### Cuts His Foot Badly.

A young son of James Roddy, while cutting wood in the yard, had the misfortune to land the axe fairly across the top of his foot, making a yawning gap therein, some three inches in length. ### The Next Sunday's Theme.

The topic for next Sunday, at the Baptist church will be, "Election" and will be in the manner of an inquiry, "Are men born to live and die and to go to Heaven or Hell by the will of God? If so is man responsible for his salvation or damnation? If not is God just?" It is assured there will be good music, and a cordial invitation is extended to all to attend.

### Getting Good Returns.

While this country was put to the most severe test, during the past summer, in regard to the drought hurting the corn, Herman Ross who is an excellent farmer, comes thru with flying colors, as he has been picking his corn for a week working in the worst of his crop, and has shown a yield of 40 bushels per acre. ### Had Some Luck Anyway.

Some people have their fair share of luck, whether it is bad or good and this came to a young lady yesterday morning while tramping around in the swampy back waters on the Missouri river bottoms, hunting ducks. One of his rubber boots or waders, was caught in the bottom in the mud, and in endeavoring to extricate it, his foot slipped out, and in trying to place the foot firmly in the boot, sank it deeper in the mucky deposit on the bottom and he could not get his foot in the boot again. This necessitated the grappling in the slimy bottom with his hands, while the bare foot was playing hide and seek with the fish in the bottom. The boot was finally rescued and restored to its proper place, but think of the nicks in the disposition of the wearer. If you want to know any more ask Fred Clark.

### THROWN FROM CAR; HAS HIS ARM BROKEN

While Riding On a Chassis of Ford, Louis Burbee Is Thrown Off.

Louis Burbee, the son of Wm. Burbee, the proprietor of the Union Garage, while driving the chassis of a Ford touring car, which he had arranged for a truck, with only a bench for a seat, was thrown from his seat, when the car lurched on the slippery roads, entangling the young man to the side of the road, with the result that one of his arms was broken, and an injury inflicted on one of his ankles besides a number of other minor scratches, which in themselves were serious enough, but not so severe as the more extended injuries. The wounds were cared for by the surgeon and the fractures reduced. Master Burbee is getting along as well as could be expected under the circumstance, but some time will elapse before he is able to use the injured member with the facility which he obtained before the accident.

### BISHOPS ADOPT NEW FORM

Detroit, Mich., Oct. 20.—Petitions for divine guidance and protection for the president of the United States should be democratic in form, the house of bishops decided today in refusing to concur in the action by the house of deputies of the Protestant Episcopal church, in convention here, to retain the old form of prayer. The bishops endorsed the new form of prayer, rejected the old form, and the house of deputies, which also contains a plea for safeguarding the nation.

It was the contention that the old prayer, modeled after that for the monarch of England in the English prayer book, presented too strongly a plea for the man and not for the office. The house of deputies was asked to concur in adopting the new form.

By action of the house of bishops, also, Thanksgiving day is to be created a holy day of the church. Concurrence of the deputies is necessary.

In both houses progress was made today in revision of the prayer book, the bishops ratifying many of the amendments made by the deputies and the latter adopted further changes. The bishops agreed to omit the alternative absolution in the morning prayer. In the evening service confession and absolution prayers may be omitted on Sundays as permitted on week days.

In one respect today was notable in church history in that a high prelate of the Roman Catholic church, Cardinal Mercier of Belgium appeared before and addressed the convention, the cardinal appearing on invitation of the house of deputies. He expressed a sympathetic desire for concord in divine worship and voiced appreciation for America's help to Belgium during the war.

"There is a communion of our minds, our hearts, our souls in the respect and worship of a common ideal," declared the cardinal.

"We are brethren in Christian faith, we are at this moment, I think, to unite our efforts to show the world that our brotherly feeling is only a corollary of the fatherhood of God."

## FORTIFY THE SYSTEM AGAINST DISEASE

Immunity by Means of Chiropractic Spinal Adjustments

Chiropractic not only wards off disease, but in any case attacks disease at its source. Read these few lines: Health supplants disease whenever the mental impulses have free and unimpeded passage from the brain to the tissue cells, which thus receive the vital energy upon which they solely depend for their harmonious action. This done, disease cannot exist. It is impossible for a disease symptom to be present in the human body with the Spine in Perfect Alignment

Chiropractic adjustments bring the Spine into natural alignment and thus open the way for health to supplant disease.

U. S. WAITS VOTE ON THE PEACE PACT

HOPE TO HURRY FINAL VOTE

League of Nations Won't Wait For U. S.

Paris, Oct. 20.—The supreme council today discussed the possible date for the call of a meeting of the council of the league of nations. The question will again be discussed Thursday, when the date probably will be determined.

It is considered clearly impossible to wait for the United States to ratify the treaty before the formal announcement of ratification is made, because of unsettled conditions in German territory.
