. You can get it at your druggist's. And you will get there also Triner's Liniment, the most dependable remedy for rheumatic and neuralgic pains, lumbago, sprains, swellings, etc.—Joseph Triner Company, 1333-43 S. Ashland Ave., Chicago, Illinois.

## DOCTORS REMAKE WOUNDED MEN

Red Cross Worker Tells of Marvels of Reconstruction Surgery.

### EASY TO GIVE MAN NEW FACE

Soldiers Brought to Hospital in France With Countenances Merely Blurs Sent Away With Normal Visages.

New York.—Miss Eva Hammond of the American Red Cross, who returned recently from Europe after nearly five years' service with the allied armies, and who wears decorations of the British and French governments, told of the wonderful results achieved in reconstructive surgery by the surgeons of the American and allied armies. Miss Hammond, whose home is in San Francisco, was attached to the staff of the American Red Cross hospital in Neuilly, France.

"It is surprising how many things can be done to a man by a shell and leave him still living," Miss Hammond said. "And the things that can be done to make it worth while for him to go on living are even more surprising."

"Dental surgery is one profession that has gone ahead from the impacts of the war in leaps and bounds. The marvels that the doctors of dentistry performed were not entirely unknown before the war, but they were in the theoretical stage. There was no chance to put those theories into practice, except in widely isolated cases. The war proved that those theories were sound and practicable; it afforded them a means of development. There is nothing impossible in dental surgery now."

Make New Faces.  
"I have seen men come into that hospital of ours with bloody jaws where their faces had been. Fed through tubes and kept alive. I have seen their remaining bits of skin stretched over the raw places, which filled with new flesh under careful treatment, and finally they have gone out into the world with new faces."

"There was one man, I remember, who came in to us with his entire face gone—nothing left but one eye. We fed him through a tube, built him a metal jaw, fitted with teeth, and made him look like a human being again, except that he had no nose—only two nostrils. We found him a false nose and a pair of spectacles attached, hiding the scarred flesh around his missing eye, and making him look so much like another man that one would not have glanced at him a second time to note his deformity."

"Another man came to us with the greater part of his face intact, but with no nose. It had been shot off completely, leaving his flesh flat from chin to forehead. We made him a nose to fit him. From the place where his nose had joined to his forehead there hung a little wisp of skin. This was pulled down, stretched every day, and kept dry and healthy by an antiseptic powder. Finally it grew to the correct length for a nose. Then we opened his wrist and grafted a piece of bone to the place where his nose should have been, binding arm and face together until the operation was completed. Then we adjusted the skin, which filled out with healthy flesh, and there was a new nose."

Easy to Give Man New Face.  
A man whose face had been hanging down from below his eyes, Miss Hammond says, was a simple case. His face was sewn back in place.

"I met him on the street in Paris," she says, "just two days before I sailed, and his face looked just as usual, except for a slight scar which ran along under his eyes and across his nose. In time it will almost disappear. A man who had been the victim of a freak shell which had ripped out every one of his teeth, leaving him otherwise unharmed, was supplied with new gums and a complete set of upper and lower false teeth. I have even seen a man with his brain bulging down over his eye from a jagged cut in his skull. The brain has been carefully pressed back in place, and the head fitted with a metal plate. This operation leaves the patient perfectly normal so far as his mental condition is concerned. He is, however, unable to go about much in the hot sun, as strong heat affects him, and he cannot drink because it irritates the brain."

Sometimes, Miss Hammond said, a patient would be brought into the hospital with his leg smashed to pieces. Instead of making a hurried amputation, every effort was made to save the injured limb. It was put into a frame, and in a short time the smashed bones would take a position, knit, and begin to grow together, while the splintered bits would gradually work their way out of the leg through the flesh.

### MAJ. GEO. N. PUGSLEY BACK FROM WAR

There was rejoicing at the home of Mr. and Mrs. W. A. Taylor Friday evening, when Maj. Pugsley arrived from New York city where he landed on the 17th. He came direct to Plattsmouth as Mrs. Pugsley and son George have been spending the summer months at the home of Mrs. Pugsley's parents.

Maj. Pugsley's career began several years ago when he joined the national guards and was sent down to Texas on account of the border trouble and after serving seven months he returned home and when this country declared war on Germany he enlisted in the medical reserves and was called to active service soon afterwards and after spending several months at training camps he was sent over to France as sanitary officer of the 39th division and later was made surgeon of the 5th replacement depot and after the armistice was signed he was made surgeon of the 3rd military district. Maj. Pugsley had the opportunity of visiting in Paris and London and also visited relatives in Scotland whom he had never seen.

Maj. Pugsley says when speaking of the destruction wrought by the Germans it is too terrible to think about especially that part of France which included a section of the Hidenburg line that hardly changed its position in four years he says the destruction is beyond description.

Stationary at the Journal office.

Maj. Pugsley will go to Camp Dodge Sept. 12 for his discharge completing two years of service in the world war after which he will return to Omaha and again resume his practice as a physician and surgeon.
