

SHOPMEN AT HAVELOCK GO OUT ON STRIKE

CARPENTERS, ELECTRICIANS AND A FEW OTHERS REMAINED ON THE JOB.

CAUSE IS NOT MADE PLAIN

Said to Have Been a Result of the Agitation That Has Been Going On Among Railway Employees.

From Wednesday's Daily.

Eight hundred shop workers at the Burlington's shops at Havelock went on strike at 10 a. m., Tuesday. Carpenters, electricians and a few men in the boiler department remained at work. The carpenters and electricians claimed to have no order to strike and said they would not join an unauthorized strike.

At the office of T. Roope, superintendent of motive power for the lines west, it was said that no men had struck at any other shop point on the lines west. It was said Mr. Roope had assurances from several shop forces that they had received no strike orders and would not strike.

Mr. J. S. Worsham, of the Havelock and Lincoln local federation of the C. B. & Q. federated trades, said that he did not care at this time to be quoted in connection with the matter.

He said: "I have nothing officially to say. All I can say is that we are out on strike."

Asked who ordered the strike, he said, that was indefinite and uncertain, but that it was a result of the agitation that has been going on. Reports have reached the shopmen that men are out at Omaha and elsewhere but they have no confirmation as to this, and would have to depend upon the press for information thereon.

Reports from Havelock a day or two ago indicated just what had been published from Washington, that the strike order for September 2 had been withdrawn and that awaiting further developments there would be no strike. Saturday evening a rumor started that a strike would be called but this was not substantiated.

A few days ago when shopmen were striking on other roads men connected with the shop trades at Havelock did not strike and made it plain that they would obey their national officers, striking only when they had orders to strike. The walk-out of Tuesday morning, therefore, came as a surprise.

Saturday an inkling that trouble was ahead reached some of the officials of the road and they at once began an investigation. They were reassured by knowledge of a telegram received by one of the union officials at Washington saying the strike date set for September 2 had been called off. It was practically the same information that had been carried in press association reports.

At a late hour Tuesday afternoon there was no report of other strikes on any western road.—State Journal.

Just how seriously the situation here will be affected by the strike at Havelock has not been fully determined as yet although the local unions have received no orders as to striking. The members of the railroad shop men's unions have been

voting on the acceptance of the proposition of President Wilson to the head officers of the union for a temporary truce during the efforts to reduce the cost of living. It is not thought that there will be any movement made unless the national organizations call out a general strike and the Havelock strike seems to have been inaugurated by the organizations in that city without any order from the head officers of the unions.

Subscribe for the Journal ARRESTED ON STEALING CHARGE

Table Rock, Neb., Aug. 29.—Russel Griffin, who disappeared at the same time a touring car, belonging to C. H. Trimble, of Humboldt was missed, about the middle of June, is now languishing in jail at Falls City, having been recently captured at Springfield, Mo., by Sheriff McNulty of Falls City. The car has not as yet been located, the prisoner claiming it had been sold at Norfolk, Va., which seems to be doubted by the authorities. Mr. Griffin had been canvassing for a carpet sweeper at Humboldt at the time the auto was stolen from Trimble, with whom the prisoner boarded.

Elliott, Sr. They have taken several sight seeing trips by auto while visiting here, including the stone quarries at Louisville, the state fisheries at South Bend and all points of interest in and near our capital city.

Styles in ladies hats are more original this fall than were displayed in the past. They are more pleasing and becoming too. Let us show you today. Jardon Millinery, 2411x

The Granary on The Modern Farm

THE Granary is more and more becoming one of the most important buildings on the farm. As farmers raise more cattle and hogs they require better storage facilities. A poor Granary soon wastes more grain than the cost of a good Granary. A well-planned Granary saves time and labor.

Furthermore, with proper storage facilities a farmer is not forced to sell his grain when the market is glutted and prices are down. He is independent.

Good seed grain needs protection. It's too valuable to feed to the rats.

White Pine is the ideal wood for a granary. It gives up its moisture so completely in seasoning that for walls and floor it's the safest wood to use. And for all outside uses, it lasts for generations without warping or twisting or rotting. It is the most economical wood for exposed surfaces even at a slightly higher first cost.

Practical working plans, specifications and bill of material for the above illustrated Combination Corn Crib and Granary—or for any other farm building—will be furnished free on request, together with our estimate of the cost.

Talk this problem over with us before doing any building. Let us show you how easy it is to build with plans.

Cedar Creek Lumber Company Cedar Creek, Nebraska.

HAREN AND MONASTERY SAME TO BANDED TURKS

The harem and the monastery, two institutions as widely contrasted as any known to man are pictured for their parts in the ravishing of Armenia by the Turks in "Auction of Souls," shown at the Gem theatre on Wednesday and Thursday of next week.

In the harem Aurora Mardiganian, the Armenian girl who is the central figure in this remarkable portrayal of Turkish atrocities, is seen dressed for the pleasure of the sensuous Turk who, she is told, will treat her well, if she is affectionate and becomes a Mohammedan.

An ancient monastery where Miss Mardiganian, with the beautiful young English girl who accompanies her, are protected by the monks, and later given up when the monastery is plundered is also shown in detail. The cowled monks are seen pursuing their pious duties and later making a spirited but futile effort to save the girls.

Farmers, mechanics, railroaders, laborers, rely on Dr. Thomas' Electric Oil. Fine for cuts, burns, bruises. Should be kept in every home 25c and 60c.

Claus Speck was among those going to Lincoln this morning to attend the state fair being held in that city.

Mrs. Robert Harris and children returned today from Hillrose, Colo., where they have been for a short visit with relatives and friends.

Rev. M. A. Shine and his guest, Alderman Thomas J. Murphy, of Boston, were passengers to Omaha this morning, where they will visit with friends today.

TO PROCEED AGAINST PACKERS.

Chicago, Sept. 1.—With the return today from Washington of United States District Attorney Charles F. Clyne it became definitely known that subpoenas had been issued for the complete records of the "big five" packers in about forty cities in which the packing companies have offices. The records, together with testimony of witnesses, will be presented to the grand jury which convenes tomorrow, it was said. District Attorney Clyne has held three conferences with Attorney General Palmer in Washington, preparatory to launching the government's legal attack on the packers.

SIZE OF YANKEE ARMY ABROAD

Washington, Aug. 29.—Secretary Baker and Assistant Secretary Long of the state department, were questioned by the house foreign affairs committee as to the policy of retaining American troops in Europe and Siberia and also as to reports that American soldiers were to be sent to Silesia to police that country.
