

# RED CROWN GASOLINE

## Explosive Power

The real test of gasoline goodness is explosive power.

And explosive power depends on quick, complete combustion.

Quick, complete, clean combustion, in turn, depends on the even vaporizing and carburetting qualities of your gasoline.

Uniform carburetion and uniform explosive power go far towards explaining the superior qualities of **Red Crown Gasoline** as an engine fuel.

They account for the prompt starting, smooth, strong acceleration and distance-devouring capacity your car shows with **Red Crown Gasoline**.

For smooth, quiet, frictionless engine operation nothing excels **Polarine**—the standard oil for motors.

### LYMAN H. HOWE'S REMARKABLE VARIETY OF PROGRAM

Lyman H. Howe's travel festival, for many years a public institution in motion picture entertainment, comes to the Parmele on Tuesday, Oct. 21, upon its silver jubilee tour. Mr. Howe's entertainment has always been noted for its diversity of program. Great care has been given to rounding out the anniversary program and for months cameramen have been scouring the whole world for material.

The result is a remarkable roundup of interesting features. For instance, Mr. Howe's travel festival will take audiences to Bethlehem, Pa., where the great steel plants may be viewed at close range. Then to the Canadian Rockies, where a hike leads over dangerous icy crags and slippery snow-capped peaks. On to Peru, where we ride down the Andes on a hand-car, past quaint herds of llamas by old monasteries, and through picturesque native villages. Next to Lake Sebago in the Maine wilderness, where, at Camp

Wohela, we watch hundreds of young women disport at swimming and diving. From Maine we move to Charleston, S. C., where we visit the placid and beautiful Magnolia Gardens, famed throughout the country. On to Florida, where we indulge in thrilling tarpon fishing. Then, to cap the climax, Mr. Howe's cameramen take us to the homes and haunts of the big motion picture stars in all parts of the country, where we see the famous favorites at close range and as they really are.

This remarkable program is balanced by a number of unusual novelties, animated cartoons and trick pictures. There is a remarkable picture of dexterous clay modelling, a corking dog and cat animated cartoon and half a dozen amusing and entertaining novelties. "The best all 'round program of my career," says Mr. Howe, and he ought to know.

The merchant who doesn't advertise only when business is good will eventually quit it entirely.

### SERVING IN THE SIBERIAN ARMY

Rudolph Neumann, Son of Mr. and Mrs. Frank Neumann, Soldier in the Far-Off Land.

A letter has just been received by the Frank Neumann family announcing the fact that their son and brother, Rudolph Neumann, was a member of the American Expeditionary Forces in Siberia, where he has been for some time. The young man has been in service since the outbreak of the war with Germany and has had a great experience and is now serving in the midst of the allied forces in the far east. The letter tells very entertainingly of the trip across the Pacific in the troop transport, the boys having enjoyed a twenty-four hour leave in Honolulu, where they rested midway of the trip, and enjoyed a very pleasant voyage all the way across. He states that the conditions in Siberia are very strange to an American with the people a cross between the Russians and the oriental races.

The money values of that country are much below those of the United States and our currency is worth a great deal more than the Russian money, with the result that the troops when paid off have to have a small wagon to carry around the coin as it takes 700 kopecks to make an American dollar and therefore a great deal of money is paid to the troops in exchange for the dollar and a dime they receive for their services each day.

The troops in the northern country are equipped with very heavy clothing, Rudolph states, as the winter weather there is very intense.

#### TO CLOTHE MOUNTAINEERS.

From Tuesday's Daily. The ladies of the Woman's Auxiliary of St. Luke's church in this city are preparing to collect clothing which will be shipped to the south for use among the mountaineers of Tennessee and Kentucky, and for this purpose a collection box has been placed at the store of E. G. Dovey & Son where anyone having articles of clothing may leave them and they will be shipped to the needy ones in the south. The ladies are also collecting canned fruits and jellies which will be presented to the Clarkson hospital in Omaha for the use of the sick and all of the members of the parish and their friends will find their offerings thankfully received.

Talk about adventures!  
Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!  
Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and "shove off".

What will you get out of it? Just this:  
A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real; the kind of work that puts

beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay, over and above your meals, lodging and your first uniform outfit—good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.
